Abstract: The regulations will provide rules to the accrual of rents for the use of tangible property (and interest on rent that accrues but is not paid) under a section 467 rental agreement. A section 467 rental agreement will be deferred. Certain tax avoidance transactions will be deferred. Rules will be provided for the recapture of prior understated inclusions. Comparable rules for services will be provided.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 474 Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: This project provides regulations pertaining to an election by a small business, which employs the dollar value LIFO method of pricing inventories, to use a single inventory pool. The regulations define "small business," thereby giving the rules of eligibility under this provision. Further, the regulations set forth the procedures of making a proper election and give transitional rules to govern pricing in the year of election.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 483 Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: The regulations would provide for the semiannual compounding of the test rate of interest used to determine if a deferred payments contract contains unstated interest. Thus, in the case of a contract for the sale of property that provides for no interest or an unreasonably low rate of interest that does not satisfy the test rate of interest compounded semiannually, interest will be imputed under the contract.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 512(a) Internal Revenue Code of 1954; 26 USC 514(c) Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: The regulation will address the issue of what constitutes real property acquired by a qualified trust. The guidance provided on this issue will determine the scope of the exception under 26 USC 514(c)(9) for such acquisitions from the term acquisition indebtedness. Under 26 USC 514, the existence of such indebtedness on income producing property gives rise to unrelated debt-financed taxable income. The regulation will also address the issue of the proper allocation method to determine fixed indirect expenses connected with the unrelated trade or business use of an exempt organization's property.

2423. INCOME TAX--RECAPTURE OF OVERALL FOREIGN LOSSES

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 904(f) Internal Revenue Code of 1954; PL 97-248, Sec 211

CFR Citation: 26 CFR 1

Abstract: The regulations would provide rules for determining the amount of and recapturing overall foreign losses. An overall foreign loss under any one of the separate limitations on the foreign tax credit may offset the taxpayer's United States tax on United States source income in the year of the loss. The recapture rules provide that a portion of the taxpayer's foreign taxable income under the same limitation in subsequent years is to be recharacterized as United States source income, thereby reducing the taxpayer's foreign tax credit and preventing a double tax benefit from the loss.

2425. INCOME TAX--PROCEDURE & ADMINISTRATION--TAXPAYER'S OBLIGATION TO FILE A NOTICE OF REDETERMINATION OF FOREIGN TAX AND CIVIL PENALTIES FOR FAILURE TO FILE

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 905(c) Internal Revenue Code of 1954; 26 USC 6689 Internal Revenue Code of 1954

CFR Citation: 26 CFR 1; 26 CFR 301

Abstract: The regulations will establish procedures for taxpayers by which they must notify the Service of a change in foreign tax liability for a taxable year for which they claimed the foreign tax credit. The regulations provide special rules for redetermining the taxpayer's United States tax liability when the dollar value of the foreign currency fluctuates between the time for which the foreign tax credit is originally claimed and the time for which the foreign tax credit is redetermined. In addition, the regulations set forth deadlines for compliance with the notification requirements.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 1056 Internal Revenue Code of 1954; 26 USC 1245 Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: The regulations would provide rules for determining the basis of player contracts acquired by a purchaser upon the sale or exchange of a sports franchise. Generally, the purchaser's basis with respect to player contracts is to be determined by reference to the seller's adjusted basis and the gain the seller recognizes from the transfer of the player contracts. Exceptions are provided in the cases of certain corporate one-year liquidations, certain like-kind exchanges and for certain transfers relating to decedents. Furthermore, a presumption is provided that in the sale or exchange of a sports franchise, not more than 50-percent of the consideration will be allocable to player contracts unless the taxpayer can satisfy the Secretary it is proper to allocate an amount in excess of 50-percent.

Abstract: The unified rate schedule for estate and gift taxes and unified credit in lieu of exemptions will be implemented by the regulation. The regulations also relate to the estate tax consequences of transfers made within three years of death. In addition, the regulations clarify the situs test of foreign partnerships for purposes of the estate taxation of nonresident alien decedents. The regulations also provide rules relating to charitable remainder trusts.

CFR Citation: 26 CFR 1

Abstract: Allows estate tax liability for employer securities to be assumed by ESOP's rather than by the executor. To qualify, a qualified amount of employer securities must be acquired by the ESOP from "or on behalf of" the decedent. In addition, the executor must elect, in writing, to assume the attributable estate tax liability on behalf of the ESOP. The ESOP then becomes liable for the estate tax.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 3406 Internal Revenue Code of 1954

CFR Citation: 26 CFR 31

Abstract: The regulations will provide that a tax equal to 20 percent of any reportable payment is required to be withheld if certain conditions exist. With respect to reportable interest or dividends, backup withholding applies if (1) no number is provided in the manner required, (2) the Service notifies the payor that the payee's taxpayer identification number is not correct, (3) the payee is subject to backup withholding due to a notified payee underreporting, and (4) the payee fails to certify when required that he or she is not subject to backup withholding due to notified payee underreporting. With respect to other reportable payments (such as rents, royalties, nonemployee compensation, broker transactions, or barter exchanges), backup withholding applies if (1) no taxpayer identification number is provided, or (2) the Service notifies the payor that the payee's taxpayer identification number is not correct.

Significance: Regulatory Program

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 6011 Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: The regulations would require certain returns to be filed on magnetic media. Prior to enactment of section 319 of the Tax Equity and Fiscal Responsibility Act of 1982, there was no statutory or regulatory requirement that any particular return be filed on magnetic media or in other machine-readable form. The regulations would provide standards for determining which returns would be required to be filed on magnetic medias.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 6045 Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: The regulations in this project clarify the definition of the term "commodity" for purposes of broker reporting. Rules are provided for determining whether personal property (including gold and silver) is a commodity. Generally, the term "commodity" is defined as personal property that is deliverable in satisfaction of a regulated futures contract, certain specified personal property that the secretary determines is to be treated as a commodity or any form or quality of or any interest in such personal property. The term "commodity" does not include a security, regulated futures contract, forward contract, or a form of tangible personal property if the gross proceeds from its sale exceed by more than 15 percent its value as a commodity. The rules proposed include alternative methods (the "exact" and "approximate" methods) of tangible personal property valuation.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 7609 Internal Revenue Code of 1954; 26 USC 7610 Internal Revenue Code of 1954

CFR Citation: 26 CFR 301

Abstract: An administrative summons is used by the Internal Revenue Service to obtain taxpayer records in the hands of a third party recordkeeper, such as a bank. Sections 331, 332, and 333 of the Tax Equity and Fiscal Responsibility Act of 1982 amended sections 7602 and 7609 of the Internal Revenue Code of 1954 relating to administrative summonses. The amendments alter the circumstances under which an administrative summons may be issued and also alter the rights and obligations of the subject taxpayer and third-party

recordkeeper. This regulation project will provide guidance relating to these new administrative summons procedures.

Significance: Regulatory Program

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 7872 Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: These temporary regulations provide taxpayers with a list of loan transactions that are not subject to section 7872. If a loan is subject to section 7872, the below-market loan is recharacterized as a market-interest rate loan coupled with a payment by the lender to the borrower in an amount generally equal to the amount of imputed interest. Taxpayers who are parties to a loan listed in these regulations are not subject to section 7872 with respect to that loan. Accordingly, no amounts are imputed under section 7872.

Significance: Regulatory Program

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 7872 Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: These regulations provide guidance to taxpayers who enter into certain below-market interest rate loan transactions. The regulations explain what type of transactions are treated as loans and what type of loans are subject to the provisions of section

7872. If the loan is subject to section 7872, the below-market loan will be recharacterized as an arm's length market-interest rate loan coupled with a payment by the lender to the borrower in an amount generally equal to the amount of imputed interest. The regulations provide rules for determining the amount and the character of the imputed transfers.

2588. TO PROVIDE REGULATIONS UNDER SECTION 103A RELATING TO MORTGAGE SUBSIDY BONDS FOR COOPERATIVE HOUSING CORPORATIONS

Legal Authority: 26 USC 7805 Internal Revenue Code; 26 USC 103A Internal Revenue Code

CFR Citation: 26 CFR 1

Abstract: The regulations will interpret the rules under section 103A, relating to mortgage subsidy bonds, as those rules relate to cooperatives. A mortgage subsidy bond is an obligation a significant portion of the proceeds of which are used to provide financing for single-family, owner-occupied residences. The proposed regulations also would provide rules for the treatment of certain leasing cooperatives under section 103 (b) (4) (A), relating to industrial development bonds for residential rental projects.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 731 Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: The regulations provide that if property is contributed to a partnership and within a short period other property is distributed to the contributing partner, the distribution may fall outside of the nonrecognition provision of section 731. The regulations would provide that the substance of the transaction, rather than its form, determines whether the distribution is tax-free. The regulations would provide examples illustrating contribution/distribution transactions that will be treated as a taxable sale or exchange.

2604. ORIGINAL ISSUE DISCOUNT REPORTING REQUIREMENTS

Legal Authority: 26 USC 7805 Internal Revenue Code 1954; 26 USC 1275 Internal Revenue Code 1954

CFR Citation: 26 CFR 1

Abstract: Section 1275 (c) (2) of the Internal Revenue Code of 1954 as amended by section 41 of the Deficit Reduction Act of 1984 requires the issuer of a publicly offered debt instrument having original issue discount to furnish the Secretary certain information with respect to such an issue. These temporary regulations require that an issuer of a publicly

offered debt instrument issued at a discount furnish the Secretary with his or her name, address, and taxpayer identification number, the issue date, maturity date, and CUSIP number of the issue, the amount of original issue discount for the entire issue, the issue price (expressed as a percentage of the stated redemption price at maturity), the stated redemption price at maturity, the stated interest rate and dates of interest payments, and a description of the issue. The information will be used to update Publication 1212, a list of publicly offered original issue discount obligations to enable brokers and other middlemen to identify publicly traded OID obligations.

Legal Authority: 26 USC 4041 Internal Revenue Code of 1954; 26 USC 4481 Internal Revenue Code of 1954; 26 USC 4482 Internal Revenue Code of 1954; 26 USC 4483 Internal Revenue Code of 1954; 26 USC 6427 Internal Revenue Code of 1954; 26 USC 7805 Internal Revenue Code of 1954

CFR Citation: 26 CFR 41; 26 CFR 48

Abstract: These regulations will impose a graduated use tax on heavy vehicles which use public highways. Heavy vehicles which use public highways for less than 5,000 miles (less than 7,500 miles in the case of agricultural vehicles) will be exempt. This tax will be effective July 1, 1984. There will be a one-year reduced rate available for truck fleets of 5 or less. The regulations will also impose an increase in the tax on diesel fuel to 15 cents a gallon and provide a one time credit or refund to original purchasers of lightweight diesel-powered highway vehicles. The increased diesel fuel tax is effective August 1, 1984.

2607. EXCISE TAX--EXEMPT FRONT-END OIL UNDER THE CRUDE OIL WINDFALL PROFIT TAX ACT 1980

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 4994(c) Internal Revenue Code of 1954

CFR Citation: 26 CFR 51

Abstract: These regulations would provide rules relating to the treatment of front-end tertiary oil under the crude oil windfall profit tax. The proposed regulations explain the exemption from the windfall profit tax for domestic crude oil that is removed from the premises before October 1, 1981, and that is treated as front-end oil and used to finance a front-end tertiary project on one or more properties each of which is a qualified property.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 6038 Internal Revenue Code of 1954; 26 USC 6038A Internal Revenue Code of 1954; PL 97-248, Sec 338; PL 97-248, Sec 339

CFR Citation: 26 CFR 1

Abstract: The regulations would provide that certain foreign-owned corporations which transact business with other related corporations must furnish information about those transactions and the transacting corporations. The purpose of the reporting requirement is to verify that income is being reported accurately. The regulations would also amend existing penalty provisions for failure to supply information relating to certain foreign corporations, to conform those provisions to new statutory penalties imposed under the Tax Equity and Fiscal Responsibility Act of 1982.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 6045 Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: These regulations were designed in order to alleviate certain situations in which multiple deductions or exclusions were being claimed with respect to a single payment made with respect to a single security. These situations developed because of shortcomings in the broker reporting system. These regulations provide that a broker must furnish statements to its customers with respect to certain substitute payments received by the broker on behalf of its customer. These regulations also provide that brokers must make returns of information respecting any customer to which such broker is required to furnish a statement.

Semiannual Regulatory Agenda

ACTION

ACTION

45 CFR Ch. XII

Executive Order 12291, Federal Regulation, Semiannual Agenda of Regulations

AGENCY: ACTION.

ACTION: Publication of semiannual agenda.

SUMMARY: This agenda announces the regulations that ACTION will have under development, revision or review during the next year. The purpose for publishing this agenda is to give notice of any regulatory activity by the Agency in order to allow the public an opportunity to participate in the rulemaking process.

FOR FURTHER INFORMATION CONTACT: The public is encouraged to contact the Agency official listed for the particular agenda item. For other information concerning ACTION regulations or this semiannual agenda contact Ronald C. Owens, Associate General Counsel, ACTION, 806 Connecticut Avenue, N.W., Washington, D.C. 20525, (202) 634-9333.

SUPPLEMENTARY INFORMATION: In accordance with Executive Order 12291, Federal Regulation, and the Regulatory Flexibility Act (5 U.S.C. 605) executive agencies are required to publish in the **Federal Register** semiannual regulatory agendas in April and October of each year.

The regulations being considered by ACTION are not "major" rules within the meaning of E.O. 12291 and no Regulatory Impact Analysis is required. ACTION has determined that the regulations under consideration will not impose compliance costs or reporting burdens on the public; and that the regulations will not have a significant economic impact on a substantial number of small entities. Accordingly, no Regulatory Analysis is required under 5 U.S.C. 602.

DATED: September 12, 1985.

Rick Ventura,

Acting Director.

Legal Authority: 16 USC 470 et seq

CFR Citation: 36 CFR 800

Abstract: In order to streamline and increase the effectiveness of the Council's regulations at 36 CFR Part 800, the Council is in the process of preparing revisions to its regulations. The reason for the revisions is to implement new regulatory authorities set forth in PL 96-515, and to improve the efficiency of the historic preservation review process. The alternative to revision of the regulations is to leave them as they are, which would not achieve the goals the Council seeks. The revisions are expected to reduce the cost of complying with the regulations.

Environmental Protection Agency

Semiannual Regulatory Agenda

EPA

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Ch. I

[FRL #2905-7]

Regulatory Agenda

AGENCY: Environmental Protection Agency (EPA).

ACTION: Regulatory agenda.

SUMMARY: EPA revises the Regulatory Agenda semiannually and it appears in the **Federal Register** each April and October. It provides specific information on the status of regulations that are under development, revision, and review at the Agency. The Agenda is published to keep interested parties informed of the progress of EPA regulations.

ADDRESSES: For specific information on any item in the Agenda, please contact the person listed with each entry.

If you have any suggestions for improving this publication, or need general information about the Agenda, please call or write to Angela Tyler, Regulation Management Staff, Environmental Protection Agency, PM-223, Washington, D.C. 20460, (202) 382-7203.

If you want to be on the mailing list for future Agendas, please call or write to Penelope Parker, Regulation and Information Management Division, Environmental Protection Agency, PM-223, Washington, D.C. 20460, (202) 382-5480.

FOR FURTHER INFORMATION CONTACT: Angela Tyler, (202) 382-7203.

SUPPLEMENTARY INFORMATION:

Organization of the Agenda

The Agenda is organized by statutory area -- generally by the titles of the major legislation authorizing EPA's pollution control programs. In a few cases, the Agenda combines regulations with differing statutory authorities that have closely-related subject matter. For example, the Fuel Economy Data regulation under the Energy Policy and Conservation Act appears together with mobile source regulations under the Clean Air Act.

The statutory areas appear in the following order:

Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA)
Federal Food, Drug, and Cosmetics Act (FFDCA)
Toxic Substances Control Act (TSCA)
Clean Water Act (CWA)
Marine, Protection, Research, and Sanctuaries Act (MPRSA)
Atomic Energy Act (AEA)
Safe Drinking Water Act (SDWA)
Resource Conservation and Recovery Act (RCRA)
Hazardous and Solid Waste Management Act (HSWA)
Clean Air Act (CAA)
Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA)
General -- Other Acts (including general grant and procurement regulations and regulations that cut across several program areas)

This Agenda includes the HSWA amendments that reauthorized the RCRA program. The President signed HSWA into law on November 8, 1984. Many of the provisions were effective immediately; other provisions establish tight schedules for Agency rulemaking. Also, some sections of the statute include "hammer" provisions -- i.e., requirements that are effective on a certain date if EPA fails to issue regulations before that date.

Within each statutory area the entries are divided into three categories: (1) Regulations currently under development; (2) regulations under review; and (3) regulations and reviews of regulations that EPA is deleting from the Agenda because the Agency has completed, withdrawn, or postponed them indefinitely. Detailed information on each of these sections is presented below.

Appendix A includes a list of abbreviations of terms used in this document.

I. Current and Projected Regulations

Current and projected regulations are generally listed in the Agenda once they are within a year of scheduled publication as a notice of proposed rulemaking (NPRM) or final action. Very important regulations under development will usually appear even if the scheduled publication dates are more than a year away.

Current and projected regulations appear as: (a) "New Regulations," i.e., actions that will create new CFR parts, subparts, or subsections; or (b) "Revised Regulations," i.e., actions that revise or amend already existing CFR parts, subparts, or subsections. The word "revision" will appear in parentheses after the title of each regulation undergoing revision. All regulations appearing in the Agenda for the first time are marked with bullets (●).

The regulations are ordered numerically, by section number of the authorizing legislation. For example, all air regulations under section 109 of the Clean Air Act will appear before those under section 111.

The current and projected listings include all "significant" EPA regulations. Some are top priority regulations under development that:

- Are subject to Executive Order 12498; or
- The Agency has designated for priority development or revision.

However, the listings exclude: (a) Specialized categories of actions (such as EPA approvals of state plans and other actions that do not apply nationally); and (b) routine actions (such as pesticide tolerances and minor amendments to existing rules).

For each current and projected regulation the Agenda includes:

- The title
- The priority classification (if applicable)
- The legal authority
- The CFR reference
- A short abstract
- An analysis section (if the Agency is preparing a Regulatory Impact Analysis [RIA] and/or a Regulatory Flexibility Analysis [RFA])
- A timetable of existing and scheduled actions
- A reference to small entity impacts
- An Agency contact, and
- An additional information section

The additional information section includes the FTS phone number for the Agency contact. It also includes the Start Action Request (SAR) number, which is assigned to the regulation for internal tracking purposes.

II. Regulations Under Review

The Agenda identifies existing EPA regulations: (1) That are now under review, or (2) whose review will begin before EPA publishes the next Agenda. The purpose of such reviews is to determine whether the Agency should revise the rule, rescind it, or leave it unchanged. When finished, these reviews will appear in the completed section of the Agenda. If EPA decides to

revise or rescind the regulation, the action will appear in the following Agenda as an entry in the appropriate section for current and projected rules, and will state the timetable for completing the revision or rescission.

For each regulation under review, the Agenda provides the title, a short abstract, legal authority, CFR reference, any analysis EPA is preparing, contact person, and the schedule for completing the review. It also indicates the "review authority," which in many cases is different from the regulation's statutory authority. EPA reviews regulations under various mandates, and some reviews satisfy more than one of these mandates. The principal mandates are:

Executive Order 12498 is intended to establish annually the Administration's Regulatory Program. Its purpose is to minimize duplication and conflict among regulatory activities and enhance public understanding of the Administration's regulatory objectives.

It defines priority activities that the Agency will work on during the upcoming year.

Executive Order 12291 establishes the general policy that EPA should review its regulations to ensure that the costs of these regulations are justified by their benefits.

The Regulatory Flexibility Act requires that EPA review existing regulations that have a significant impact on a substantial number of small entities, including small businesses, small organizations, and small governments, at least once every ten years. EPA invites public comment on the need to revise the list of regulations EPA is reviewing under the Regulatory Flexibility Act.

Reviews under the RFA are identified by a "Yes" in the "small entity" category. When the Agency completes reviews of regulations with a significant impact on small entities, the Agenda entry includes an abstract that announces the Agency's decision of whether to revise, rescind, or leave the regulation unchanged. This announcement complies with the RFA and EPA's July 16, 1981 plan (46 FR 36930) for reviewing regulations under the Act.

The Paperwork Reduction Act requires EPA to review its information collection activities to determine that the Agency needs and will actually use all of the information that will be collected. The Agency should make sure that it will manage the information as efficiently as possible.

EPA must also ensure that the information to be collected is of high quality, appropriate for its intended use, and does not already exist at EPA or at some other Federal agency. In addition, the Act requires EPA to review the cost of collecting the information, so that it will be held to a minimum for both the respondent and EPA.

III. Completed Actions

These are actions that appeared in the last Agenda, but which EPA is deleting because they are completed or are no longer under consideration. The information given on these regulations and reviews of regulations is less detailed than for those that are still under consideration. Generally, entries include: (1) The date and **Federal Register** citation, if any, of the last action on the regulation, and (2) an explanation of why the Agency is deleting the regulation from the Agenda.

DATED: September 26, 1985.

John M. Campbell,

Deputy Assistant Administrator for Policy, Planning, and Evaluation.

2637. RESTRICTED USE CLASSIFICATION FOR CERTAIN ACTIVE INGREDIENTS USED IN FUMIGANTS

Legal Authority: 7 USC 136 / FIFRA 3

CFR Citation: 40 CFR 162.31

Abstract: FIFRA requires that pesticides be classified for either general use or restricted to trained, certified pesticide applicators, or people under their direct supervision. This rule would classify certain active ingredients in grain fumigants for restricted use based on an evaluation of the incremental risks and benefits of unrestricted use. Classification for restricted use permits the continued use of certain pesticides which, if used without restrictions may have unreasonable adverse effects on the

environment. Issuance of a final rule by EPA has been deferred pending completion of a comprehensive review of all grain fumigants used as substitutes to EDB(ethylene dibromide).

2638. COMPREHENSIVE REVISION OF PESTICIDE REGISTRATION AND CLASSIFICATION PROCEDURES (REVISION)

Significance: Regulatory Program

Legal Authority: 7 USC 136(a) / FIFRA 3

CFR Citation: 40 CFR 162

Abstract: These regulations will revise procedures and requirements for the registration, reregistration and classification of pesticide products as restricted use. The revisions are intended to improve the clarity of the existing rule and to integrate into the procedures aspects of the registration process, such as the Registration Standards program, which were initiated since the original regulation was promulgated.

2639. SPECIAL REVIEW CRITERIA AND PROCEDURES (REVISION)

Significance: Regulatory Program

Legal Authority: 7 USC 136 / FIFRA 3

CFR Citation: 40 CFR 162.11

Abstract: The Agency is revising its criteria for initiating special reviews of pesticides (previously known as the Rebuttable Presumption Against Registration (RPAR) Process). These revisions will make the special review process consistent with statutory changes and program experience. The Agency is also revising the procedures for special review of chemicals to make the process more efficient and to promote public discussion. The criteria are being revised at the request of the President's Task Force on Regulatory Relief.

2640. PESTICIDE PRODUCTS; PACKAGE SIZE EXEMPTION FOR CHILD RESISTANT PACKAGING (REVISION)

Legal Authority: 7 USC 136d / FIFRA 3

CFR Citation: 40 CFR 162

Abstract: EPA is proposing to amend its regulations on the use of child resistant packaging for pesticide products to provide for exemptions for certain products based on the size of the package in which the product is distributed. This revision should reduce the cost of packaging for producers who market large-size containers to the pest control service segment of the user community.

2641. PESTICIDE REGISTRATION STANDARDS: DOCKETING AND PUBLIC PARTICIPATION PROCEDURES

Legal Authority: 7 USC 136/FIFRA 3

CFR Citation: 40 CFR 155

Abstract: This proposal would establish procedures for providing additional opportunities for public participation in the development of pesticide registration standards. The procedures would establish and provide for the maintenance of a docket for each registration standard, which would be indexed and made available to the public. The procedures would also provide for publication in the Federal Register of an annual schedule of registration standards under development, as well as announcements of the availability of the public docket and registration standards.

Legal Authority: 7 USC 136/FIFRA 3; 7 USC 136/FIFRA 5

CFR Citation: 40 CFR 172; 40 CFR 162

Abstract: New microorganisms developed through advanced techniques of genetic engineering and used for FIFRA commercial purposes will be

subject to EPA requirements. OPTS is now developing a policy for handling genetically engineered pesticides, and strategies for conducting risk assessments of these organisms. A proposed policy was published in December 1984. Comments were due on April 1, 1985. The policy will be revised, as appropriate, and a final statement will be prepared. In addition, OPTS is participating in an inter-Agency Working Group on Biotechnology to ensure that the overall Federal approach is integrated and consistent.

2643. ● LABELING REQUIREMENTS FOR PESTICIDES AND DEVICES (REVISION)

Legal Authority: 7 USC 136 / FIFRA 3

CFR Citation: 40 CFR 156; 40 CFR 167

Abstract: This regulation will revise and expand the labeling requirements for pesticide products and devices. The revisions will provide for pesticide producers a comprehensive description of pesticide labeling requirements, and will result in better quality pesticide labeling for users.

2644. TOLERANCE FEES FOR PESTICIDE CHEMICALS (REVISION)

Legal Authority: 21 USC 346(a) / FFDCA 408

CFR Citation: 40 CFR 180.33

Abstract: Section 408(o) of the Federal Food, Drug, and Cosmetic Act authorizes EPA to collect fees from registrants seeking approval of tolerance petitions. The tolerance fee structure originally was designed to cover the Agency's processing costs for reviewing tolerance petitions and for establishing tolerance levels for pesticides used on food products. The Agency has not modified its tolerance fee structure since 1972. This regulation will establish a new tolerance fee structure based upon the Agency's increased costs for processing tolerance petitions.

2645. ENFORCEMENT POLICY REGARDING FAILURES TO REPORT INFORMATION UNDER SECTION 6(A)(2) OF THE FEDERAL INSECTICIDE, FUNGICIDE, AND RODENTICIDE ACT (FIFRA)(REVISION)

Legal Authority: 7 USC 136d / FIFRA 6

CFR Citation: Not applicable

Abstract: FIFRA section 6 (a)(2) requires that registrants report to EPA additional factual information regarding unreasonable adverse effects of their products. In addition to reiterating enforcement policy established in July 1979, this policy notice will expand upon the types of factual information which must be reported, and establish a uniform timeframe in which they must comply.

2648. RULE GOVERNING ISSUANCE OF EMERGENCY EXEMPTIONS FROM FIFRA (REVISION)

Legal Authority: 7 USC 136 / FIFRA 18

CFR Citation: 40 CFR 166

Abstract: The Agency intends to revise certain provisions of this rule. These revisions will reflect the results of the Agency's investigation of the consistency of decisions to grant emergency exemptions under FIFRA. These revisions will more clearly specify the conditions under which EPA will authorize emergency exemptions and permit the public an opportunity to comment on exemption requests for certain categories of pesticide chemicals, including new chemicals, chemicals suspected of posing risks, and chemicals previously cancelled or suspended by EPA. This rule is being developed as part of a pilot effort on negotiated rulemaking which would give interested parties outside the Agency greater involvement and commitment to the decision-making process.

2649. GUIDELINES ON DISPOSAL AND STORAGE OF PESTICIDES (REVISION)

Legal Authority: 7 USC 136q / FIFRA 19

CFR Citation: 40 CFR 165

Abstract: EPA's Office of Pesticide Programs is updating the Guidelines on Disposal and Storage of Pesticides to make them consistent with current regulations and technology. The Office of Pesticide Programs is also adding interpretive guidance on compliance with RCRA regulations on hazardous waste as they may apply to the disposal and storage of pesticides. These guidelines serve as guidance only and compliance is completely voluntary.

2654. DIOXINS/FURANS: TESTING RULE AND REQUIREMENTS FOR DATA SUBMISSION

Significance: Regulatory Program

Legal Authority: 15 USC 2603 /TSCA 4; 15 USC 2607 /TSCA 8

CFR Citation: 40 CFR 799; 40 CFR 712

Abstract: EPA may propose to collect information on chemicals containing polyhalogenated dibenzo-p-dioxins (PHDD's) and polyhalogenated

dibenzofurans (PHDF's). Rules may be proposed under sections 4 and 8 requiring submission of existing data and an analysis of chemicals to determine levels of PHDD's and PHDF's.

2656. ● CHEMICAL CATEGORY EVALUATIONS

Significance: Regulatory Program

Legal Authority: 15 USC 2625(c) / TSCA 4; 15 USC 2625(c) / TSCA 5; 15 USC 2625(c) / TSCA 6; 15 USC 2625(c) / TSCA 8; 15 USC 2625(c) / TSCA 9

CFR Citation: 40 CFR 700

Abstract: EPA is currently evaluating the applicability of the categorical approach to regulating new and existing chemicals. Categorical approaches would permit EPA to put new and existing chemical categories of interest on a more equal footing. The actions considered for the categories include requirements for testing under Section 4 of TSCA, requirements to provide more information on the manufacture and use of the chemicals under Section 8, requirements to limit some aspect of the manufacture or use of a chemical under Section 5, and potential action under Section 6 or 9 to limit the manufacture or use of the chemicals. Consideration will also be given to voluntary approaches to the development of data and the control of category members.

Legal Authority: 15 USC 2604 / TSCA 5; 15 USC 2607 / TSCA 8

CFR Citation: 40 CFR 704; 40 CFR 721

Abstract: EPA has instituted a program to monitor the commercial development of existing chemicals of concern and/or to gather information to support risk assessments on such chemicals. As these chemicals are identified, EPA will initiate rulemakings under TSCA section 5 and/or 8 to require reporting by the manufacturers, importers and/or processors of these chemicals. Individual proposed or final rules will be published at different times throughout the period of October 1985 to October 1986 on at least the chemicals listed below: 4,4'Methylene bis (2- chloroaniline); Hexamethylphosphoramide; Urethane; Methyl Butyl Ketone; 11-Aminoundecanoic Acid; Hexachloronorbornadiene; Polybrominated Biphenyls and Tris/2,3-Dibromopropyl Phosphate. and p-tert-Butyl Benzoic Acid (PTBBA), p-tert-Butyl Benzaldehyde (PTBB), and p-tert-Butyl Toluene (PTBT).

Legal Authority: 15 USC 2604 / TSCA 5; 15 USC 2607 / TSCA 8

CFR Citation: 40 CFR 704; 40 CFR 721

Abstract: EPA has instituted a program to follow the commercial development of selected new chemicals that have completed premanufacture notice review. EPA will issue rules on new chemicals of concern as they are identified to require follow-up reporting under TSCA Section 5 or 8, by the manufacturers and processors of the chemicals. 2659. PREMANUFACTURE NOTIFICATION: STAYED PROVISIONS (REVISION)

Legal Authority: 15 USC 2604 / TSCA 5

CFR Citation: 40 CFR 720

Abstract: On September 13, 1983, EPA stayed the effective date of sections 720.3(y), 720.36, 720.50(c), and 720.78(b) of the final premanufacture notification (PMN) rule issued under section 5 of the Toxic Substances Control Act (TSCA). The stayed provisions concerned the section 5(h)(3) research and development exemption, data requirements on related chemicals, and the definition of "possession and control". All other provisions are effective as of October 26, 1983. This reproposal will revise the stayed provisions only.

2660. GENERAL REGULATIONS ON SIGNIFICANT NEW USE RULES (SNURS) (REVISION)

Legal Authority: 15 USC 2604 /TSCA 5

CFR Citation: 40 CFR 721

Abstract: Subpart A of part 721 of 40 CFR contains general provisions for Significant New Use Rules (SNURs). The Agency has received comments requesting that the general provisions be modified to provide more flexibility in recordkeeping requirements; to revise its hazard communication provisions to make them more compatible with OSHA's Hazard Communication Standard; and to allow manufacturers and processors to seek Agency approval, outside the context of a PMN submission, for risk management measures which are equivalent to those described in a SNUR. Based on comments, EPA will revise the general provisions for SNURs.

2661. SIGNIFICANT NEW USE RULES TO EXTEND PROVISIONS OF SECTION 5(E) ORDERS

Legal Authority: 15 USC 2604 /TSCA 5

CFR Citation: 40 CFR 721

Abstract: When the Agency determines that in the absence of adequate safety data, the uncontrolled manufacture, distribution, use or disposal of a PMN substance may present an unreasonable risk, it may issue a proposed order under section 5(e) to limit the aforementioned activities. However, section 5(e) orders apply only to the PMN submitter. Once the substance is placed on the TSCA chemical inventory, other persons are free to manufacture or process the substance without controls. Therefore EPA, by rule, designates manufacture or processing of the substances for use without the specified controls as a significant new use. These SNURs ensure that the original submitter is not at a competitive disadvantage and that no uncontrolled activities will occur without an opportunity for prior Agency review.

2662. POLICY STATEMENT REGARDING CERTAIN MICROBIAL PRODUCTS

Legal Authority: 15 USC 2604/TSCA 5

CFR Citation: 40 CFR 721

Abstract: New microorganisms developed through advanced techniques of generic engineering and used for TSCA commercial purposes will be subject to EPA requirements. OPTS is now developing general policies concerning the scope of PMN requirements for genetically engineered organisms, and strategies for conducting risk assessments of these organisms. A proposed policy was published in December 1984. Comments were due on April 1, 1985. The policy will be revised, as appropriate, and final statement will be prepared. In addition, OPTS is participating in an inter-Agency Working Group on Biotechnology to ensure that the overall Federal approach is integrated and consistent.

Significance: Regulatory Program

Legal Authority: 15 USC 2605 / TSCA 6; 15 USC 2608 / TSCA 9

CFR Citation: 40 CFR 764

Abstract: Recent date indicate that inhalation of glycol ethers can cause teratogenic effects and testicular damage. EPA is considering various alternative regulations that would prohibit the use of glycol ethers in consumer products and products used in certain occupations, including auto refinishing, printing, and maintenance painting. EPA may also refer risks to the Occupational Safety and Health Administration and/or the Consumer Product Safety Commission under TSCA Section 9.

2664. SECTION 9 REPORT ON 1,3-BUTADIENE

Significance: Regulatory Program

Legal Authority: 15 USC 2608 / TSCA 9

CFR Citation: 40 CFR 764

Abstract: 1,3-butadiene is a large scale, commercial chemical used primarily for manufacturing rubber and plastic products. It is a potent animal carcinogen and was the subject of a 180-day priority review by the Agency. An ANPR was issued in May 1984. EPA has determined that a significant route for human exposure is via inhalation of this chemical in the workplace. A Section 9(a) report to the Occupational Safety and Health Administration (OSHA) will be issued in October 1985.

2665. REGULATORY INVESTIGATION OF METALWORKING FLUIDS

Legal Authority: 15 USC 2605 / TSCA 6; 15 USC 2608/TSCA 9

CFR Citation: 40 CFR 749

Abstract: The formulation of water-based metalworking fluids with nitrite in combination with alkanolamines may present an unreasonable risk to machinists due to the formulation of nitrosamines, particularly in n-nitrosodiethanolamine (NDELA). Recent studies indicate that NDELA is a potent animal carcinogen. EPA is considering various alternatives that would prohibit the intentional addition of inorganic nitrites to water- containing metalworking fluids that contain amines.

Significance: Regulatory Program

Legal Authority: 15 USC 2605 / TSCA 6; 15 USC 2608 / TSCA 9

CFR Citation: 40 CFR 765

Abstract: As described in the Federal Register on May 23, 1984, the Agency is investigating regulatory options for the reduction of three categories of exposure to formaldehyde: 1) residents exposed to formaldehyde emissions from wood products used in the construction of mobile homes; 2) similarly exposed residents of conventional homes; 3) apparel manufacture employees exposed to formaldehyde released from treated fabrics. This investigation is being conducted in consultation with HUD, OSHA and CPSC. This investigation may lead to the initiation of various control alternatives, including section 9 referral to other agencies and/or section 6 regulations.

Legal Authority: 5 USC 556 / TSCA 6(e)(3)(B)

Legal Authority: 15 USC 2605/ TSCA 6; 15 USC 2608/ TSCA 9

CFR Citation: 40 CFR 764

Abstract: MBOCA is a curing agent used in the manufacturing of elastomers and surface coatings. It has been shown to cause cancer in laboratory animals. Risks are primarily to workers, many of whom work for small businesses. The Agency is investigating regulatory options for reducing risks from exposure to MBOCA. Several studies are underway to determine the efficacy of various control methods including packaging requirements before proceeding with regulatory action. EPA is exploring various control alternatives, including referral to other agencies under TSCA.

2669. ASBESTOS ABATEMENT BUILDING OCCUPANT PROTECTION RULE

Significance: Regulatory Program

Legal Authority: 15 USC 2605/TSCA 6

CFR Citation: 40 CFR 764

Abstract: This rulemaking may set standards to ensure that building occupants and visitors are protected during asbestos abatement. The approaches being considered include (1) a rule requiring certain asbestos abatement practices based on material in EPA guidance documents; (2) a rule requiring that asbestos abatement contractors undergo certain training and be "certified" as competent to conduct asbestos abatement work; and (3) non regulatory approaches based on programs EPA has started or is expanding that would assist States in establishing programs that ensure persons performing asbestos abatement are "certified" as competent to perform such work.

Legal Authority: 5 USC 556 /TSCA 6

CFR Citation: 40 CFR 761

Abstract: On July 10, 1984, EPA promulgated a rule for inadvertently generated PCBs and authorizing the limited use of PCBs in heat transfer and hydraulic systems (49 FR 28172). EPA will issue policy statements on, and propose amendments to, the July 10 Rule in response to two petitions for judicial review of the Rule. The policy statements will clarify current provisions of the Rule. The proposed amendments will be based on EPA evaluation of new information submitted by the petitioners and other interested parties.

Significance: Regulatory Program

Legal Authority: 15 USC 2605 / TSCA 6; 15 USC 2607(a) / TSCA 8(a); 15 USC 2608 / TSCA 9

CFR Citation: 40 CFR 763

Abstract: Asbestos is a known human carcinogen. Persons are exposed to asbestos from releases to the environment during all phases of the lifecycle of asbestos products. Because of the serious risk presented to many people from exposure to asbestos during the lifecycle of asbestos products, EPA may propose a rule under Section 6 of TSCA to ban certain asbestos products for which substitutes are currently available and to phase out all or most asbestos mining and importation over 10 years. As an alternative, EPA is considering referring asbestos risks to the Department of Labor and the Consumer Product Safety Commission under Section 9 of TSCA. EPA is carefully analyzing the policy and legal aspects of a rule under TSCA versus a referral action.

Significance: Regulatory Program

Legal Authority: 15 USC 2605 / TSCA 6; 15 USC 2608 / TSCA 9

Abstract: EPA, in consultation with other Federal Agencies, intends to develop a comprehensive and integrated strategy for a regulatory investigation of methylene chloride. This regulatory investigation will determine whether or not methylene chloride presents an unreasonable risk to human health or the environment and to determine if regulatory controls are needed to eliminate or reduce exposure to methylene chloride.

Legal Authority: 15 USC 2605(e) (3) (B) / TSCA 6(e)

CFR Citation: 40 CFR 761

Abstract: Under EPA's regulations on the disposal of PCBs, spills, leaks and other uncontrolled discharges of PCBs constitute the illegal disposal of PCBs. Because such discharges of PCBs are considered to be violations of the PCB disposal regulations, EPA requires the cleanup of contamination resulting from such discharges. This regulatory action is directed toward establishing nationwide standards under TSCA for the cleanup of PCB spills. EPA will propose amendments to the PCB recordkeeping requirements to require owners of fluid containing PCBs to maintain records of cleanup. At the same time, EPA will publish for public comment, a TSCA enforcement policy for the clean up of PCB spills.

Legal Authority: 15 USC 2607 / TSCA 8(a)

CFR Citation: 40 CFR 712

Abstract: Current regulations provide that when the Interagency Testing Committee (ITC) recommends chemicals to EPA for priority consideration in the promulgation of test rules, the chemicals are automatically subject to the Section 8(a) Preliminary Assessment Information rule. This rule will amend the automatic reporting requirement to include for reporting those chemicals the ITC recommends for test rules, but are not designated for EPA's priority consideration within one year. Manufacturers and and importers of selected chemical substances must report general production, use, and exposure information with respect to the chemical substance.

2678. PARTIAL UPDATING OF CERTAIN TSCA INVENTORY DATA

Legal Authority: 15 USC 2607 / TSCA 8(a)

CFR Citation: 40 CFR 1

Abstract: This rule would update, under the authority of section 8(a) of TSCA, the production volume and plant site data for certain substances reported for the TSCA Chemical Substances Inventory. The information is needed by EPA to perform a number of activities associated with the implementation of TSCA. The current Inventory data base was compiled in 1979, based on 1977 data. The obsolescence of the Inventory data base and the lack of an alternative source that can fully satisfy EPA's requirements have formed the basis for the proposed action. EPA proposes that certain manufacturers/importers of certain substances report current production volume, plant site location, and site-limited status. After the initial reporting, follow-up reporting will be required on a regular basis.

2679. SECTION 8 (A) PRELIMINARY ASSESSMENT INFORMATION RULE

Legal Authority: 15 USC 2607a / TSCA 8(a)

CFR Citation: 40 CFR 712

Abstract: This rule adds chemicals to the list of chemicals and designated

mixtures subject to the requirements of the TSCA Section 8(a) Preliminary Assessment Information Rule - manufacturer reporting (40 CFR Part 712). Manufacturers and importers are required to submit exposure-related data (EPA Form No. 7710-35) on the chemicals. These data will be used to monitor the levels of production, import and/or processing of these substances and the avenues of human and environmental exposure to these substances. It will also support risk assessment and test rule decisions. Reporting rules may be issued on specific chemicals.

Legal Authority: 15 USC 2607(a) / TSCA 8(a)

CFR Citation: 40 CFR 712

Abstract: This rule will contain a comprehensive list of questions for industry reporting which will provide necessary information to complete chemical assessments. Each time EPA needs information on a chemical, the Agency will amend the rule to add the chemical. Not all questions will be selected for each chemical added to the rule; only the most relevant questions will be selected for each chemical. 2682. SECTION 8(D) HEALTH AND SAFETY REPORTING RULE (REVISION)

Legal Authority: 15 USC 2607(d) /TSCA 8(d)

CFR Citation: 40 CFR 716

Abstract: EPA is considering amending the Toxic Substances Control Act (TSCA) Section 8(d) Health and Safety Data Reporting Rule by: lengthening the rule's sunset provision, limiting certain reporting exemptions, and clarifying the rule's confidentiality provisions. EPA believes that these amendments will increase the number and usefulness of the health and safety data reports submitted to EPA, and will provide these reports during the same time period that EPA performs its chemical testing, hazard/risk assessment, and risk management determinations.

Significance: Regulatory Program

Legal Authority: 33 USC 1311 / CWA 301; 33 USC 1314 / CWA 304; 33 USC 1316 / CWA 306; 33 USC 1317 / CWA 307; 33 USC 1361 / CWA 501

CFR Citation: 40 CFR 435

Abstract: EPA published a final rule for BPT in 1979; NSPS and BAT standards, which had been proposed in 1975, were deferred and have subsequently been withdrawn. The agency plans to repropose regulations for NSPS and BAT; propose BCT; and make certain amendments to BPT.

Legal Authority: 33 USC 1311 / CWA 301; 33 USC 1314 / CWA 304; 33 USC 1316 / CWA 306; 33 USC 1317 / CWA 307; 33 USC 1361 / CWA 501

CFR Citation: 40 CFR 439

Abstract: EPA has promulgated revised portions of the previous interim final BPT, BAT, NSPS, PSES, and PSNS effluent limitations and standards for the pharmaceutical manufacturing point source category. Additionally, the Agency is promulgating NSPS regulations to control the discharge of conventional pollutants for new source direct dischargers. The Agency further intends to promulgate limitations for the BCT control level. However, BCT limitations will not be established until the final BCT methodology POTW cost comparison test and industry cost effectiveness test is issued. The Agency has also postponed a final decision on the BAT and NSPS regulations that would control the discharge of the nonconventional COD pollutant.

CFR Citation: 40 CFR 446

Abstract: On June 21, 1982, the Agency decided not to establish final BAT, NSPS, PSES and PSNS effluent limitations and standards for the caustic and/or water wash subcategory or final PSES for the solvent wash subcategory. The authority for this decision is provided for under the EPA-NRDC Settlement Agreement, Paragraph 8. In light of recent communications with State personnel who expressed concern about air pollution problems caused by solvent discharges from paint plants and interference with the operation of POTW's caused by paint wastewaters, the Agency will be gathering additional information on the wastewater pollutant discharges, including hazardous pollutants, from this industry. EPA will then reevaluate its June 27, 1982 decision.

Abstract: On June 21, 1982, the Agency decided not to establish final BAT, NSPS, PSES and PSNS effluent limitations and standards for caustic and/or water wash category, or final PSES for the solvent wash subcategory. The authority for this decision is provided for under the EPA/NRDC Settlement Agreement, Paragraph 8. In

light of recent concerns about solvent discharges to sewers contributing to air pollution problems and about the large volumes of hazardous pollutants being discharged to POTW's, EPA will be gathering additional information on the wastewater discharges from this industry. CFR Citation: 40 CFR 455

Abstract: EPA is developing final effluent limitations and standards for BAT, BPT, BCT, NSPS, and Pretreatment (PSES, PSNS) controls for manufacturers and formulator/packagers of pesticides and related products. Pollutants of concern include active ingredient pesticides, organic solvents, and metals. The Agency also proposes to establish test procedures for the analysis of 66 of the 137 nonconventional pesticide pollutants for which effluent guidelines were proposed in November of 1982 (47 FR 53994). These analytical procedures will be used in supporting the final effluent guidelines and will also be used for filing applications for NPDES permits, state certifications, and for compliance monitoring under the Clean Water Act.

CFR Citation: 40 CFR 415

Abstract: EPA will collect new wastewater data from rubber producing facilities for nine subcategories as part of a staged regulatory review now scheduled to run from FY 87 through FY 90. Some data obtained from the Organic Chemicals/Plastics and Synthetics Fibers project will be examined for technology transfer opportunities. Lead limits for three subcategories were studied and revisions to these limits will be made. Rubber reclaimers covered by subparts H and I have been re-examined for BCT, BAT, and NSPS regulations. National regulations will not be issued for two rubber reclaimed subcategories.

CFR Citation: 40 CFR 430

Abstract: EPA has promulgated effluent limitations and standards for BPT, BAT, NSPS, PSNS, and PSES levels of control for the Pulp and Paper point source category. BCT limitations will not be established until promulgation of the general methodology for determining appropriate levels of conventional-pollutant control under BCT. The Agency has proposed BAT and NSPS regulations that would limit the discharge of PCBs into waters of the United States from mills in this industrial category where fine and tissue papers are made from deink wastepaper. In response to a court remand of the final 1977 BPT regulation, EPA has also proposed a revised BPT limitation for the conventional-pollutant BOD in the acetate grade production subpart of the dissolving sulfite pulp subcategory. The Agency further intends to promulgate limitations for the BCT technology control level, the control of the pollutant PCB (polychlorinated biphenyls), and the BOD limitation for the acetate grade production in the dissolving sulfite pulp subcategory.

CFR Citation: 40 CFR 463

Abstract: The Agency promulgated BPT, BAT, BCT, and NSPS limitations for the plastics molding and forming industry on December 17, 1984, with the exception of three phthalates in two subcategories. Limitations were reserved for the phthalates because the Agency does not have treatability data for the technology identified to control those pollutants (i.e., activated carbon absorption). The Agency plans to obtain those data through a treatability study and then to propose and promulgate limitations for phthalates, if appropriate. The phthalates in each subcategory are: 1) bis(2-ethylhexyl) phthalate, 2) di-n-butyl phthalate, and 3) dimethyl phthalate.

Abstract: EPA is revising the cost reasonableness test for BCT effluent guidelines. EPA is making these revisions in response to a 1981 court decision. EPA proposed a revised BCT methodology and new BCT limitations on October 29, 1982 for 16 industries, including pulp and paper, inorganic chemicals, metal finishing, seafood processing, and meat products. EPA issued a notice of data availability on September 20, 1984, requesting comment on new information that is being considered for use in the final BCT methodology. Following analysis of the comments on this notice, EPA will publish a final BCT methodology and BCT effluent guidelines for certain industries identified in the CFR citations listed.

CFR Citation: 40 CFR 151

Abstract: This regulation's purpose is to prevent spills of hazardous substances into navigable waters. It sets forth requirements for the Spills Prevention Control and Countermeasure Plans for facilities which (a) are not related to transportation, (b) which store, manufacture or otherwise handle hazardous substances at their facilities, and (c) are subject to NPDES permits. The Agency will likely exempt any small facilities which store less than ten times the reportable quantities of spilled, hazardous substances.

2717. DISCHARGE OF OIL (REVISION)

Legal Authority: 33 USC 1321 / CWA 311

CFR Citation: 40 CFR 110

Abstract: This regulation defines harmful quantities of oil for purposes of section 18(m)(3) of the Deep Water Port Act of 1974 and incorporates the 1977, 1978 and 1980 amendments to section 311 of the Clean Water Act (CWA). Generally, this action extends reporting requirements for oil spills beyond the continuous zone to ocean waters and provides for an exemption from section 311 for oil discharge covered under MARPOL and section 402 of the CWA.

2719. ● FUTURE EFFLUENT GUIDELINES -- STANDARDS INITIATIVES

Significance: Regulatory Program

Legal Authority: 33 USC 1251 /CWA 402

CFR Citation: 40 CFR 122

Abstract: EPA intends to evaluate categories of industrial dischargers of hazardous or toxic pollutants; identify subcategories based upon production processes, pollutants, and applicable technologies; and determine the extent of the environmental problem and the practicality and efficiency of issuing effluent guidelines. Potential industrial categories for analysis would be selected based on requests from the EPA regional offices, States, and municipalities and from results of internal studies. Regulations for these industries would be based on complex engineering and economic studies to determine wastewater characteristics and treatment capabilities of each industrial category and subcategory.

Significance: Regulatory Program

Legal Authority: 33 USC 1401 et seq. /MPRSA

CFR Citation: 40 CFR 220 to 229

Abstract: These amendments are necessary to clarify the existing regulations, incorporate program experience gained over the past several years, and respond to the in response to the City of New York decision (546 F. 2d 1084), and address the results of the NWF v. Costle decision (629 F, 2d 118) which involved dredged material issues. Regulations will involve multi-media issues, such as how to compare impacts on small entities (i.e., small business and small governmental jurisdictions) seem unlikely, the potential for such impact will be further considered as regulations are developed.

2737. NATIONAL PRIMARY DRINKING WATER REGULATIONS: MAXIMUM CONTAMINANT LEVELS FOR VOLATILE ORGANIC CHEMICALS FOUND IN DRINKING WATER

Significance: Regulatory Program

Legal Authority: 42 USC 300 / SDWA 1412

CFR Citation: 40 CFR 141

Abstract: EPA has proposed Recommended Maximum Contaminant Levels (RMCLs) and Primary Drinking Water Regulations to certain volatile synthetic organic compounds (VOCs). These VOCs have been most commonly found in drinking water drawn from groundwater sources. These chemicals include such compounds as trichloroethylene, tetrachloroethylene, and vinyl chloride. Aeration and granular activated carbon (GAC) systems are treatment technologies that can reduce these contaminants to a low level. Preliminary estimates show that average residential monthly bills for affected systems could rise from $1 - $14 depending on the size of the drinking water system and the type of technology selected. The Agency will promulgate RMCLs (i.e. nonenforceable health goals) before it promulgates the Maximum Contaminant Levels (MCLs) (i.e., enforceable standard). Monitoring and reporting requirements for these VOCs as well as other unregulated VOCs will be proposed.

Legal Authority: 42 USC 6905 / RCRA 1006; 42 USC 6912 / RCRA 2002; 42 USC 6921 / RCRA 3001; 42 USC 6922 / RCRA 3002

CFR Citation: 40 CFR 261.33

Abstract: 40 CFR 261.33(e) currently includes disposal of commercial chemical products consisting of a single active ingredient. In addition, under the current regulations, all concentrations of the product are regulated. This action expands the definition to cover mixtures of acutely hazardous materials as well as establish deminimus concentration limits.

Abstract: The Hazardous and Solid Waste Amendments of 1984 require EPA, by November 8, 1987, to submit a report to Congress on the adequacy of the RCRA 1008(a) and 4004 Criteria in protecting human health and the environment from ground-water contamination, and on the need for additional authorities to enforce the Criteria. EPA must revise the criteria by March 31, 1988, for facilities that may receive hazardous household waste or small quantity generator waste. The revisions will include ground-water monitoring, location restrictions, and corrective action, as appropriate.

CFR Citation: 40 CFR 261

Abstract: These actions announce EPA's decision whether or not to list a waste as hazardous under RCRA. If a waste is listed as hazardous it will be subject to those requirements contained in 40 CFR Parts 262-266 and Parts 270, 271 and 124. A listing decision is an internal determination which is based on extensive waste characterization studies and toxicological evaluations. As a result of this determination, a regulatory package is prepared which then goes through Agency regulatory review procedures. The Agency can decide either to list or not to list and will justify this decision in the rulemaking package.

Legal Authority: RCRA as Amended by HSWA 245

CFR Citation: 40 CFR 260; 40 CFR 262; 40 CFR 263; 40 CFR 271

Abstract: The primary purpose of the Exports regulation is for EPA to; formally notify foreign governments of exports of hazardous waste to their country, receive confirmation of approval or disapproval and formally notify the U.S. exporter. A notification of approval by EPA must accompany each waste shipment. Only a few hundred shipments of hazardous waste are exported annually, none by small entities.

CFR Citation: 40 CFR 260; 40 CFR 261; 40 CFR 266; 40 CFR 270; 40 CFR 271

Abstract: Pursuant to the requirements of the Used Oil Recycling Act (incorporated into RCRA by amendments in 1980 and 1984), the Agency is evaluating what types of regulatory controls should apply to the re-use and re-cycling of used oil. EPA will propose regulations based on these evaluations. In addition, the Agency proposed on January 11, l985 interim controls including notification requirements for facilities that blend, distribute, and burn used oil fuel sold to non-industrial boiler owners.

Significance: Regulatory Program

Legal Authority: 42 USC 6924 / RCRA 3001, 3002, 3004, 3007, 3010, 3012

CFR Citation: 40 CFR 264

Abstract: Burning of hazardous waste in boilers for the purpose of heat recovery is currently exempt from regulation under RCRA. The Hazardous and Solid Waste Amendments of 1984 require the Agency to regulate the burning and blending of hazardous waste fuels. This regulation will set specifications for used oil fuel and prohibit the burning of hazardous waste and off-spec used oil in residential, commercial and institutional boilers. The regulations will also establish notification manifest and recordkeeping procedures for industrial boilers and furnaces burning hazardous waste and off-spec used oil.

2759. IDENTIFICATION AND LISTING OF HAZARDOUS WASTES: TOXICITY CHARACTERISTIC MODIFICATION

Significance: Regulatory Program

Legal Authority: 42 USC 6921 / RCRA 3001

CFR Citation: 40 CFR 261

Abstract: A number of chemicals will be selected that pose a health hazard such as CAG carcinogens, pesticides, and compounds found to cause damage (these chemicals and concentration levels will be added to the toxicity characteristics). Using ADI's and CAG risk values, waste concentration values would be derived which would yield hazardous exposure levels. This revision would require that each waste generator assess their wastes to determine in the waste exhibits the toxicity characteristic; a positive finding would then require its management as a hazardous waste. This regulation will amend the Extraction Procedures Toxicity Characteristic by introducing a new leaching procedure that has been developed to address the mobility of both organic and inorganic compounds and solve the operational problems of the existing leaching procedure.

Legal Authority: 42 USC 6921 to 6925 / RCRA 3001 to 3005

CFR Citation: 40 CFR 261

Abstract: This action updates the RCRA manual of approved test methods (test methods for Evaluating Solid Waste, SW-846) with respect to methods for ground water and incinerator monitoring. This action would codify the guidance given to the regulated community by requiring that these methods be used in all aspects of the RCRA program. At present the tests are required, as appropriate, for hazardous waste definition and for incinerator stack monitoring (for example, ground water monitoring and petitions for exclusion from regulation).

Legal Authority: 42 USC 6924 / RCRA 3004; 42 USC 6925 / RCRA 3005

CFR Citation: 40 CFR 264; 40 CFR 266

Abstract: General performance requirements will be established for hazardous waste management units which 40 CFR part 264 does not currently address. These types of facilities include deep mines, silos, salt mines, thermal treatment units, and open detonation units. This action will also create performance requirements for facilities engaging in hazardous waste research activities. Legal Authority: 42 USC 6924 / RCRA 3004; 42 USC 6925 / RCRA 3005

CFR Citation: 40 CFR 270

Abstract: This regulation will amend EPA's hazardous waste management permitting regulations by establishing a class permit application form for use by facilities whose only activity subject to RCRA permitting consists of storing hazardous wastes in containers that have been generated on-site. Promulgation of this rule would expedite the permitting process for this class of facility. This is the first RCRA class/permit the Agency will issue.

Significance: Regulatory Program

Legal Authority: 42 USC 6924 / RCRA 3004 /HSWA 208

CFR Citation: 40 CFR 264H; 40 CFR 265H

Abstract: This rule would require owners and operators of hazardous waste disposal facilities to demonstrate financial responsibility for corrective action. Failures to undertake corrective action by owners or operators will

result in increasing degradation of groundwater resources and increased clean-up costs to the public. Firms with low net worth may not be able to obtain or afford other financial assurance mechanisms as they are currently structured in 40 CFR Part 264, Subpart H. The Agency is examining the effects of a national fund and restructured financial assurance instruments.

2768. LAND DISPOSAL LINER AND LEAK DETECTION REGULATION

Significance: Regulatory Program

Legal Authority: 42 USC 6924 / RCRA 3004; 42 USC 6925 / RCRA 3005

CFR Citation: 40 CFR 264; 40 CFR 265

Abstract: These amendments to the Agency's interim status and permitting rules may include requirements pertaining to double liner and leachate collection systems for certain units which are currently singularly lined, leak detection systems, leak response and repair construction quality assurance plans, removable coupons and leachate level monitoring. These amendments are considered to assure better design, construction, and operation of hazardous waste land disposal facilities and, thus, enhance protection of human health and the environment.

2769. STANDARDS FOR OWNERS AND OPERATORS OF WASTE FACILITIES: CLOSURE AND POST-CLOSURE CARE (REVISION)

Legal Authority: 42 USC 6924 /RCRA 3004; 42 USC 6925 /RCRA 3005

CFR Citation: 40 CFR 264; 40 CFR 265

Abstract: The Agency proposed revisions to the existing Subpart G and H regulations in accordance with the terms of the American Iron and Steel Institute (AISI) litigation. In addition, the revisions will clarify ambiguous language in the current regulations. Failure to promulgate these revisions directly violates the AISI settlement agreement. Under the AISI settlement agreement, failure to promulgate these revisions may lead to a direct legal challenge of the existing Subpart G and H regulations. Failure to clarify ambiguous language will create problems as the Agency implements those closure and post closure requirements.

2770. ALTERNATE CONCENTRATION LIMITS (ACL)AND OTHER GROUNDWATER REGULATORY AMENDMENTS

Legal Authority: 42 USC 6924 /RCRA 3004

CFR Citation: 40 CFR 264

Abstract: Alternative concentration limits (ACLs) provide a variance for RCRA permits that allows for some leakage of hazardous constituents. The present regulations do not allow for the use of man-made hydrogeologic barriers as part of an ACL demonstration. This regulatory amendment would explicitly allow such use. This action will also evaluate parameters and statistics for detecting ground-water contamination, and other ground- water monitoring and standards issues. This action also evaluates parameters and statistics for detecting ground-water contamination, and other ground-water monitoring and standards issues.

2771. FINANCIAL RESPONSIBILITY FOR CORRECTIVE ACTION: PRIOR RELEASES

Legal Authority: 42 USC 6901 /RCRA 3004, HSWA 206

CFR Citation: 40 CFR 264

Abstract: The current RCRA regulations require owners/operators of hazardous waste management facilities to demonstrate financial responsibility for the costs of closure and post closure (if applicable) activities. The HSWA require that owners/operators seeking a RCRA permit also demonstrate financial responsibility for completing corrective actions for prior releases. EPA plans to write implementing regulations using the financial instruments in the current hazardous waste regulations.

2773. PROPOSED CODIFICATION RULE FOR THE L984 RCRA AMENDMENTS

Legal Authority: 42 USC 6924 / RCRA 3004

CFR Citation: 40 CFR 260 to 271; 40 CFR 122 to 124

Abstract: The purpose of this rule is to expand and elaborate on specific portions of the Final Codification Rule which was effective on July 15, l985. The Final Codification Rule codified those requirements specified by the 1984 amendments to RCRA which were effective immediately or shortly after enactment. More specifically, this rule addresses such areas as minimum technology requirements for land disposal facilities; corrective action for prior releases at solid waste management units; research, demonstration and development permits and permit modifications and post-closure permits.

2774. ◎ STANDARDS APPLICABLE TO OWNERS AND OPERATORS OF HAZARDOUS WASTE TREATMENT, STORAGE, AND DISPOSAL FACILITIES; LIABILITY STORAGE

Legal Authority: 42 USC 6901 / RCRA 3004

CFR Citation: 40 CFR 264; 40 CFR 265

Abstract: The Agency is considering whether to revise the financial responsibility requirements in 40 CFR Parts 264(i) and (j) and 265. The Agency will requests comments on the availability of insurance to satisfy the existing liability coverage requirements for owners and operators of hazardous waste facilities and on methods for the Agency to address potential restrictions in the availability of coverage. EPA is considering whether any revisions to 40 CFR Parts 264 and 265 are necessary in light of the current state of the insurance market. The Agency will request comments on a range of subjects related to the availability of insurance policies that may be used to comply with the liability coverage requirements.

2775. CONSOLIDATED PERMITS: MINOR MODIFICATIONS TO EXISTING RCRA PERMITS (REVISION)

Legal Authority: 42 USC 6925 / RCRA 3005

CFR Citation: 40 CFR 270.42

Abstract: Existing regulations allow EPA to make specified minor modifications to existing RCRA permits without going through the draft permit and public participation procedures required to make more substantial changes to permits. Under the settlement agreement in NRDC v EPA, EPA is proposing an amendment which would expand the kinds of permit

modifications that qualify as minor modifications and thus are exempt from most procedural requirements.

2776. AMENDMENT TO STATE PROGRAM CAPABILITY REQUIREMENTS

Legal Authority: 49 USC 6926 / RCRA 3006

CFR Citation: 40 CFR 271.16

Abstract: This action will amend 40 CFR 271.16 to require a State either to have administrative penalty authority or to request that EPA use its administrative penalty authority when warranted. The new requirements would apply to States that have received final authorization by operation of the "money target" rule, which will provide that a State has a year (two years of a statute must be changed) to comply with federal regulations promulgated after the State obtained final authorization.

2777. STREAMLINING APPROVAL OF STATE PROGRAM REVISIONS

Legal Authority: 42 USC 6926 /RCRA 3006

CFR Citation: 40 CFR 271

Abstract: The Hazardous and Solid Waste Amendments of l984 (HSWA) result in a number of amendments to the Federal regulations at various intervals. Currently, each time any Federal regulatory amendment is made, authorized States must revise their programs in accordance with one of two procedures in 40 CFR 271.21 -- depending on whether the revision was considered "substantial" or "non-substantial"--in order to retain authorization. This revision to 40 CFR Part 271.21 would streamline the process for EPA review and approval of proposed State program revisions by eliminating the "substantial" distinction and replacing the two review procedures with one.

2781. NOTIFICATION FORM FOR UNDERGROUND TANKS

Legal Authority: 42 USC 6992 /RCRA 9002

CFR Citation: 40 CFR 280

Abstract: The HSWA requires owners of underground storage tanks holding regulated substances to notify state agencies by May 8,1986 of the existence of these tanks; specifying the age, size, type, location, and use of the tank. EPA is required to prescribe a notification form to receive the information. EPA will develop a rule that identifies those who must notify, the procedure for filing the notifications, and their content. The rule will also prescribe a form that must be used by tank owners unless the state where the tank is located has its own form that incorporates the same information.

2782. LEAKING UNDERGROUND STORAGE TANKS: REGULATIONS FOR TANKS

Significance: Regulatory Program

Legal Authority: 42 USC 6993 /RCRA 9003

CFR Citation: 40 CFR Not yet determined

Abstract: This regulation will establish, under Subtitle I of RCRA, requirements for leak detection, prevention, and closure of all underground storage tanks holding petroleum and other regulated substances. Because of the large size of the regulated community, this rule could impact a significant number of small business entities and a Regulatory Flexibility Analysis would be conducted by EPA. Promulgation of this rule, will, for the first time, establish national requirements for the storage of regulated substances, including, petroleum products in underground tanks. It will not apply to underground tanks storing hazardous wastes, which are currently regulated under Subtitle C of RCRA. These regulations will also include performance standards for new tanks; addressing the design, construction, installation, compatibility and leak detection.

Significance: Regulatory Program

Legal Authority: 42 USC 7409 / CAA 109

CFR Citation: 40 CFR 50.6

Abstract: Particulate matter is one of the major pollutants in the ambient air. EPA has reviewed the scientific criteria used as a basis for establishing ambient air quality standards for particulate matter. The Agency proposes to revise the standards to better protect public health and welfare.

Significance: Regulatory Program

Legal Authority: 42 USC 6910 / CAA 110

CFR Citation: 40 CFR 51; 40 CFR 52

Abstract: This action would revise EPA's new source requirements for new major stationary sources in PSD and Nonattainment areas. EPA is taking this action to implement a settlement agreement with Chemical Manufacturer's Association and other parties who challenged the regulation amendments promulgated on August 7, 1980.

Legal Authority: 42 USC 7410 / CAA 110; 42 USC 7601 / CAA 301; 42 USC 7619 / CAA 319

CFR Citation: 40 CFR 58

Abstract: This action will revise Part 58 to clarify and incorporate changes to the regulations deemed appropriate as a result of the past four years of experience. One of the principal revisions will propose allowing 120 days after the end of each quarter instead of the current 90 days for the submittal of National Air Monitoring System (NAMS) air quality and precision data to EPA. The 90 days were too short a time period to properly validate the air quality data. Another revision will propose to use the 1980 census data and urbanized area boundaries instead of the 1970 values for network design and evaluation purposes.

2826. RESTRUCTURE CFR PARTS 51, 52 (REVISION)

Legal Authority: 42 USC 7410 / CAA 110

CFR Citation: 40 CFR 51; 40 CFR 52

Abstract: This rule will revise 40 CFR 51, which specifies the requirements for the adoption, preparation, and submittal of state implementation plans. The revisions will delete obsolete provisions, reduce reporting requirements, and clarify portions. References to Part 51 within Part 52 will be similarly revised. Certain portions of Part 51 such as the PSD provisions will not be restructured at this time.

2828. NSPS: STATIONARY INTERNAL COMBUSTION ENGINES

Legal Authority: 42 USC 7411 / CAA 111

CFR Citation: 40 CFR 60, Subpart FF

Abstract: These regulations will require the application of best available demonstrated technology to control

nitrogen oxide emissions from stationary diesel and dual-fuel internal combustion engines. Some small oil drilling companies and municipal electric generation facilities may be affected by this standard. EPA will issue separate standards for gas and gasoline-fueled stationary I.C. engines later. The Agency is considering exempting engines with a displacement of less than 560 cubic inches per cylinder.

Abstract: EPA has reviewed this standard and is proposing to make five changes. These revisions would: (1) Exempt black liquor oxidation systems from the standards; (2) revise the existing total reduced sulfur (TRS) standard for smelt dissolving tanks; (3) revise the units of the TRS standard for smelt dissolving tanks; (4) delete the requirement to monitor the combustion temperature in lime kilns, power boilers, or recovery furnaces; and (5) change the frequency of excess emission reports from quarterly to semi-annually.

Legal Authority: 42 USC 7411 / CAA 111

CFR Citation: 40 CFR 60

Abstract: The scope of the SOCMI reactor processes NSPS includes all reactor processes (other than air oxidation reactor processes) used to manufacture 173 synthetic organic chemicals produced in quantities of at least 100 million lb/yr. These large-volume chemicals account for about 90 percent of the total domestic chemical production from the SOCMI. Furthermore, production of these large-volume chemicals is expected to have the greatest impact on nationwide VOC emissions, since the magnitude of emissions from reactor process units are generally proportional to chemical production rates.

Significance: Regulatory Program

Legal Authority: CAA 165(e)

CFR Citation: 40 CFR 51.24(l); 40 CFR 52.21(m)

Abstract: This action proposes to revise the "Guideline on Air Quality Models" (issued in April 1978) to reflect changes to the state-of-the-science of modeling and changes to current practice and policies. Revisions to the Guideline were developed in 1980 and public hearings were held. Based on public comments, EPA has conducted studies to resolve some issues. Additional evaluation studies of models, suggested by commenters and performed in accordance with the recommendations of the American Meteorological Society, are underway. Early results of both are now available and should become part of EPA's guidance. The revised guideline should greatly reduce inconsistencies in the development and revision of emission limitations and in the determination of PSD increment consumption. New modeling procedures allow potentially greater accuracy in modeling results and the attainment of clean air goals at less cost.

Legal Authority: 42 USC 7521 / CAA 202, EPCA 301; 42 USC 7601; 15 USC 2001

CFR Citation: 40 CFR 86; 40 CFR 600

Abstract: This rule will develop emission standards and test procedures applicable to methanol-fueled light-duty vehicles, light-duty trucks, heavy-duty engines, and motorcycles. Current regulations apply only to gasoline-fueled and diesel-powered vehicles. The lack of regulations is a hindrance to the development of methanol-fueled vehicles. This rule will also establish a methanol-gasoline equivalency factor for purposes of corporate average fuel economy calculation and vehicle labeling.

Legal Authority: 42 USC 7521 / CAA 202

CFR Citation: 40 CFR 86

Abstract: Through this action, EPA will consider the establishment of more stringent hydrocarbon emission standards for light-duty trucks based upon the belief that very cost-effective hydrocarbon control is available from these vehicles. 2869. IMPORTATION OF MOTOR VEHICLES AND MOTOR VEHICLE ENGINES (REVISION)

Legal Authority: 42 USC 7522 / CAA 203

CFR Citation: 40 CFR 85

Abstract: EPA is considering various options for improving the effectiveness and Administration of EPA's present regulation assessing the importation of nonconforming vehicles. Nonconforming vehicles are ones which have not been demonstrated to conform with Federal emission requirements. The regulatory revision options range from requiring that only certificate holders may import the vehicles (such entitles to bear responsibility for their emission performance) to continuing the approach in the current regulation with various improvements, to elimination of importation of such vehicles (with any minor exceptions), EPA is also considering elimination of any personal use exceptions.

2870. SMALL-VOLUME MANUFACTURERS CERTIFICATION PROCEDURE (REVISION)

Legal Authority: 42 USC 7401 / CAA 206

CFR Citation: 40 CFR 86

Abstract: This action will result in rules to provide for certification of emissions compliance for commercial importers and individuals importing vehicles into the United States. By a separate action, the Manufacturers Operations Division is revising its rules for individual vehicle importation. This action is necessary to provide an appropriate mechanism to import vehicles into the United States under certification regulations and assure their compliance with the exhaust emission standards. Current rules for small-volume manufacturers were not intended to apply to conversion of previously manufactured but uncertified configurations. However, increasingly large numbers of manufacturers who import vehicles for resale have applied for EPA certification as an alternative to individual vehicle importation. This will primarily impact small business organizations involved in importing motor vehicles. The likely impact of these changes will be increased costs to these organizations.

2872. © REMOVAL OF LEAD FROM EPA CERTIFICATION AND TEST FUELS

Legal Authority: 42 USC 7525 /CAA 206

CFR Citation: 40 CFR 86

Abstract: EPA will propose these amendments to require the use of unleaded gasoline in all emissions and

fuel economy testing of gasoline fueled light-duty vehicles, light-duty trucks, motorcycles and heavy-duty engines. EPA believes that leaded fuel is no longer needed for new gasoline fueled vehicles or engines. The proposal is consistent with EPA's desire to eliminate the use of leaded fuel in motor vehicles.

2873. EMISSION PERFORMANCE WARRANTY REGULATIONS (REVISION)

Legal Authority: 42 USC 7541(b) / CAA 207(b)

CFR Citation: 40 CFR 85

Abstract: This rulemaking will address the issue of establishing: (1) test procedures and standards for heavy-duty gasoline vehicles, (2) new standards for light-duty vehicles and light-duty trucks, and (3) alternative dynamometer loadings for the loaded short tests. These amendments are necessary so that owners of heavy-duty vehicles will have emissions warranty protection and additional owners of light-duty vehicles and trucks will be entitled to warranty protection.

Legal Authority: 42 USC 7541 /CAA 207(b)

CFR Citation: 40 CFR 85

Abstract: The U.S. Court of Appeals for the D.C. Circuit has directed EPA to amend the aftermarket parts certification regulations. There were four specific areas which the Court directed EPA to revisit. EPA was directed to develop better procedures for determining adequate grounds for manufacturer denial of a warranty claim; reconsider inclusion of specialty parts into the identification system, and improve the procedure for arbitration of warranty cost claims by vehicle manufacturers' against certified parts manufacturers.

CFR Citation: 40 CFR 80.22; 40 CFR 80.23

Abstract: This action will develop a "Preventative Action Program" to be used by gasoline retailers to help prevent self-serve fuel switching. Retailers will be afforded an affirmative defense to allegations of "allowing" fuel switching if they have effectively implemented this program. This action would also change the language of the fuel switching regulation to prohibit fuel switching in all vehicles designed to use unleaded gasoline, and not just those that still have an "unleaded only" label or fuel inlet restrictor.

Significance: Regulatory Program

Legal Authority: 42 USC 7545 /CAA 211; 42 USC 7601(a) /CAA 301(a)

CFR Citation: 40 CFR 80

Abstract: EPA is examining information relevant to a total ban on the use of lead in gasoline. The Agency is considering a set of alternatives ranging from no regulatory action to a ban as soon as January 1, 1988. This rule will have an impact on all refineries, including small refineries. Significance: Regulatory Program

Legal Authority: 42 USC 9605(8)(B) / CERCLA 105(8)(B)

CFR Citation: 40 CFR 300.66

Abstract: This action revises the National Priorities List in the National Contingency Plan. CERCLA requires that the National Priorities List be revised at least annually. Periodic revisions will allow EPA to include serious releases of hazardous substances identified as a result of site inspection programs and to delete sites that have been cleaned up.

2918. EMISSIONS TRADING POLICY (REVISION)

Legal Authority: 42 USC 7503 / CAA 110

CFR Citation: Not applicable

Abstract: EPA is refining the emissions trading policy governing the use of the bubble, emission offsets, netting, and emission reduction banking. This final policy and accompanying Technical Issues Document will provide states with a framework for incorporating emissions trading activities into their state implementation plans. Through the use of emissions trading industry can substitute more controls where costs are low for less control where costs are high. The final policy will clarify requirements and procedures based on experience under the 1982 interim policy -- particularly regarding baselines and modeling for bubbles, as well as bubbles in nonattainment areas with inadequate demonstrations.

Significance: Regulatory Program

Legal Authority: 33 USC 1344 / CWA 404

CFR Citation: 40 CFR 124; 40 CFR 232; 40 CFR 233

Abstract: Under Section 404(g) of the Clean Water Act, EPA is responsible for approving and overseeing assumption of the 404 "dredge and fill" program by States. In response to comments from the States, EPA is revising its State program regulations (formerly part of the Consolidated Permit Regulations), to provide increased incentives and simplified procedures for State assumption of the Section 404 program.

2920. DENIAL OR RESTRICTION OF DISPOSAL SITES (REVISION)

Significance: Regulatory Program

Legal Authority: 33 USC 1344 /CWA 404(c)

CFR Citation: 40 CFR 231

Abstract: This action will revise EPA's existing 404(c) regulations, in effect since October 9, 1979. It will establish the procedures to be used when EPA is considering the use of Section 404(c) of the CWA to prevent the discharge of dredged or fill material into a defined area of the waters of the United States. Section 404(c) gives the Administrator authority to prohibit or withdraw the specification of a site as a disposal site or to deny or restrict use of a disposal site. Prior to 1983, we have taken only one 404(c) action. Since that time, we have initiated eight such actions. In the preamble to the 404(c) regulations, we indicated that we would do an evaluation of these regulations within four years of the effective date. We delayed this evaluation in order to carefully consider our recent experiences with these regulations. This review is completed, and we plan to revise the regulations to reflect our findings.

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

29 CFR Ch. XIV

Semiannual Regulatory Agenda

AGENCY: Equal Employment Opportunity Commission.

ACTION: Semiannual regulatory agenda.

SUMMARY: The Equal Employment Opportunity Commission is publishing its semiannual regulatory agenda pursuant to Executive Order No. 12291, 3 CFR Part 127 (1981 Compilation) and the Regulatory Flexibility Act, 5 U.S.C. Chapter 6. The Agenda contains all regulations which are scheduled for review or development during the next twelve months.

FOR FURTHER INFORMATION CONTACT: Richard V. Roscio, Acting Assistant Legal Counsel, Legal Services, Office of Legal Counsel, Equal Employment Opportunity Commission, 2401 E Street, N.W., Washington, D.C. 20507; telephone (202) 634-6592.

SUPPLEMENTARY INFORMATION: The Commission has identified fifteen current and projected rulemakings for inclusion in the agenda. Also listed are six regulatory items which are under review. One new item was added to the agenda since the last semiannual Agenda was published and which is currently under review.

Signed in Washington, D.C. this 17th day of September, 1985.

For the Commission.

Clarence Thomas,

Chairman, Equal Employment Opportunity Commission.

2925. UNIFORM GUIDELINES ON EMPLOYEE SELECTION PROCEDURES

Significance: Regulatory Program

Legal Authority: 42 USC 2000e et seq Title VII of the Civil Rights Act of 1964

CFR Citation: 29 CFR 1607

Abstract: UGESP Recordkeeping Provisions. On March 15, 1983, the Commission voted to review those portions of the recordkeeping provisions of the Guidelines which relate to the maintenance of data necessary to determine adverse impact. Pursuant to that vote, the Commission published in the Federal Register a notice seeking public comment in general and on several specific questions about UGESP recordkeeping.

48 Fed. Reg. 34766 (Aug. 1, 1983). Approximately 45 comments were received. The Commission is currently reviewing the comments and is considering further action. On June 12, 1984, the Commission voted to prepare an NPRM concerning certain UGESP recordkeeping requirements. Prior to publication for comment, co-signatories to UGESP will engage in discussion of recommended changes and other affected agencies will be consulted under E.O. 12067.

Legal Authority: EO 12067 Sec 1-303; EO 12067 Sec 1-304

CFR Citation: 29 CFR 1690

Abstract: These amendments to 29 CFR 1690 will implement an agreement reached by EEOC and the Department of Justice with the Office of Management and Budget which clarified the sequence to be followed when agencies are required to seek prepublication clearance of equal employment opportunity rules from EEOC under E.O. 12067, DOJ under E.O. 12250, and from OMB under E.O. 12291 and the Paperwork Reduction Act. In addition to clearance by the EEOC under E.O. 12067, equal employment opportunity rules issued under Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, as amended, or any other provision of Federal statutory law which prohibits discrimination under any program or activity receiving Federal financial assistance, require clearance from DOJ under E.O. 12250. 2938. COVERAGE OF APPRENTICESHIP PROGRAMS UNDER THE AGE DISCRIMINATION IN EMPLOYMENT ACT

Legal Authority: 29 USC 628 Age Discrimination in Employment Act of 1967

CFR Citation: 29 CFR 1625.13; 29 CFR 1625.21

Abstract: The Department of Labor on January 9, 1969, published an interpretative guideline which provided that apprenticeship programs were not covered by the ADEA. On July 1, 1979, the Commission assumed responsibility and authority for enforcement of the ADEA. On September 29, 1981, the Commission republished the Department of Labor's guideline, 29 CFR 1625.13. After an exhaustive review of the ADEA and its legislative history, the Commission proposes to rescind 29 CFR 1625.13, as it presently exists, and promulgate a substantive rule providing that apprenticeship programs are covered by the ADEA. The extension of ADEA coverage to apprenticeship programs is consistent with the purpose of the Act. It will allow those forty years of age and older the same opportunities to participate in apprenticeship programs as are currently enjoyed by younger individuals.

Legal Authority: 29 USC 628 Age Discrimination in Employment Act

CFR Citation: 29 CFR 1627.15

Abstract: The purpose of the proposed amendment to 29 CFR 1627.15 is to give those covered by the ADEA more specific information about what they should do if they do wish to seek an exemption from any or all of the ADEA's prohibitions. The advantage is that the establishment of a specific procedure will facilitate the processing of exemption requests.

2941. RECORDKEEPING REGULATIONS

Legal Authority: 42 USC 2000e et seq Title VII of the Civil Rights Act of 1964

CFR Citation: 29 CFR 1602

Abstract: The Commission proposes to revise its recordkeeping regulations to require certain employers and labor unions to maintain lists of applicants for employment and to retain employment records for two years or until termination of a Commission or court processing. The Commission is considering further revisions to the proposed amendments as the result of a study on the feasibility of a uniform government-wide equal opportunity recordkeeping regulation. The study on the feasibility of a uniform government-wide EEO regulation is complete and will require further consideration by staff. Commission action on UGESP will require staff to evaluate impact of proposed regulations on 1602 recordkeeping.

Significance: Regulatory Program

Legal Authority: 42 USC 2000e et seq Title VII of the Civil Rights Act of 1964

CFR Citation: 29 CFR 1607

Abstract: On March 15, 1983, the Commission voted to review the recordkeeping portions of the Guidelines. During that review process, several questions arose which pertained to the substantive, non-recordkeeping provisions of the Guidelines. Consequently, the Commission decided to review the substantive portions of the Guidelines. The major substantive areas under review are: 1) the purpose of the Guidelines and whether there is still a need for the Guidelines; 2) the theory of adverse impact and the method of determining when such impact is significant; and 3) how to establish test validity. When the review is completed, the Commission will decide whether any regulatory revisions are needed.

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Ch. I

Semiannual Agenda

AGENCY: Federal Emergency Management Agency (FEMA).

ACTION: Semiannual agenda.

SUMMARY: Pursuant to section 5 of Executive Order 12291 ("Federal Regulations") the Federal Emergency Management Agency is publishing its semiannual agenda for FEMA. The agenda lists regulations that will be under development or review during the period October 1, 1985 to October 1, 1986.

ADDRESS: Rules Docket Clerk, Office of General Counsel, Room 840, 500 C Street, S.W., Washington, D.C. 20472.

FOR FURTHER INFORMATION CONTACT: For general information contact William L. Harding, Assistant General Counsel, Legislation and Regulations, Office of General Counsel, Federal Emergency Management Agency, Washington, D.C. 20472, (202) 646-4096. For additional information about a specific regulation contact the person listed as the contact point in the agenda.

SUPPLEMENTARY INFORMATION: Executive Order 12291, "Federal Regulations," directs each Executive agency to adopt procedures to improve existing and future regulations. Publication of an agenda of significant regulations is called for at least semiannually in order to give the public adequate notice of agency rulemaking activities; also publication of a regulatory flexibility agenda concerning rules likely to have a significant impact on a substantial number of small entities must be published in accordance with 5 U.S.C. 602 and 605.

In fulfillment of requirements imposed by the Executive Order and 5 U.S.C. 601 *et seq.*, this agenda describes current and projected regulations, and regulations which will be under review during the period October 1, 1985 to October 1, 1986. This agenda also contains information on regulations on which action was completed since the last FEMA semiannual agenda published April 29, 1985 at 50 FR 17862.

Public comment on the agenda, including that by State and local governments, is invited and should be submitted to the Rules Docket Clerk.

The agenda is not limited to major or significant rules and contains as much information as possible concerning all FEMA regulations to be published in the next 12 months except for routine flood elevation determinations, listing of eligible communities under the National Flood Insurance Program, listing of suspended communities and similar designations.

DATED: August 27, 1985.

George Jett,

General Counsel.

Legal Authority: 42 USC 5201

CFR Citation: 44 CFR 205.400

Abstract: The proposed rule revision clarifies the hazard mitigation provisions of the Disaster Relief Act of

1974 by specifying general plan requirements and guidelines as well as other procedural requirements. The Hazard Mitigation Requirement is intended to serve as an aid to State and local governments in developing an overall mitigation program to minimize the costs of natural disasters.

2948. NONDISCRIMINATION ON THE BASIS OF HANDICAP IN FEMA

Legal Authority: 29 USC 794

CFR Citation: 44 CFR 16

Abstract: This rule effectuates for FEMA the nondiscrimination requirements of section 504 of the Rehabilitation Act of 1973, as amended in 1978 to include activities conducted directly by Federal agencies. A draft regulation has been prepared and submitted to the Department of Justice and the Equal Employment Opportunity Commission for review.

2949. FEDERAL DISASTER ASSISTANCE SUB-PART E PUBLIC ASSISTANCE

Legal Authority: 42 USC 5201

CFR Citation: 44 CFR 205.70 et seq

Abstract: This proposed rule makes changes in the FEMA disaster assistance regulations implementing the Disaster Relief Act of 1974 (PL 93-288). Changes are made in the eligibility of costs of public assistance to State and local governments. This is being done in recognition of the commitment to the disaster effort now being made by applicants in the form of cost sharing of eligible costs.

CFR Citation: 44 CFR 61; 44 CFR 64; 44 CFR 66; 44 CFR 70; 44 CFR 75

Abstract: As a result of a continuing reappraisal of the National Flood Insurance Program, coverage changes will bring the insurance contract more in line with property insurance policies in the private sector, make the program more responsive to victims of catastrophe flood loss and promote fiscal soundness. There will be an increase in emergency program rates and in the minimum premium. Co-insurance will be implemented for risks incurring repetitive losses. Flood-risk zone designations on flood insurance rate maps will be revised for consistency with the existing rate tables.

Legal Authority: 50 USC App 2253 Sec 201 Federal Civil Defense Act of 1950; Reorganization Plan No. 3 of 1978 (3 CFR 1979, Comp. p. 329); EO 12148

CFR Citation: 44 CFR Chapter I, Subchapter E

Abstract: Review 44 CFR and PL 81-920 Federal Civil Defense Act of 1950, as amended, to determine if a part is needed in 44 CFR pertaining to the development and implementation of a radiological protection program at Federal, State, and local levels of government. The Radiological Protection Program provides for the protection of the citizens and property from the radiological hazards including nuclear attack and technological threats, that are a potential threat to the jurisdiction. Radiation threat of nuclear attack is unique. No alternative to this program is being considered. Funding for this program is provided by FEMA. The major benefit of this program is to provide all levels of government the capability to respond and survive a nuclear attack or peacetime radiological incident.

CFR Citation: 44 CFR 313

Abstract: The Population Protection Planning Program is designed to insure the protection of people and property from hazards each jurisdiction is likely to face. It directly supports the Integrated Emergency Management System (IEMS) and provides for the development, exercise and maintenance of a single emergency operations plan detailing tasks and procedures for coping with natural disasters, technological hazards and nuclear attack with specific procedures on sheltering and evacuation. No alternative to this program is being considered. Funding for this program is provided by FEMA. The major benefit of this program is to provide State and local jurisdictions the capability to respond and recover from a disaster, accident or incident.

2964. ● DISASTER ASSISTANCE: THE DECLARATION PROCESS

Legal Authority: 42 USC 5201

CFR Citation: 44 CFR 205, Subpart C

Abstract: This document describes several proposed regulation changes, most of which are intended to implement the requirement in the Disaster Relief Act of 1974 that Federal disaster assistance be supplemental to the efforts and resources of State and local governments. The policy would require that for each major disaster and emergency the Governor of the affected State make a commitment, on behalf of the State and local governmental and eligible private nonprofit entities, to assume 25 percent of otherwise eligible "public assistance" costs as a portion of the non-Federal effort to respond to Presidentially-declared major disasters and emergencies. This proposed rule also includes changes to the current FEMA regulations relating to FEMA policy on preliminary damage assessments, the Consolidated List of Debarred, Suspended, and Ineligible Contractors, and the FEMA-State Agreement with regard to certain Indian tribes and Alaskan Native villages.

GSA

GENERAL SERVICES ADMINISTRATION

41 CFR Chs. 1, 101, 105, and 201

48 CFR Chs. 1 and 5

Unified Agenda of Federal Regulations

AGENCY: General Services Administration.

ACTION: Semiannual agenda.

SUMMARY: This agenda announces the proposed regulatory actions that GSA plans for the next 12 months and those actions that were completed since April 1985. This agenda was developed under the guidelines in OMB Bulletin No. 85-21, dated July 15, 1985. GSA's purpose in publishing this agenda is to allow interested persons an opportunity to participate in the rulemaking process.

FOR FURTHER INFORMATION CONTACT: William W. Hiebert, Chief, Directives and Reports Management Branch (202) 535-7647.

SUPPLEMENTARY INFORMATION: GSA has six priority regulations designated by the Agency. Two of these regulations are listed under the category of current and projected rulemakings. Four are listed under the completed rulemakings. None of the regulations will have an effect on small businesses or other entities. None of the regulations listed are considered major under Executive Order 12291, Federal Regulations.

August 26, 1985.

Paul Trause,

Acting Administrator.

3012. ● SOURCE SELECTION

Legal Authority: 40 USC 486 (c)

CFR Citation: 48 CFR 515.612

Abstract: This notice invites written comments on a proposed change to the General Services Administration Acquisition Regulation (GSAR) Chapter 5, that will establish procedures and provide guidelines for source selection in competitively negotiated acquisitions. The intended effect is to improve the regulatory coverage and provide uniform procedures for contracting under the regulatory system.

3013. DEPARTMENT OF DEFENSE RESERVIST/RETIREE MILITARY EMERGENCY TRAVEL WARRANT

Legal Authority: 31 USC 3726; 40 USC 486(c)

CFR Citation: 41 CFR 101-41

Abstract: The Department of Defense will use travel warrants to obtain transportation for selected Military Reservists and Retirees who are ordered to active duty. Implementation of the travel warrant program will provide a simple and efficient system to procure transportation and pay for

services furnished, and will impose no additional burden on the Government or the public since the warrant will be used instead of GTR's.

Legal Authority: 31 USC 3701 to 3711; 31 USC 3726; 40 USC 486(c)

CFR Citation: 41 CFR 101-41

Abstract: This rule will enable Government agencies to collect by administrative offset when carriers fail to make refunds for totally unused passenger tickets in accordance with 41 CFR 101-41.210. It will also permit agencies to assess interest and penalties on delinquent refunds due the Government for totally unused tickets. It will further improve the efficiency of Government-wide efforts to collect debts owed the U.S. as prescribed by applicable Federal regulations.

3016. FEDERAL PROPERTY MANAGEMENT REGULATIONS; REVISES THE REPORTING REQUIREMENTS FOR REAL PROPERTY

Legal Authority: EO 12411

CFR Citation: 41 CFR 101-3

Abstract: This regulation revises FPMR 101-3 with changes and additions to the data elements currently collected as part of the World-Wide Real Property Inventory System. It also displays the revised forms to be used when supplying this information. These changes are necessary to monitor government-wide space reduction initiatives mandated by Executive Order 12411 - Government Work Space Management Reforms and Temporary Regulation D-70-Work Space Management Plans.

The General Services Administration has determined this is not a major rule for the purposes of Executive Order 12291 of February 17, 1981, because it is not likely to result in an annual effect on the economy of $100 million or more; a major increase in costs to consumers or others; or significant adverse effects. Therefore, a Regulatory Impact Analysis has not been prepared. GSA has based all administrative decisions underlying this rule on adequate information concerning the need for, and the consequence of this rule; has determined that the potential benefits to society from this rule outweigh the potential (cont)

3017. COLLECTION OF CLAIMS OWED THE UNITED STATES

Legal Authority: PL 97-365, Sec 10

CFR Citation: 41 CFR 105-55, (New)

Abstract: The regulations will implement the Debt Collection Act of 1982 within the General Services Administration. The regulations are required by Section 10 of the Act and by means of these regulations GSA will be better equipped to pursue claims owed to the Government arising out of GSA activities. Although the benefit will be improved claims collections, there is no way to precisely quantify the costs or benefits at this time.

Abstract: This rule updates GSA's policies and procedures concerning the Federal surplus personal property donation program. It would: (1) prescribe new and revised definitions; (2) implement Title IX of the Education Amendments of 1972; (3) change procedures for donating aircraft, drugs,

biologicals, and reagents; (4) clarify cannibalization procedures; (5) add additional terms to the State agency distribution documents; (6) clarify that conditional title, not unrestricted title, passes to a donee at the time it takes possession of the property; (7) prohibit reimbursement to State agencies for certain sales expenses; (8) change reporting requirements; (9) establish an informal appeals procedure; and (10) revise eligibility criteria for educational activities. This amendment is necessary to comply with the provisions of Title IX of the Education Amendments of 1972, section 502(a) of Public Law 94-241, and the Congressional Reports Elimination Act of 1980 (Public Law 96-470). Its intent is to increase the efficiency and effectiveness of the donation program. There should be no significant costs to the public as a result of this regulatory action. 3049. REVISION OF ACQUISITION AND MANAGEMENT PROVISIONS REGARDING THE CHANGING TELECOMMUNICATION MARKETPLACE, INCLUDING THE DETARIFFING OF CUSTOMER PREMISES EQUIPMENT (84.06A)

Significance: Regulatory Program

Legal Authority: 40 USC 486(c)

CFR Citation: 41 CFR 201-37

Abstract: This project revises FIRMR Provisions relating to Federal Telecommunications acquisition and management. It will include changes brought about by the Federal Communications Commission Computer II inquiry and the divestiture of AT&T. This regulation will provide an overview of GSA regulations and policies impacting Government-wide telecommunication management and will specifically address the need for requirements definition and analysis for local and intercity service. It will revise "major change" requirements and state what GSA needs from agencies if GSA is expected to provide services or if GSA is reviewing service for individual agency acquisitions. All obsolete provisions will be eliminated.

Semiannual Regulatory Agenda

IDCA

INTERNATIONAL DEVELOPMENT COOPERATION AGENCY

Agency for International Development

22 CFR Ch. II

Federal Regulations; Agency Regulatory Agenda Semiannual Summary

AGENCY: Agency for International Development, IDCA.

ACTION: Agency regulations agenda.

SUMMARY: The Agency for International Development (A.I.D.) is publishing this Agenda as required by section 5(a) of Executive Order 12291, Federal Regulation (46 FR 13193, February 19, 1981) and by the Regulatory Flexibility Act (Pub. L. 96-354, September 30, 1980). This agenda reports the status of those regulations currently under review and gives A.I.D.'s plan for the issuance of proposed regulations during the next twelve months. It is expected that the information provided in this agenda will enable the public to be more aware of and more effectively participate in A.I.D.'s rulemaking process.

FOR FURTHER INFORMATION CONTACT:

General: For further information on the agenda or the review list, in general, contact: Mr. Fred D. Allen, Office of Information Resources Management, Agency for International Development, Washington, D.C. 20523, Telephone (202) 632-3378.

Specific: For further information about any particular item on the agenda, contact the individual listed as the contact for that item.

Regulatory Flexibility Act (RFA): The Agency does not have any rulemaking activity that falls within the requirements of RFA and does not anticipate any during the next reporting period.

R. T. Rollis, Jr.,

Assistant to the Administrator for Management.

UNITED STATES INTERNATIONAL DEVELOPMENT COOPERATION AGENCY/AGENCY FOR INTERNATIONAL DEVELOPMENT (IDCA) — Current and Projected Rulemakings

3083. NONDISCRIMINATION ON THE BASIS OF SEX IN EDUCATION PROGRAMS AND ACTIVITIES RECEIVING OR BENEFITTING FROM FEDERAL FINANCIAL ASSISTANCE

Legal Authority: 20 USC 1681 to 1683; 20 USC 1686

CFR Citation: 22 CFR 219, (New)

Abstract: This regulation will address the problem of discrimination on the basis of sex in education programs and activities receiving or benefitting from financial assistance from the Agency for International Development. The regulation is intended to implement title IX of the Education Amendments of 1972, as amended. The regulation provides procedures for 1) assuring that such discrimination does not occur and 2) effecting compliance. The Agency is not considering any alternatives for addressing the problem. There will be some minor costs in administering the regulation; there are potential benefits to individuals who might otherwise be discriminated against.

3084. DONATION OF DAIRY PRODUCTS TO ASSIST NEEDY PERSONS OVERSEAS (416 PROGRAM)

Legal Authority: 7 USC 1431; PL 97-253, Sec 110

CFR Citation: 22 CFR 210, (New)

Abstract: This regulation sets forth provisions of the Agency for International Development (A.I.D.), acting as an Agent for the USDA/Commodity Credit Corporation (CCC), to carry out part of the responsibilities for selecting, approving, administering and implementing the Section 416 program of the Agricultural Act of 1949, as amended. This program will assist needy persons overseas and reduce surplus stocks of dairy and wheat products in CCC inventory. The donation of commodities under this new authority will be coordinated with, but not replace, assistance provided under the Agricultural Trade Development and Assistance Act of 1954, as amended, Pub. L. 83-480. The Agency is not considering any alternatives for addressing the problem. There are some minor costs in administering the regulation. The potential benefits will go to needy persons overseas.

National Archives and Records Administration

Semiannual Regulatory Agenda

NARA

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

36 CFR Ch. XII

Unified Agenda of Federal Regulations

AGENCY: National Archives and Records Administration.

ACTION: Semiannual agenda.

SUMMARY: This agenda announces the proposed regulatory actions that the National Archives and Records Administration (NARA) plans for the next 12 months and those actions that have been completed since April 1985. This agenda was developed under the guidelines in OMB Bulletin No. 85-21, dated July 15, 1985. NARA's purpose in publishing this agenda is to allow interested persons an opportunity to have more comprehensive documentation of NARA's regulatory plans and to provide a systematic means of monitoring regulatory activity in NARA. None of the regulations listed in the agenda are considered major under Executive Order 12291, Federal Regulation.

FOR FURTHER INFORMATION CONTACT: John A. Kelley, Chief, Information Management and Directives Branch, (202) 523-3214.

James E. O'Neill,

Acting Archivist of the United States.

3135. ◎ NARA IMPLEMENTATION OF PRESIDENTIAL RECORDS ACT

Legal Authority: 44 USC 2206

CFR Citation: 36 CFR 1270

Abstract: 44 USC 2206 requires that the Archivist promulgate regulations to carry out the Presidential Records Act. The law requires that the regulations provide for:

1. advance public notice of intention to dispose of valueless records;

2. notice to the former President of impending opening of otherwise restrictable records in response to judicial process, a request from the incumbent President, or request from Congress;

3. notice to the former President when disclosure of documents may adversely affect any rights or privileges he may have; and

4. establishment of procedures for consultation between the Archivist and appropriate Federal agencies regarding Presidential records which may be restricted as investigatory records compiled for law enforcement purposes.

3137. ADEQUATE AND PROPER DOCUMENTATION

Legal Authority: 44 USC 2104(a) as added by Sec. 102 of PL 98-497; 44 USC 2901 to 2909; 40 USC 486(c)

CFR Citation: 44 CFR 101-11.202; 36 CFR 1220.20

Abstract: The head of each Federal agency is required to make and preserve records containing adequate and proper documentation of the organization, functions, policies, decisions, procedures, and essential transactions of the agency. The introduction of modern technology into Federal records systems presents problems in meeting this requirement because of the erasable storage media and complex storage formats. The Archivist of the United States is required to provide guidance and standards to agencies. Thus, the National Archives and Records Administration is reviewing the regulations regarding proper and adequate documentation to determine if they are sufficient to insure proper retention and retrievability of the information until its authorized disposition under an approved records control schedule. If this review determines agencies need different or new guidance, consideration is being given to providing such information through the Bulletin structure.

CFR Citation: 4 CFR 101 to 105

Abstract: This regulation will implement the Debt Collection Act of

1966 and the Debt Collection Act of 1982 and will improve the ability of the National Endowment for the Humanities to collect money it is owed. The regulations provide that the National Endowment for the Humanities may disclose information concerning an outstanding debt to a consumer reporting agency from a system or records. The regulations also provide for the agency to contract for private debt collection services. The regulations will provide for administrative offset as a means of collecting money owed to the Government. The regulations will require that debtors be given notice of claims, interest charges and the options available to the agency for recovery of outstanding debts.

Significance: Agency Priority

Legal Authority: 29 USC 794; PL 95-602, Sec 504

CFR Citation: 45 CFR 606, (New); 45 CFR 86

Abstract: This regulation provides for the enforcement of Section 504 of the Rehabilitation Act of 1973, as amended, which prohibits discrimination on the basis of handicap, as it applies to programs or activities conducted by the National Science Foundation. Potential costs are not known. Any benefits derived will be to ensure that the handicapped will not be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity conducted by the National Science Foundation.

Legal Authority: 20 USC 1681; PL 93-568, Sec 901 to 902; PL 93-380, Sec 844

CFR Citation: 45 CFR 620, (New)

Abstract: This regulation is to effectuate Title IX of the Education Amendments of 1972, as amended, which prohibits discrimination on the basis of sex in connection with education programs and activities receiving Federal financial assistance from the National Science Foundation. Costs, if any, should be nominal since most NSF recipients are also covered by HHS regulations. Potential benefits are to ensure that any educational program or activity receiving financial assistance from NSF does not, on the basis of sex (1) exclude any person from participation in, (2) deny any person the benefits of, or subject any such person to discrimination under that program or activity.

3159. PATENTS

Legal Authority: 42 USC 1870(a) The Natl Sci. Found. Act of 1950, as amended; 35 USC 200 et seq The Bayh-Dole Act, as amended

CFR Citation: 45 CFR 650

Abstract: The Bayh-Dole Act (34 USC 200 et seq) was recently amended by title V of PL 98-620 (98 Stat. 3364, 3368). The Department of Commerce is preparing a Government-wide implementing regulation. When that regulation is completed, the Foundation's Patents regulation (45 CFR 650) will be conformed to it. Because the revision to the NSF Patents regulation will merely echo a Government-wide regulation on which the public will have had no opportunity

to comment, the Foundation expects that the revision will be published as a final rule. No additional costs will be imposed on the public as a result of the revision.

Timetable:

Action	Date	FR Cite
Next Action Undetermined		

Small Entity: No

Additional Information: The notable changes to be made in the revision of the NSF Patents regulation will be: elimination of restrictions on the licensing of NSF-supported inventions by nonprofit organizations, including universities; modification of the criteria and procedures for determining that "exceptional circumstances" warrant restricting a grantee's right to retain principal patent rights to its employees' NSF-supported inventions; and elimination of the Foundation's authority to waive the Government license and "march-in" rights in awards not subject to the Bayh-Dole Act. All these changes are required by the recent amendments to the Bayh-Dole Act.

Office of Management and Budget

Semiannual Regulatory Agenda

OMB

OFFICE OF MANAGEMENT AND BUDGET

5 CFR Ch. III

Federal Regulations; OMB Directives Included in the Semiannual Agenda of Upcoming Activities

AGENCY: Office of Management and Budget.

ACTION: Publication of semiannual agenda.

SUMMARY: The Office of Management and Budget (OMB) is publishing its semiannual agenda of upcoming activities on OMB Circulars and Office of Federal Procurement Policy Letters (OFPP Policy Letters). This action is in accordance with OMB's internal procedures for implementing Executive Order No. 12291. OMB directives are issued under authority derived from several sources including: Subtitles I, II, and V of Title 31, United States Code, Executive Order No. 11541, and other specific authority as cited. The agenda includes actions on issuances which are not regulations, but which are of public interest.

OMB Circulars and OFPP Policy Letters are directives that communicate significant government-wide policy of a continuing nature. For purposes of this agenda, we have included Circulars and Policy Letters which are designed to implement, interpret, or prescribe law or policy, or describe the procedure or practice requirements of an agency. Excluded are directives that outline procedures to be followed in connection with the President's budget and legislative programs, and directives that affect only the internal functions, management, or personnel of Federal agencies.

FOR FURTHER INFORMATION CONTACT: See agency person listed for each entry in the agenda, c/o Office of Management and Budget, Washington, DC 20503. On the overall agenda, contact Darrell A. Johnson at the above address.

3170. FEDERAL INFORMATION RESOURCES MANAGEMENT POLICIES

Legal Authority: 44 USC 35; 5 USC 552a; 40 USC 759; 31 USC 1 et seq; EO 12046; See preamble

CFR Citation: Not applicable

Abstract: In accordance with statutory requirements, the Office of Management and Budget has issued a number of policies regarding the management of Federal information resources such as computers and personal records. Implementation of the Paperwork Reduction Act, 44 USC 35, requires that the policies be brought up-to-date, integrated and made uniform. The Assistant Secretaries for Management group made a similar recommendation. The objective of this initiative is to develop a government-wide policy structure that will provide positive incentives for the efficient and effective management of Federal information resources.

3173. GOVERNMENT PUBLICATIONS (OMB CIRCULAR NO. A-3)

Legal Authority: 44 USC 1108; See preamble

CFR Citation: Not applicable

Abstract: The Circular, last revised in 1972, describes the policies and procedures for the reporting and approval of Government periodicals.

This revision clarifies definitions and simplifies reporting requirements by changing periodical approval from a one-to-five year to a one-year period. In addition to instituting an annual review and clearance process for periodicals, the revised Circular requires agencies to continue to implement an OMB-approved publications control system to monitor both periodicals and one-time publications.

Legal Authority: Budget and Accounting Act of 1921; See preamble

CFR Citation: Not applicable

Abstract: Circular A-114 was issued in April 1978. The Circular prescribes policies and procedures for improving the management of Federal audiovisual activities. Since the issuance of the Circular, several recommendations have been received (including two Comptroller General's decisions) regarding the need to revise the Circular, particularly Attachment E thereto, "Contracts for Motion Picture Productions." It is OMB's intent to review the Circular in response to the various recommendations and agencies' operating experiences.

Regulatory Agenda

AGENCY: Office of Personnel Management.

ACTION: Semiannual agenda of regulations.

SUMMARY: The following Office of Personnel Management regulations are scheduled for review or development from October 1, 1985 through September 30, 1986. This agenda carries out OPM's responsibilities to publish a semiannual agenda under E.O. 12291, Federal Regulation, and the Regulatory Flexibility Act (5 U.S.C. chapter 6). This publication in the **Federal Register** does not impose a binding obligation on the Office of Personnel Management with regard to any specific item on the agenda. Regulatory action in addition to the items listed is not precluded.

3177. ORGANIZATION OF THE GOVERNMENT FOR PERSONNEL MANAGEMENT; PERSONNEL MANAGEMENT IN AGENCIES

Legal Authority: 5 USC 1104; 5 USC 1302; 5 USC 3301; 5 USC 3302; EO 10577

CFR Citation: 5 CFR 230; 5 CFR 250

Abstract: Deletes Part 230 and transfers its regulations to Part 250, to maintain parallel structure with 5 U.S.C. Combines material formerly in Part 230 with regulations now found in Part 250 to present all regulations on agencies' authorities for personnel management in a single part of the Code of Federal Regulations. Changes improve the technical integrity of the CFR by eliminating redundancies and improving the efficiency of OPM's regulations. No change in the coverage or substance of affected regulations.

3179. PERSONNEL RECORDS

Legal Authority: 5 USC 2951(2); EO 12107; EO 12196

CFR Citation: 5 CFR 293

Abstract: The Office recently established an Employee Medical File System for Federal employees that will include an Employee Medical Folder (EMF). This folder will be separate from but a companion folder to the Official Personnel Folder (OPF). These regulations, like the regulations on the OPF, provide minimal requirements on agencies with regard to use and maintenance of the EMF.

3181. PROTECTION OF PRIVACY AND PERSONNEL RECORDS

Legal Authority: 5 USC 552a

CFR Citation: 5 CFR 297

Abstract: The Privacy Act (5 U.S.C. 552a) requires agencies to issue regulations to implement the Act.

OPM's regulations also require that agencies follow OPM's rule for those records maintained by them that are under OPM's control. These regulations have remained unchanged since 1979 and thus need revision to reflect any changes resulting from case law or OPM policy and to remove unnecessary material.

3182. EMPLOYMENT (GENERAL); EMPLOYMENT PRACTICES

Legal Authority: 5 USC 3301; 5 USC 3302; 5 USC 3304

CFR Citation: 5 CFR 300

Abstract: Clarification of the policy and appeal procedures used in developing and implementing employment practices in the recruitment, measurement and selection of individuals for appointments and promotion within the competitive service. The proposed amendments would remove a non-statutory appeal procedure which was created to provide a simple, streamlined administrative review procedure but which has, instead, become a time-consuming, convoluted process. Additionally, the proposed changes would avoid a duplicative enforcement procedure currently subject to review by OPM and MSPB, which is, more properly, within the sole jurisdiction of the EEOC.

3198. REMOVAL FROM THE SENIOR EXECUTIVE SERVICE; GUARANTEED PLACEMENT IN OTHER PERSONNEL SYSTEMS

Legal Authority: 5 USC 3595; 5 USC 3596

CFR Citation: 5 CFR 359

Abstract: Interim regulations to add a new subpart to implement Pub. L. 97-35, August 13, 1981, as amended by Pub.L. 97-346, October 15, 1982, and Pub. L. 98-615, November 8, 1984, which added provisions to Title 5 to govern SES reduction-in-force actions affecting career executives. Regulations are needed to cover certain areas not in the law, such as notification to employees and retention of records, and to implement the provisions in the law dealing with OPM's responsibility to help place career executives identified for reduction in force and with "fallback" rights following a RIF.

3203. PERFORMANCE-BASED INCENTIVE SYSTEM FOR THE GENERAL SCHEDULE; DETERMINING RATE OF BASIC PAY

Legal Authority: 5 USC 5305(a); 5 USC 5334(a); 5 USC 5338; EO 11721

CFR Citation: 5 CFR 531, Subpart B

Abstract: Under current regulations, agencies may use an employee's highest previous rate as a Federal employee, updated to account for intervening pay adjustments, as the basis for paying a higher rate than otherwise would be required by law or regulation upon promotion, demotion, reassignment, transfer, or reemployment -- without regard to the recency of the employee's previous Federal work experience. Proposed regulations would limit the use of an employee's highest previous rate by establishing a reasonable relationship between the recency of an employee's previous work experience and the current employment situation. In addition, proposed regulations would revise the current regulations to conform to the principles of the Performance Based Incentive System and correct certain longstanding basic pay administration problems. Revision may also include technical and conforming changes in 5 CFR Parts 530 and 536.

3204. PERFORMANCE-BASED INCENTIVE SYSTEM FOR THE GENERAL SCHEDULE; GRADE AND PAY RETENTION

Legal Authority: 5 USC 5334(a); 5 USC 5338; 5 USC 5365

CFR Citation: 5 CFR 531; 5 CFR 536

Abstract: Under current regulations, numerous pay administration problems exist in movements between Federal pay systems. For example, the method of determining entitlement to grade retention in movements between pay systems results in unnecessary expenditures of Federal funds and false expectations for affected employees. Proposed regulations would revise definitions of "promotion" and "demotion" to improve pay administration and minimize the number of employees entitled to grade retention in movements between pay systems. Revisions may also include technical and conforming changes in 5 CFR Parts 210, 351, and 532.

3209. GRADE AND PAY RETENTION

Legal Authority: 5 USC 5365

CFR Citation: 5 CFR 536

Abstract: Under current regulations, Federal agencies have considerable discretion in determining whether to grant grade or pay retention to employees who are or might be affected by a reduction in force, reorganization, or other management action. Proposed regulations would limit and more clearly define those situations in which grade or pay retention appropriately may be used by agencies as a management tool.

3210. ● GRADE AND PAY RETENTION; EFFECT OF GOVERNMENT-WIDE REDUCTION IN SCHEDULED RATES

Legal Authority: 5 USC 5361 to 5366

CFR Citation: 5 CFR 536

Abstract: Under current regulations it is not clear whether an employee is entitled to pay retention if there is a Government-wide reduction in scheduled rates, either by statute or as the result of an alternative plan submitted by the President under 5 U.S.C. 5305(c). Final regulations would specifically prohibit pay retention in this situation.

3212. PAY ADMINISTRATION (GENERAL); SEVERANCE PAY

Legal Authority: 5 USC 5595; EO 11228

CFR Citation: 5 CFR 550, Subpart G

Abstract: Under current regulations, the Federal Government spends too much on severance pay because of (1) lax controls over contractors in contracting-out situations, (2) a difference in eligibility requirements for discontinued service retirement and severance pay, and (3) a loophole that allows individuals to collect both severance pay and pay from a contractor if they go to work with the contractor more than 90 days after separation from Federal employment. Final regulations would place reporting requirements on Federal agencies in contracting-out situations, make the discontinued service retirement and severance pay eligibility requirements parallel, and terminate severance pay for those who accept contract employment within 52 weeks of separation.

3223. ABSENCE AND LEAVE; ANNUAL AND SICK LEAVE

Legal Authority: 5 USC 6311

CFR Citation: 5 CFR 630, Subparts A to E

Abstract: Revision of annual and sick leave regulations is necessary to update, improve, and refine the current regulations to ensure appropriate and consistent application of leave administration policies within all Federal agencies. Proposed rules would (1) add new rules to improve leave administration, (2) revise the current rules for clarification and consistency, and (3) reorganize the sections with the subparts in a more logical sequence. These and other changes, such as regulating a consistent and equitable method of liquidating leave indebtedness and revising the requirement to forgive leave indebtedness, would resolve some troublesome leave issues, improve leave administration, and result in cost savings.

3224. ABSENCE AND LEAVE; RECREDIT OF LEAVE

Legal Authority: 5 USC 6311

CFR Citation: 5 CFR 630, Subpart E

Abstract: Proposed regulations to extend the 3-year limitation on recrediting sick leave for dependents of civilian and military personnel who leave Federal employment to accompany their sponsors on overseas assignments. This amendment would alleviate the hardship and inequity many career employees suffer because of the limited number of Federal positions that are available to dependents overseas. 3242. RETIREMENT; CREDIT FOR UNUSED SICK LEAVE

Legal Authority: 5 USC 8347

CFR Citation: 5 CFR 831, Subpart C

Abstract: Unused sick leave at time of retirement is added to service credit for computation of annuity. Full-time employees receive one day of credit for eight hours of sick leave. Part-time employees receive more than one day of credit for eight hours of sick leave, on a prorated basis. Proposed regulations would treat full-time and

3321. ● PREVAILING RATE SYSTEMS

Legal Authority: 5 USC 5343; 5 USC 5346

CFR Citation: 5 CFR 532

Abstract: Proposed regulations would govern the establishment of (1) regular appropriated fund wage schedules for U.S. citizens who are Federal Wage System employees in foreign areas and certain U.S. possessions; and (2) regular nonappropriated fund wage schedules for U.S. citizens who are Federal Wage System employees in foreign areas. Wage schedules would be representative of the entire geographic area from which the employees are recruited.

Semiannual Regulatory Agenda

PANAMA

PANAMA CANAL COMMISSION

35 CFR Ch. I

Unified Agenda of Federal Regulations

AGENCY: Panama Canal Commission.

ACTION: Publication of semiannual agenda of regulations.

SUMMARY: The purpose of this agenda is to report the proposed rulemaking activities of the Panama Canal Commission. This information will allow the public to participate in the rulemaking process.

FOR FURTHER INFORMATION CONTACT: For information about a particular regulatory project, contact the person listed in the subheading "Agency Contact" for that project. For general information, contact Michael Rhode, Jr., Secretary, Panama Canal Commission, 2000 L Street, N.W., Suite 550, Washington, D.C. 20036, (202) 634-6441; or John L. Haines, Jr., Esquire, General Counsel, Panama Canal Commission, APO Miami 34011.

SUPPLEMENTARY INFORMATION: Executive Order 12291, Federal Regulation, and the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.* require that executive agencies publish in the **Federal Register** a semiannual notice of regulations which are under development or review or for which action has been completed. The Panama Canal Commission agenda contains certain regulations which are limited in public impact, but they are included to increase public awareness of Commission activities and to allow for increased public participation in the agency's regulatory review and development process. This agenda was prepared under the guidelines established by OMB Bulletin No. 85-21.

DATED: August 22, 1985.

Michael Rhode, Jr.,

Secretary, Panama Canal Commission.

Significance: Agency Priority

Legal Authority: 5 USC 5514; PL 97-365 Debt Collection Act 1982, 96 Stat.1751, Oct. 25, 1982

CFR Citation: 35 CFR 256, (New)

Abstract: The Debt Collection Act of 1982 authorizes the Federal Government to collect debts owed to it by its own current and retired military and civilian employees through the use of a salary offset. The Act requires each Federal agency to promulgate regulations to effect this collection. This regulation contains the requisite safeguards, including the right to a hearing, to insure that employees are protected from unwarranted seizure of their property.

3328. RULES FOR MEASUREMENT OF VESSELS

Legal Authority: 22 USC 3791 Panama Canal Act of 1979

CFR Citation: 35 CFR 135

Abstract: In July 1982 forty-eight nations, representing more than eighty percent of world shipping, began implementing a new, uniform method for tonnage determination in accordance with the International Convention on Tonnage Measurement of Ships, 1969. The present Panama Canal measurement system is based upon the old national tonnage measurement systems. To continue the present Panama Canal System may require that new ships be measured twice, once under the new system and again under the now out-dated national system. No timetable for rulemaking has been established. The Panama Canal Commission Board of Directors has deferred action on this rule change indefinitely. However, evaluations of the proposed tonnage measurement system will continue.

PEACE CORPS

22 CFR Ch. III

Executive Order 12291, Federal Regulations, Semiannual Agenda of Regulations

AGENCY: Peace Corps.

ACTION: Publication of semiannual agenda.

SUMMARY: This agenda announces the regulations that Peace Corps will have under development during the 12 month period from October 1, 1985 through September 30, 1986. The purpose for publishing this agenda is to give notice of any regulatory activity by the Agency in order to allow the public an opportunity to participate in the rulemaking process.

FOR FURTHER INFORMATION CONTACT: The public is encouraged to contact the Agency official listed for the particular agenda item. For other information concerning Peace Corps' regulations or this semiannual agenda, contact Robert Martin, Associate General Counsel, Peace Corps, 806 Connecticut Avenue, N.W., Washington, D.C. 20526, (202) 254-3114.

SUPPLEMENTARY INFORMATION: In accordance with Executive Order 12291, Federal Regulation, and the Regulatory Flexibility Act (5 U.S.C. 605) executive agencies are required to publish in the **Federal Register** semiannual regulatory agendas in April and October of each year.

The regulations being considered by Peace Corps are not "major" rules within the meaning of E.O. 12291 and no Regulatory Impact Analysis is required. Peace Corps has determined that the regulations under consideration will not impose compliance costs or reporting burden on the public; and that the regulations will not have a significant economic impact on a substantial number of small entities. Accordingly, no Regulatory Analysis is required under 5 U.S.C. 602.

Legal Authority: 40 USC 875(5)

CFR Citation: 36 CFR 911

Abstract: The Pennsylvania Avenue Development Corporation (PADC) is responsible for rejuvenating Pennsylvania Avenue into an attractive and pleasant physical setting which offers comfortable places for residents and visitors to stroll, rest, sit and talk, eat, and shop. The PADC recognizes the value of allowing access to the Pennsylvania Avenue Development area for the sale and distribution of publications. However, the unregulated use of newspaper vending machines presents inconvenience and safety hazards, constituting a public nuisance as well as being unsightly. The proposed regulations are designed to eliminate these problems by imposing reasonable time, place, and manner restrictions on the use of newspaper vending machines.

Pension Benefit Guaranty Corporation

Semiannual Regulatory Agenda

PBGC

PENSION BENEFIT GUARANTY CORPORATION

29 CFR Ch. XXVI

Agenda of Regulations Under Development

AGENCY: Pension Benefit Guaranty Corporation.

ACTION: Agenda of regulations.

SUMMARY: This document sets forth the Pension Benefit Guaranty Corporation's regulatory agenda issued under Executive Order 12291 and the Regulatory Flexibility Act. The agenda lists regulations that are currently under development or that PBGC expects to have under development during the next twelve months and regulations that are currently under review for possible amendment. The effect of this agenda is to advise the public of PBGC's current and future regulatory activities.

ADDRESS: Corporate Policy and Regulations Department (611), Pension Benefit Guaranty Corporation, 2020 K Street, N.W., Washington, D.C. 20006.

FOR FURTHER INFORMATION CONTACT: For further information on the agenda in general, contact Renae R. Hubbard, Special Counsel, Corporate Policy and Regulations Department, 202-956-5050. For information about a specific regulation project listed on the agenda, contact the person designated in the agenda for that regulation.

SUPPLEMENTARY INFORMATION: Under the President's Order on Federal Regulation, Executive Order 12291, 46 FR 13193, each agency is required to publish in April and October an agenda of regulations currently or soon to be under development. The Executive Order requires that the agenda also include those currently effective regulations that are being reviewed by the agency pursuant to the Executive Order. The Regulatory Flexibility Act, 5 U.S.C. 601, Pub. L. 96-354, 94 Stat. 1164, has a similar agenda requirement. Under that law, the agenda must list any regulation that is likely to have a significant economic impact on a substantial number of small entities.

The Office of Management and Budget has issued guidelines (OMB Bulletin No. 85-21) prescribing the form and content of the regulatory agenda. Under those guidelines, the agenda must list all regulatory activities being conducted or reviewed in the next twelve months and provide certain specified information on each regulation. Most of the items on this agenda are current or projected rulemakings. Three items are existing regulations that PBGC has under review pursuant to the Executive Order.

The guidelines also require an indication of whether or not an item is included in the Administration's Regulatory Program for 1985 and, if not, whether the agency considers it a priority item. The PBGC has determined that each of the regulatory activities listed in this agenda is necessary to the effective implementation of the insurance program and, therefore, each has priority status although none is included in the Administration's Regulatory Program for 1985.

Finally, the guidelines require a description of the potential costs and benefits of each regulation. The regulations listed on the agenda fall into three general categories. Some lessen statutory requirements, thereby lowering costs to the public and minimizing burden on plans and plan sponsors. Others simply implement statutory requirements and, although costs may be imposed because of these statutory requirements, the public is benefited by clear and unambiguous rules that lessen the probability of disputes, litigation and public confusion. Others of the regulations in the agenda reallocate costs necessarily imposed by the statute so that, although certain contributing employers may experience greater costs, others will experience an equivalent reduction in costs resulting in a net effect of zero. Where applicable, additional costs and benefits are stated separately in the item relating to the particular regulation.

Unless otherwise indicated, all citations in the agenda are to sections of the Employee Retirement Income Security Act of 1974, Pub. L. No. 93-406, 88 Stat. 829, as amended by the Multiemployer Pension Plan Amendments Act of 1980 ("the Multiemployer Act"), Pub. L. No. 96-364, 94 Stat. 1208 ("ERISA"), 29 U.S.C. 1001 *et seq.* (1982).

Executive Director, Pension Benefit Guaranty Corporation.

3337. REDUCTION OR WAIVER OF COMPLETE WITHDRAWAL LIABILITY

Legal Authority: 29 USC 1302(b)(3) ERISA; 29 USC 1387(a) ERISA

CFR Citation: 29 CFR 2647

Abstract: Section 4207(a) of ERISA requires the PBGC to establish rules for reducing or waiving the liability of an employer who has completely withdrawn from a multiemployer plan and subsequently resumes covered operations or renews the obligation to contribute under the plan. This regulation will prescribe the circumstances under which an employer's liability will be reduced or waived and the rules for computing the employer's liability for a complete or partial withdrawal after it has reentered the plan. This regulation will benefit multiemployer plans by encouraging some employers who have withdrawn from these plans to renew their participation in the plans. By the same token these employers will benefit by having some or all of their withdrawal liability waived. While the plans will incur the cost of foregoing collection of some of the withdrawal liability owed them, the assumption underlying this statutory provision is that these costs will be offset by the contributions employers will make to the plans after their reentry. PBGC is unable to quantify these benefits and costs, because it cannot predict the number of employers who will avail themselves of this rule.

CFR Citation: 29 CFR 2648

Abstract: The rules for determining an employer's withdrawal liability do not necessarily allocate a plan's total unfunded vested benefits because of the rules reducing or eliminating withdrawal liability, such as the de minimis rule. Therefore, if all or substantially all the employers in a plan withdraw, there may be large unallocated amounts that would constitute a potential claim on the insurance system. In order to avoid this result, section 4219(c)(1)(D) requires the determination or redetermination of withdrawal liability, in order to fully allocate a plan's unfunded vested benefits, upon either the termination of the plan through the withdrawal of every employer, or the withdrawal of substantially all the employers pursuant to an agreement or arrangement to withdraw. This regulation will set forth rules implementing this requirement. This regulation primarily benefits the multiemployer insurance program and the plans that are required to pay premiums under it, by insuring that in the event of a mass withdrawal (or the withdrawal of substantially all the employers pursuant to an agreement to withdraw), the liability for all unfunded vested benefits is allocated to the (cont)

3339. VALUATION OF PLAN ASSETS AND PLAN BENEFITS FOLLOWING MASS WITHDRAWAL

Legal Authority: 29 USC 1302(b)(3) ERISA; 29 USC 1441(b) ERISA

CFR Citation: 29 CFR 2676

Abstract: A plan that has terminated by mass withdrawal is required under section 4281(b) of ERISA to perform an annual valuation of the plan's nonforfeitable benefits and assets (including outstanding claims for withdrawal liability). This valuation is to be done in accordance with PBGC regulations. In addition, when a plan experiences a mass withdrawal, section 4219(c)(1)(D) requires the plan sponsor to allocate fully the plan's unfunded vested benefits to all withdrawing employers. In order to do this allocation, the plan sponsor must first value the plan's benefits and assets. This regulation will prescribe the rules for these valuations. The regulation on valuing outstanding claims for withdrawal liability listed on previous PBGC agendas (RIN 1212-AA17) has been merged into this regulation.

3340. RULES UNDER SECTIONS 4041A AND 4281 FOR PLANS TERMINATED BY MASS WITHDRAWAL

Legal Authority: 29 USC 1302(b)(3) ERISA; 29 USC 1341a ERISA; 29 USC 1441(d) ERISA

CFR Citation: 29 CFR 2675

Abstract: Section 4041A of ERISA provides rules with respect to the termination of multiemployer plans and the payment of benefits under those plans. Under section 4041A(f)(2), PBGC is authorized to prescribe rules for the administration of those plans that are appropriate to protect the interests of plan participants and beneficiaries or to prevent unreasonable loss to the insurance system. Under section 4281(b), the plan sponsor of a plan that has terminated by mass withdrawal is required annually to determine the value of the plan's nonforfeitable benefits and assets. If the value of the benefits exceeds the value of the assets, the sponsor must amend the plan to eliminate benefits not eligible for PBGC's guarantee under section 4022A(b), to the extent necessary to insure that the plan assets are sufficient to pay all nonforfeitable benefits. This determination of sufficiency is to be made in accordance with rules prescribed by PBGC. This regulation would establish the rules for administering plans that have terminated by mass withdrawal, including the rules for determining sufficiency in the circumstances described above. Additional Information: ABSTRACT CONT: and benefit of this regulation will be to establish rules that encourage the efficient administration of these plans. By thus helping to preserve plan assets, these rules will, in the first instance, benefit plan participants and beneficiaries and secondarily, the multiemployer insurance system and premium payers. PBGC lacks adequate data to be able to quantify these benefits.

Legal Authority: 29 USC 1302(b)(3); 29 USC 1412; 29 USC 1414

CFR Citation: 29 CFR 2678

Abstract: Sections 4232 and 4234 of ERISA prescribe rules governing the transfer of liabilities and assets from a multiemployer plan to a single-employer plan and prohibit certain transfers unless approved by PBGC. The regulation will establish procedures for requesting and criteria for PBGC approval of transfers which require approval and guidelines for satisfying the statutory requirements pertaining to other transfers. The regulation will also establish standards for the PBGC's waiver of a multiemployer plan's contingent liability arising from the transfer of unfunded vested benefits to a single-employer plan.

3342. ALLOCATING UNFUNDED VESTED BENEFITS

Legal Authority: 29 USC 1302(b)(3); 29 USC 1391(c)

CFR Citation: 29 CFR 2642

Abstract: On January 19, 1981, PBGC issued an interim regulation dealing with alternative methods for allocating unfunded vested benefits in multiemployer pension plans. PBGC now plans to re-promulgate that regulation in order to correct ambiguities that have arisen under it, to conform the procedures contained in it to other PBGC regulations, and to reduce the information reporting requirements in the regulation. The regulation will impose no new costs on the public and may reduce costs for plans adopting certain alternative allocation rules by reducing the reporting requirements.

3343. REDUCTION OR WAIVER OF PARTIAL WITHDRAWAL LIABILITY

Legal Authority: 29 USC 1302(b) (3); 29 USC 1388(e) (3)

CFR Citation: 29 CFR 2646

Abstract: Section 4208 of ERISA provides for the reduction or elimination under certain circumstances of an employer's partial withdrawal liability arising from a 70 percent reduction in contribution base units. That section also authorizes the PBGC to prescribe rules for the reduction or elimination of partial withdrawal liability under other conditions. The regulation will provide for the abatement of partial withdrawal arising from the cessation of the obligation to contribute under a collective bargaining agreement or with respect to a facility. Section 4208 also requires the PBGC to issue a regulation under which a multiemployer plan may adopt rules for the reduction or elimination of partial withdrawal liability. This regulation will allow plans to ease the statutory partial withdrawal liability rules where, for example, the rules are harmful to the plan because they discourage an employer from increasing its participation under the plan, or where the statutory rules create administrative burdens which outweigh the protections afforded by the rules.

3344. NON-STATUTORY ALLOCATION METHODS NOT REQUIRING PRIOR PBGC APPROVAL

Significance: Agency Priority

Legal Authority: 29 USC 1302(b) (3); 29 USC 1391(c) (5) (B)

CFR Citation: 29 CFR 2642

Abstract: This regulation will set forth alternative approaches that multiemployer plans may use in reallocating otherwise nonassessable withdrawal liability to employers in the plan. Plans currently using the presumptive method or the modified presumptive method must reallocate certain of these amounts because of the provisions in the Deficit Reduction Act of 1984 (DEFRA) concerning retroactive withdrawal liability. Under this regulation, a plan using the presumptive method will be permitted to adopt an amendment either to allocate, in the plan year in which DEFRA was effective, the unamortized balance of amounts otherwise allocable to employers that withdrew before DEFRA, or to treat the last plan year ending before DEFRA's effective date as the initial year for purposes of computing annual changes. The regulation also will permit a plan using the modified presumptive method to adopt an amendment that maintains the allocation fraction that the plan used before DEFRA. This regulation is intended to ease the administrative costs that the recomputations required by DEFRA would otherwise impose on affected multiemployer plans.

3345. RULES FOR VALUING GROUP INSURANCE CONTRACTS (AMENDMENT TO THE VALUATION OF PLAN ASSETS REGULATION)

Legal Authority: 29 USC 1302(b)(3) ERISA; 29 USC 1341 ERISA; 29 USC 1344 ERISA; 29 USC 1362(b)(1) ERISA

CFR Citation: 29 CFR 2620

Abstract: This amendment to the existing PBGC regulation on valuing plan assets, 29 CFR Part 2620, will set forth rules for valuing group insurance contracts as plan assets. This regulation applies to single-employer plans. This rule is necessary to provide uniform standards for plan administrators and employers to use in valuing insurance contracts. The rule will enable plans which are funded through insurance contracts to have clear guidance on how this asset should be treated in the plan termination context, and alleviate time-consuming costly delays due to uncertainty on how this commonly used plan funding vehicle should be valued.

Legal Authority: 29 USC 1302; 29 USC 1341; 29 USC 1344; 29 USC 1362

CFR Citation: 29 CFR 2619

Abstract: This rule would amend PBGC's regulation on Valuation of Plan Benefits in Non-Multiemployer Plans, 29 CFR Part 2619. That regulation sets forth the rules for valuing benefits in terminating plans that are covered by the insurance program under ERISA, which valuation is needed to determine if plan assets are sufficient to provide for plan benefits and to properly allocate assets to those benefits. After review of this regulation pursuant to Executive Order 12291, the PBGC is amending the rules for valuing benefits payable as lump sums upon termination. The effect of this amendment is to prescribe the range of interest rates that may be used to value lump sums that are paid in lieu of annuities. The amendment, in the form of an interim final rule, is needed to protect recipients of lump sum distributions from loss of benefit value resulting from the use of inappropriate interest rates to compute the lump sum amounts.

Legal Authority: 29 USC 1302; 29 USC 1341; 29 USC 1344; 29 USC 1362

CFR Citation: 29 CFR 2619

Abstract: The PBGC's regulation on Valuation of Plan Benefits in Non-Multiemployer Plans, 29 CFR Part 2619, prescribes actuarial assumptions and methods to be used in valuing benefits in terminated single-employer pension plans. The PBGC intends to amend this regulation to adopt the approach to valuation employed in proposed regulation on valuation of benefits in multiemployer plans terminated by mass withdrawal, 29 CFR Part 2676 that was published on February 19, 1985 (50 FR 6956), in order to conform more precisely to generally accepted actuarial practice. The proposed amendment would enable PBGC valuations to more accurately reflect interest and other assumptions that underlie the insurance annuity market place.

Legal Authority: 29 USC 1302(b)(3); 29 USC 1322; 29 USC 1342

CFR Citation: Not yet determined

Abstract: When the PBGC assumes trusteeship of a terminated pension plan pursuant to sections 4041 and 4042 of ERISA, it pays benefits to participants pursuant to plan provision and section 4022 of ERISA. This regulation will contain rules and policies relating to the payment of such benefits. The regulation will enable the PBGC to process and administer PBGC-trusteed plans more efficiently with resultant cost savings. It also will reduce costs to the public and the PBGC by providing payment rules, thereby reducing the number of requests for administrative review.

3349. ● ALLOCATION OF ASSETS IN NON-MULTIEMPLOYER PLANS

Legal Authority: 29 USC 1302(b)(3); 29 USC 1344

CFR Citation: 29 CFR 2618

Abstract: Section 4044 of ERISA provides rules for the allocation of assets in a terminating single-employer plan to benefits in priority categories 1

through 6. The PBGC's regulation on Allocation of Assets interprets those rules and describes procedures for the allocation and distribution of plan assets to participants in the terminating plan. Section 301 of the Retirement Equity Act of 1984 provides that a plan amendment that eliminates an early retirement benefit or retirement-type subsidies, or an optional benefit form, will be treated as an impermissible reduction in accrued benefit under certain conditions. This amendment to the PBGC's Allocation of Assets regulation is needed for guidance in the proper allocation of these "section 301 accrued benefits." The rule will impose no new costs on plans and may alleviate administrative burdens by providing definitive rules.

Abstract: On May 23, 1984, the PBGC announced that it, along with the Treasury Department and the Department of Labor, had adopted implementation guidelines for processing defined benefit pension plan terminations involving asset reversions to the plan sponsor. The PBGC has initiated a review of its regulations on Guaranteed Benefits (formerly RIN 1212-aa28), 29 CFR Part 2613, Allocation of Assets in Non-Multiemployer Plans, 29 CFR Part 2618, Determination of Plan Sufficiency and Termination of Sufficient Plans, 29 CFR Part 2617, and Limitation on Guaranteed Benefits, 29 CFR Part 2621, in order to determine what amendments may be needed to reflect the conclusions of the May 23, 1984 guidelines concerning the legal effect of certain transactions that result in reversions of pension plan assets to the sponsors of terminated plans. The review also covers the types of annuity contract that may be purchased to close out a plan that has residual assets at the time of its termination.

Abstract: The PBGC's regulation on Employer Liability prescribes rules for the determination and payment of employer liability that is due under ERISA if a plan lacks sufficient assets to pay for guaranteed benefits. Employer liability is due as of the date of plan termination, but often is not paid in a timely fashion. The PBGC has initiated a review of this regulation in order to determine what, if any, amendments could be adopted to provide employers with greater incentive to make timely payments of employer liability owed to the PBGC.

Abstract: Section 4221 of ERISA provides that any dispute between an employer and the sponsor of a multiemployer plan regarding the determination of the employer's withdrawal liability to the plan shall be resolved through arbitration. Section 4221(a)(2) of ERISA provides that an arbitration proceeding under this section shall be conducted in accordance with fair and equitable procedures prescribed by the PBGC. The regulation will set forth those procedures. This regulation is needed to provide the rules of procedure under which an arbitration proceeding will be conducted. PBGC expects that the rule will minimize costs on plan sponsors and contributing employers because it provides a clear set of rules designed to clarify the Act's provisions and the responsibilities of the respective parties.

Legal Authority: 29 USC 1302(b)(2) ERISA; 29 USC 1441(c) ERISA; 29 USC 1441(d) ERISA

CFR Citation: 29 CFR 2675

Abstract: Section 4281 of ERISA contains rules relating to the administration and payment of benefits under multiemployer plans that have terminated by mass withdrawal. Under certain circumstances, the plan sponsor is required to amend the plan to eliminate benefits not eligible for PBGC's guarantee under Section 4022A. In addition, if the terminated plan becomes insolvent, the sponsor is required to suspend payment of any benefits that are in excess of those guaranteed under Section 4022A. The PBGC is authorized to modify the statutory duties of the plan sponsor, including the duty to provide participants and beneficiaries with notice of benefit reductions, and is required to prescribe rules that ensure that plan participants and beneficiaries receive adequate notice of the benefit suspensions. This regulation will prescribe the requirements for these two notices, and will also modify the statutory rules concerning when a plan sponsor must make determinations of plan solvency. This regulation will benefit multiemployer plans by reducing the number of notices that would otherwise be required under ERISA, thus reducing plan costs. In addition, the regulation will (cont)

These benefits cannot be quantified. Legal Authority: 29 USC 1302(b)(3) ERISA; 29 USC 1426(e) ERISA

CFR Citation: 29 CFR 2674

Abstract: Section 4245(e) of ERISA requires the plan sponsor of a multiemployer plan, upon determining that the plan may become insolvent, to give notice of that fact to the PBGC, contributing employers, affected employee organizations and plan participants. In addition, the plan sponsor must inform those parties of the plan's resource benefit level for the insolvency year. Section 4245(e)(4) of ERISA requires that the notices be given in accordance with regulations prescribed by the PBGC. This regulation will establish the procedures for issuing and the contents of the insolvency notices. The early notice of potential plan insolvency to the collective bargaining parties will enable the parties, if they so choose, to negotiate additional contributions in order to avoid insolvency and the consequent benefit suspensions. This is of benefit to plan participants and beneficiaries, although it is not possible to quantify that benefit.

Legal Authority: 29 USC 1302; 29 USC 1341; 29 USC 1344

CFR Citation: 29 CFR 2617

Abstract: On January 28, 1981, PBGC issued a final rule on Determination of Plan Sufficiency and Termination of Sufficient Plans, requiring administrators of plans that are not "clearly insufficient" to follow a specified procedure for demonstrating whether the plan is sufficient. Pursuant to this procedure, the plan administrator must, inter alia, value the plan's assets and liabilities as of a proposed distribution date and submit the valuation data to the PBGC. In light of its experience in processing plans under this regulation, the PBGC has concluded that for some plans the data submission requirement is unnecessary. Accordingly, the PBGC has amended that regulation to set forth, as an alternative method for demonstrating sufficiency, the submission of an enrolled actuary's statement certifying that the value of plan assets determined in accordance with the regulation equals or exceeds the value of plan benefits determined in accordance with the regulation. This amendment sets forth a simplified optional procedure for demonstrating sufficiency and may reduce costs for terminating plans. The regulation also was amended to provide that an employer may, before the date of plan (cont)

RAILROAD RETIREMENT BOARD (RRB) — Current and Projected Rulemakings

3361. PART 220 DISABILITY DETERMINATIONS

Legal Authority: 45 USC 231f(b)(5)

CFR Citation: 20 CFR 220

Abstract: The Board's regulations with respect to disability determinations have not been updated for several years and they are, in certain respects, obsolete. When revised, this regulation should ease the administration of disability benefits and result in greater consistency in disability determinations.

RIN: 3220-AA01

3362. PRIMARY INSURANCE AMOUNT DETERMINATIONS

Legal Authority: 45 USC 231f(b)(5)

CFR Citation: 20 CFR 225

Abstract: The computation of benefits under the Railroad Retirement Act of 1974 is quite complex and is not easily understood by beneficiaries. This proposed regulation would explain primary insurance amount determinations in a manner that will enable claimants and beneficiaries to more easily understand this phase of benefit computations.

3363. COMPUTING THE EMPLOYEE AND SPOUSE ANNUITY

Legal Authority: 45 USC 231f(b)(5)

CFR Citation: 20 CFR 226

Abstract: The Board's regulations on the computation of employee and spouse annuities must be updated to conform to the Railroad Retirement Act of 1974 and to amendments to the Act made by the Omnibus Budget Reconciliation Act of 1981 and the Railroad Retirement Solvency Act of 1983.

3364. INITIAL DETERMINATIONS UNDER THE RAILROAD UNEMPLOYMENT INSURANCE ACT AND REVIEWS OF AND APPEALS FROM SUCH DETERMINATIONS

Legal Authority: 45 USC 355(b); 45 USC 362(l)

CFR Citation: 20 CFR 320

Abstract: The Board's regulation setting forth the procedures to be followed in rendering initial decisions and in requesting and handling reconsiderations and appeals from these decisions has been reviewed and a proposal to make certain revisions in this regulation is being developed. The proposed regulation would conform the procedures more closely to those applicable under the Railroad Retirement Act.

SUMMARY: The purpose of this agenda is to report the proposed rulemaking activities of the Selective Service System that might affect the processing of registrants under the Military Selective Service Act (50 U.S.C. App. 451 *et seq.*). This information will allow the public to participate in the System's decision-making at an early stage.

FOR FURTHER INFORMATION CONTACT: Henry N. Williams, General Counsel, Selective Service System, Washington, D.C. 20435, telephone (202) 724-1167.

SUPPLEMENTARY INFORMATION: The agenda is published in accord with the requirements of E.O. 12291. Selective Service Regulations appear in 32 CFR Chapter XVI.

DATED: August 20, 1985.

Thomas K. Turnage,

Director of Selective Service.

Semiannual Regulatory Agenda

SBA

SMALL BUSINESS ADMINISTRATION

13 CFR Ch. I

Improving Government Regulations; Semiannual Agenda

AGENCY: Small Business Administration.

ACTION: Publication of the semiannual agenda of regulations under review or development by the Small Business Administration.

SUMMARY: This is SBA's 13th semiannual agenda of regulations. Although not a regulatory Agency, SBA has attempted to draft agendas that met both the criteria and the spirit of the regulatory review process. This agenda is published pursuant to Executive Order 12291 and the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, Pub. L. 96-354, effective January 1, 1981.

FOR FURTHER INFORMATION CONTACT: For further information on agenda items, the public is encouraged to contact the individual Agency official listed for the particular item.

For information concerning SBA overall Regulatory Review and Development Program or general semiannual agenda questions, contact Martin D. Teckler, Deputy General Counsel, Small Business Administration, 1441 L Street, N.W., Washington, D.C. 20416, 202/653-6642.

SUPPLEMENTARY INFORMATION: The SBA agenda will contain many regulations which are limited in public impact, but they are included to increase public knowledge of all SBA regulatory activities and allow for increased public participation in the review and development process.

Public comments on SBA's previous agendas have been general, and all were positive. None were directed at specific contents, nor were any changes suggested or recommended.

The agenda format has three parts. Part I, Current and Projected Rulemakings, includes rulemaking currently underway and scheduled to be completed shortly. Part II, Existing Regulations Under Review, includes existing regulations being reviewed within the Agency to determine whether to propose modifications through rulemaking. Part III, Completed Actions, includes regulations completed or withdrawn, and reviews completed since the preceding agenda.

Publication of this agenda does not impose any binding obligation on SBA with regard to any specific item in the agenda. Additional regulatory action not listed on the agenda is not precluded.

DATED: August 27, 1985.

James C. Sanders,

Administrator.

Regulatory Agenda

AGENCY: Tennessee Valley Authority.

ACTION: Regulatory agenda.

SUMMARY: As a nonregulatory agency, TVA originates very few regulations and thus does not ordinarily have agenda items to announce. However, TVA has one regulation under development and is therefore publishing a regulatory agenda in voluntary compliance with Executive Order No. 12291.

3429. PROTECTION OF ARCHAEOLOGICAL RESOURCES

Legal Authority: 16 USC 470aa to 470ll

CFR Citation: 18 CFR 1312

Abstract: The planned regulations will implement provisions of the Archaeological Resources Protection Act of 1979 by providing protection of archaeological resources on public lands in TVA custody and control. TVA will seek to protect such resources through permits authorizing excavation or removal of resources, through civil penalties for unauthorized excavation or removal through preservation of archaeological resource collections and data, and through assuring confidentiality of information about resources when disclosure would threaten the resources. The planned regulations will supplement existing uniform regulations by assigning specific responsibilities within TVA.

VETERANS ADMINISTRATION

38 CFR Ch. I

Agenda of Federal Regulations

AGENCY: Veterans Administration.

ACTION: Publication of agenda of regulations,

SUMMARY: This agenda announces the regulations that the Veterans Administration will have under review, development or revision during the 12 month period from April 1985 to April 1986. The purpose in publishing this Agency's regulatory development activities is to allow all interested persons the opportunity to participate in the rulemaking process.

ADDRESSES: Interested persons are invited to comment on the regulations listed in the agenda by contacting the individual agency contact listed for each regulation, or by writing to: Paperwork Management and Regulations Service (731), Veterans Administration, 810 Vermont Avenue, N.W., Washington, D.C. 20420.

FOR FURTHER INFORMATION CONTACT: Celia Fasone (202) 389-2340.

SUPPLEMENTARY INFORMATION: Executive Order 12291, Federal Regulation, and the Regulatory Flexibility Act (Pub. L. 96-354) require that executive agencies publish in the **Federal Register** in April and October of each year, an agenda of regulations under development and review.

The Veterans Administration has no regulations considered major under the terms of Executive Order 12291; however all of this agency's proposed rules and current rules under review, except those considered to be internal agency policy management or routine regulations have been listed in accordance with section 5.(a) of the executive order. This agenda incorporates those categories of information required pursuant to 5 U.S.C. 602(a) and 610(c) (Regulatory Flexibility Act).

The Veterans Administration has found that all rules listed in this agenda, if promulgated, will not have a significant economic impact on a substantial number of small entities as they are defined in 5 U.S.C. 601-612.

This agenda has been prepared in accordance with OMB Bulletin 85-21.

DATED: August 29, 1985.

By direction of the Administrator.

Everett Alvarez, Jr.

Deputy Administrator.

DEPARTMENT OF MEDICINE AND SURGERY

3430. EVIDENCE OF INABILITY TO DEFRAY NECESSARY EXPENSES

Significance: Regulatory Program

Legal Authority: 38 USC 610; 38 USC 622

CFR Citation: 38 CFR 17

Abstract: Legislation is pending in Congress which would amend 38 U.S.C. 610 and 622 to provide authority for an income means test for certain nonservice-connected veterans, linked to an applicant's ability to demonstrate with evidence that his/her gross annual family income is below a certain level. Under proposed legislation, these individuals would be considered unable to defray the costs of needed medical care.

3431. CONSIDERATIONS APPLICABLE IN DETERMINING ELIGIBILITY FOR DOMICILIARY CARE

Legal Authority: 38 USC 610(b); 38 USC 601(7)

CFR Citation: 38 CFR 17.48(c)(1)

Abstract: The existing regulation now defines the domiciliary program as the provision of a home with medical services as needed to veterans who have a chronic disability and who are unable to earn a living. The proposed change would clarify the mission of the domiciliary program as an integral part of the provision of health care services by the VA by refocusing the definition from the provision of housing to the provision of continuing medical and rehabilitative services at a less intensive level than that provided in a hospital or nursing home, but at a higher level than that available in a residential setting.

3432. EXTENSIONS TO COMMUNITY NURSING HOME CARE

Legal Authority: 38 USC 620

CFR Citation: 38 CFR 17.51a

Abstract: Existing regulations that permit an extension to an approved 6-month period of Community Nursing Home Care at VA expense are not definitive enough regarding the circumstances of an unusual nature which provide the impetus for granting such extensions. The proposed change will correct that deficiency.

3433. DEFINITION - DOMICILIARY CARE

Legal Authority: 38 USC 610(b); 38 USC 601(7)

CFR Citation: 38 CFR 17.30(n)

Abstract: The existing regulation now defines the domiciliary program as the provision of a home with medical services as needed to veterans who have a chronic disability and who are unable to earn a living. The proposed change would clarify the mission of the domiciliary program as an integral part of the provision of health care services by the VA by refocusing the definition from the provision of housing to the provision of continuing medical and rehabilitative services at a less intensive level than that provided in a hospital or nursing home, but at a higher level than that available in a residential setting.

3437. TELECAPTION TELEVISION DECODERS

Legal Authority: PL 98-528

CFR Citation: 38 CFR 17.115b; 38 CFR 17.115c

Abstract: This law authorizes the VA to furnish assistive devises to overcome the handicap of deafness, including telecaption television decoders, to any veteran who is profoundly deaf and is entitled to compensation on account of hearing impairment. As for telecaption TV decoders, VA policy previously limited the provision of this device to veterans who suffered an aberrant or morbid mental condition as a result of deafness. The law specifically authorizes the VA to provide this device but limits the provision to profoundly deaf veterans who are entitled to compensation for a hearing impairment.

Legal Authority: 38 USC 524; 38 USC 525; PL 98-543

CFR Citation: 38 CFR 17.56

Abstract: Section 301 of P.L. 98-543 authorizes the VA to provide certain benefits to those nonservice-connected veterans entitled to VA pension who are participating in a VA program of vocational training. Medical benefits authorized are analogous to those authorized to service-connected veterans participating in a VA vocational rehabilitation program under 38 USC Chapter 31, such as hospital care and medical services.

3441. DISPOSITION OF VETERAN'S PERSONAL FUNDS AND EFFECTS ON STATION UPON DEATH, OR DISCHARGE, OR UNAUTHORIZED ABSENCE, AND OF FUNDS AND EFFECTS FOUND ON STATION

Legal Authority: 38 USC 210c

CFR Citation: 38 CFR 12.0 to 12.24

Abstract: Section 208 of Public Law 94-581 provides that unclaimed property or funds and effects left by a dependent or survivor of a veteran receiving medical care at a VA facility as a CHAMPVA beneficiary will be disposed of in the same or similar manner as such property left by a veteran. Also, estates of dependents or survivors of a veteran who dies intestate and without legal heirs while a patient in any VA facility or any hospital, while being furnished care or treatment therein by the VA will escheat to the U.S. Government. Some of these regulations have not been updated since 1948, therefore, editorial changes will be made which will not affect policy.

DEPARTMENT OF VETERANS BENEFITS

3445. ● VETERANS EDUCATION; EDUCATIONAL ASSISTANCE TEST PROGRAM

Legal Authority: PL 96-342

CFR Citation: 38 CFR 21.5701 to 5744, (new)

Abstract: Some provisions in The Department of Defense Authorization Act, 1981 established an educational program for some veterans who enlisted or reenlisted in the Army, Navy, Marine Corps or Air Force after September 30, 1980 and before October 1, 1981. The

VA is implementing this program, and will issue regulations to implement it.

Legal Authority: 38 USC 210(c); 38 USC 1816(a)

CFR Citation: 38 CFR 36.4600(c)(1)

Abstract: Present regulations require that lenders holding loans sold by the Veterans Administration must furnish the VA with a notice of default within 30 days after a loan has become two full installments in default. The regulatory change will require lenders to report such a default within 60 days instead of thirty. This change will provide lenders additional time to service loans and result in less defaults being reported which are subsequently cured.

Significance: Regulatory Program

Legal Authority: PL 98-543, Sec 301

CFR Citation: 38 CFR 21.6000, series (new)

Abstract: The pilot program is directed to evaluating the effectiveness of vocational training and related services in restoring veterans to gainful employment and realizing cost benefits. During the period February 1, 1985, through January 31, 1989, veterans awarded pension may be eligible for up to 24 months or more of vocational training to prepare for and enter employment. Under this program every veteran under age 50 who begins to receive a pension award on or after February 1, 1985, will participate in a vocational evaluation to be arranged by the VA. Veterans who are age 50 and older and are awarded pension after February 1, 1985, may apply for an evaluation of their ability to profit from vocational training. Vocational training for up to 24 months or more and up to 18 months of employment services will be provided for program participants. A veteran will continue to receive pension during the period of training and employment services. Pension will be reduced or terminated following adjustment in employment when work income exceeds the annual income limitation applicable to pension.

3459. TEMPORARY PROGRAM FOR TRIAL WORK PERIODS AND VOCATIONAL REHABILITATION FOR CERTAIN VETERANS WITH TOTAL DISABILITY RATINGS

Significance: Regulatory Program

Legal Authority: PL 98-543, Sec 111

CFR Citation: 38 CFR 21.6500, series (new)

Abstract: The pilot program is directed at evaluating the effectiveness of a program of employment and/or vocational rehabilitation services in enabling veterans in receipt of disability ratings by virtue of individual unemployability to become employed. During the period from February 1, 1985, through January 31, 1989, the veteran with a total disability rating due to IU (Individual Unemployability) who wishes to return to work will be protected for 12 consecutive months of employment. The VA will provide vocational rehabilitation and/or employment services to assist veterans to train for or to secure employment. A veteran with an IU rating prior to February 1, 1985, may choose to use these employment services or be considered for training under the VA vocational rehabilitation program. In either case, the veteran's IU rating remains protected for 12 months if he or she secures employment. For veterans receiving an IU rating from February 1, 1985, and through January 31, 1989, an evaluation to determine if a vocational goal is feasible is required, and if it is, lack of participation will be considered in the veteran's next review of eligibility.

3473. ◎ VETERANS EDUCATION; MEASUREMENT OF UNDERGRADUATE COURSES

Legal Authority: 38 USC 1788(b)

CFR Citation: 38 CFR 21.4272(f)

Abstract: The Code of Federal Regulations allows the VA a number of ways in which to measure undergraduate courses which have fewer than one 50-minute class session per week per hour of credit. One of these ways requires the VA to measure the quality of the course. The VA does not believe it should be estimating the quality of courses for measurement purposes. The VA is considering rescinding the portion of the regulation which permits the agency to do so.

3474. ◎ VETERANS EDUCATION: ENTITLEMENT CHARGES FOR OVERPAYMENTS

Legal Authority: 38 USC 1671

CFR Citation: 38 CFR 21.1045(h)

Abstract: Interest, administrative costs of collection, and marshal fees are charged to veterans or eligible persons with outstanding overpayments of educational assistance allowance. The pertinent sections of the Code of Federal Regulations will be amended to state that when such an overpayment is discharged in bankruptcy, the unrecovered portion of interest, administrative costs of collection, court costs and marshal fees will not result in a charge against a veteran's or eligible person's entitlement.

Legal Authority: 38 USC 1515(a) (4)

CFR Citation: 38 CFR 21.430(c)(1) and (2)

Abstract: The VA is proposing to increase the amounts which VR&C (Vocational Rehabilitation and Counseling) staff may approve for training and rehabilitation services. The change reflects increases in cost of training and rehabilitation services which have occurred since 1981 and administrative expenses. The change will improve program administration by allowing VR&C Officers and Directors to focus on those cases in which additional review is appropriate.

Legal Authority: PL 98-77

CFR Citation: 38 CFR 21.4632(e); 38 CFR 21.4634

Abstract: A few employers have been circumventing the intent of the Emergency Veterans' Job Training Act in order to receive more than 50% of the wages paid to veterans training under the Act. An additional limitation will be placed on the amount payable on behalf of a veteran. The limitation will prevent this abuse.

Legal Authority: 38 USC 1789(b)

CFR Citation: 38 CFR 21.4251(g)

Abstract: The law generally requires a course to be in operation for two years before it can be approved for VA training. There are several exceptions to this general rule and a provision for waiver. This change will make a waiver easier to obtain for a course offered pursuant to a contract with the Department of Transportation at a Coast Guard station.

Legal Authority: 38 USC 1602; 38 USC 1623; 38 USC 1632

CFR Citation: 38 CFR 21.5064(b)

Abstract: The law provides a few veterans with the opportunity to choose between receiving benefits under the Vietnam Era G.I. Bill or VEAP. Once such a veteran begins receiving benefits under the Vietnam Era G.I. Bill, he or she may never receive benefits under VEAP. Current regulations do not provide for a refund of the veteran's contributions to the VEAP fund when this situation occurs unless the veteran asks for a refund. The VA is considering permitting a refund even if the veteran did not apply for one.

Legal Authority: 38 USC 508

CFR Citation: 38 CFR 3.30

Abstract: Improved pension may be paid less frequently than monthly when the annual benefit payable is less than four percent of the maximum annual rate for a single veteran. This amendment updates the schedule of payment frequency based on the cost-of-living adjustments that have been applied to the single veteran annual rate since 1979. This will result in savings of check mailing costs without affecting the annual benefits payable.

Legal Authority: 38 USC 210(c); 38 USC 1803(c)(1)

CFR Citation: 38 CFR 36

Abstract: Public Law 97-253, the Omnibus Budget Reconciliation Act of 1982 (38 U.S.C. 1829) establishes that a funding fee will be collected on VA loans but the law does not establish any time limits within which it must be paid to the VA. Current VA Loan Guaranty procedures allow lenders up to 60 days from the loan closing date to remit loan funding fees and this delay in their collection and deposit has resulted in a significant amount of potential interest lost to the Federal government. The proposed regulation would require lenders to submit the fees to the VA within a 15 day period from the loan closing date and would implement penalty charges and interest assessments on delinquent submissions. Adoption of this regulation should improve collection timeliness and result in the collection of the interest income that is currently being lost as well as income from interest and penalty charges.

Abstract: Revises the examples of the Board of Veterans Appeals' appellate jurisdiction to include claims for certain Social Security benefits under PL 97-377, Sec 156. Adds a new subsection to the Board of Veterans Appeals Rules of Practice No. 57 to reflect the Board's traditional practice of allowing an "informal hearing" by accepting written argument from some appellants' representatives. Retitles and adds a new subsection to the Board of Veterans Appeals Rules of Practice No. 76 to reflect the Board's traditional practice of requesting, in some cases, legal opinions from the General Counsel of the Veterans Administration. Retitles Board of Veterans Appeals Rules of Practice No. 79 to reflect that an appellant's representative will be given a copy of any General Counsel opinion obtained, and will be given 60 days to respond.

Legal Authority: 29 USC 794

CFR Citation: 38 CFR 18.423(c); 38 CFR 18.401 to 18.426, App. A

Abstract: To incorporate a reference to the Uniform Federal Accessibility Standards (UFAS) and update the list of Federal financial assistance programs administered by the VA. The existing regulations require that new construction and alteration of facilities be made in an accessible manner. The regulations provide that new construction or alteration of facilities in conformance with the American National Standard Specifications for Making Building and Facilities Accessible to, and Usable by, the Physically Handicapped (ANSI A117.1-1961 (B 1971)) shall constitute compliance with the accessibility requirements for new construction and alteration of facilities. The proposed revision will replace the current standard with the UFAS, published under the Architectural Barriers Act of 1968. Because some facilities subject to the accessibility requirements of section 504 of the Rehabilitation Act of 1973 are also subject to the accessibility requirements of the Architectural Barriers Act, this proposal would eliminate any potential conflict between standards enforced under the two statutes.

Legal Authority: 35 USC 200 to 207

CFR Citation: 38 CFR 1.635 to 1.643

Abstract: Under affiliation agreements between VA Medical Centers and local Colleges or Universities, VA employees and University employees are sometimes coinventors. Universities have requested VA to assign its interest in any such inventions to the University. Pub. L. No. 96-517 authorizes the VA to so assign its interest in certain circumstances, provided the invention was made under a funding agreement between the agency and the coinventing entity. These regulations will set forth the procedure and criteria for determination of patent right ownership in these situations. No costs will be imposed on the public. The public will benefit from consolidation of patent rights on one entity because this facilitates licensing and marketing of the invention, and thereby makes the invention available for public use.

Abstract: The VA plans to amend its conduct regulations to prohibit employees from accepting any food or refreshments under any circumstances from an entity that has or is seeking a commercial relationship with the Agency. This proposed change would deter conduct that involves the appearance of, and potential for, conflicts of interest. Federal Acquisition Regulation; Semiannual Regulatory Agenda

FAR

DEPARTMENT OF DEFENSE/GENERAL SERVICES ADMINISTRATION/NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

48 CFR Ch. 1

Unified Agenda of Federal Regulations

AGENCY: Department of Defense (DOD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

ACTION: Semiannual agenda.

SUMMARY: This agenda provides summary descriptions of regulations being developed by the Civilian Agency Acquisition Council and the Defense Acquisition Regulatory Council, in conformance with Executive Order 12291, Federal Regulation. This agenda is being published to allow interested persons an opportunity to participate in the rule making process.

The FAR Secretariat has attempted to list all regulations pending at the time of publication, except for minor and routine or repetitive actions, however, unanticipated requirements may result in the issuance of regulations that are not included in this agenda. There is no legal significance to the omission of an item from this listing. Also, the dates shown for the steps of each action are estimated and are not commitments to act on or by the dates shown.

FOR FURTHER INFORMATION CONTACT: Margaret A. Willis, FAR Secretariat, (202) 523-4755.

SUPPLEMENTARY INFORMATION: DOD, GSA, and NASA under their several statutory authorities, jointly issue and maintain the Federal Acquisition Regulation (FAR) and prescribe the FAR system. Revisions to the FAR are made through periodic issuance of Federal Acquisition Circulars (FAC's). None of the regulations listed in this agenda are considered major under Executive Order 12291, Federal Regulation.

DATED: August 29, 1985.

Lawrence J. Rizzi,

Director, Office of Federal Acquisition and Regulatory Policy.

3514. FEDERAL ACQUISITION REGULATION (FAR) - FEDERAL ACQUISITION CIRCULAR 84-10

Legal Authority: 40 USC 486 (c); 42 USC 2453 (c); 10 USC Chapter 137

CFR Citation: 48 CFR 1-7; 48 CFR 1-34

Abstract: (1) Implement Sec. 1213 of Pub. L. 98-525 and Sec. 201 of Pub. L. 98-577 by (a) requiring that the contracting officer, prior to contracting, review the acquisition history of the supplies or services and the description of the supplies, and (b) specifying new requirements applicable to planning for the solicitation of a major system production contract; (2) Implement Sec. 1245 of Pub. L. 98-525 and Sec. 501 of Pub. L. 98-577 by specifying that offerors/contractors (a) are required to distribute costs within contracts on a basis that ensures that unit prices of supplies are in proportion to the item's base cost, (b) may be required to identify supplies that they will not manufacture or to which they will not contribute significant value, and (c) are required to flow the requirement down to subcontractors; (3) Implement Sec. 1216 of Pub. L. 98-525 and Sec. 204 of Pub. L. 98-577 by requiring offerors/contractors in certain acquisitions to certify that the prices offered for those items of supply that the contractor offers for sale to the public are no higher than any lower price charged to any other customer during the preceding 60 days, or submit a written justification for any (cont)

Commodity Futures Trading Commission

Semiannual Regulatory Agenda

CFTC

COMMODITY FUTURES TRADING COMMISSION

17 CFR Ch. I

Regulatory Flexibility Agenda

AGENCY: Commodity Futures Trading Commission.

ACTION: Publication of regulatory flexibility agenda.

SUMMARY: The Commodity Futures Trading Commission, in accordance with the requirements of the Regulatory Flexibility Act, is publishing a semiannual agenda of significant rules which the Commission expects to propose or promulgate over the next year. The Commission welcomes comments from small entities and others upon the subject area of the agenda.

ADDRESS: Comments should be sent to: Commodity Futures Trading Commission, 2033 K Street, N.W., Washington, D.C. 20581, Attention: Secretariat.

FOR FURTHER INFORMATION CONTACT: Harold L. Hardman, Esquire, Office of the General Counsel, Commodity Futures Trading Commission, 2033 K Street, N.W., Washington, D.C. 20581 (202) 254-9880.

SUPPLEMENTARY INFORMATION: The Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.* ("RFA"), sets forth a number of requirements for agency rulemaking. Among other things, the RFA requires that:

(a) During the months of October and April of each year, each agency shall publish in the **Federal Register** a regulatory flexibility agenda which shall contain:

(1) A brief description of the subject area of any rule which the agency expects to propose or promulgate which is likely to have a significant economic impact on a substantial number of small entities;

(2) A summary of the nature of any such rule under consideration for each subject area listed in the agenda pursuant to paragraph (1), the objectives and legal basis for the issuance of the rule, and an approximate schedule for completing action on any rule for which the agency has issued a general notice of proposed rulemaking; and

(3) The name and telephone number of an agency official knowledgeable concerning the items listed in paragraph (1).

5 U.S.C. 602(a). Accordingly, the Commission has prepared an agenda of significant rules which it presently expects may be considered during the course of the next year. The agenda lists all significant rules which may be considered by the Commission within the next year, irrespective of their potential impact on small entities.[1]

The Commission's agenda represents its best estimate at this time of significant rules which will be considered sometime over the next twelve months.[2] In this regard, section 602(d) of the RFA, 5 U.S.C. 602(d), provides: "Nothing in [section 602] precludes an agency from considering or acting on any matter not included in a regulatory flexibility agenda, or requires an agency to consider or act on any matter listed in such agenda."

The Commission is publishing its October 1985 Regulatory Flexibility Agenda as part of the October 1985 Unified Agenda of Federal Regulations. The Unified Agenda of Federal Regulations is coordinated by the Office of Management and Budget pursuant to Executive Order 12291. While participation by executive agencies in that Agenda is mandatory, independent agencies, such as the Commission, participate in the Unified Agenda on a voluntary basis.

The Commission's October 1985 Regulatory Flexibility Agenda is set forth below.

Issued in Washington, D.C., on August 28, 1985, by the Commission.

Jean A. Webb,

Secretary of the Commission.

[1] The Commission has published its definitions of small entity to be used by the Commission in connection with rulemaking proceedings. 47 FR 18618 (Apr. 30, 1982). Pursuant to those definitions, the Commission is not required to list many of the agenda items contained in this regulatory flexibility agenda. *See* 5 U.S.C. 602(a)(1). Moreover, the Commission has previously certified, pursuant to section 605 of the RFA, 5 U.S.C. 605, that certain items contained in this agenda will not have a significant economic impact on a substantial number of small entities. Accordingly, listing of an item in this regulatory flexibility agenda should not, in any event, be taken as a determination that a rule, when proposed or promulgated, will in fact require a regulatory flexibility analysis. However, the Commission hopes that the publication of an agenda which includes significant rules, regardless of their potential impact on small entities, may serve the public generally by providing an early and meaningful opportunity to participate in and comment on the formulation of new or revised regulations.

[2] In addition to publishing the regulatory flexibility agenda, the Commission also makes available to the public, on a monthly basis, a calendar listing rules that the Commission intends to consider that month.

3552. REGULATIONS PERMITTING THE GRANT, OFFER AND SALE OF OPTIONS ON PHYSICAL COMMODITIES (DEALER OPTIONS)

Legal Authority: 7 USC 6c(b) Commodity Exchange Act, Sec 4c(b); 7 USC 6c(d) Commodity Exchange Act, Sec 4c(d); 7 USC 12a(5) Commodity Exchange Act, Sec 8a(5)

CFR Citation: 17 CFR 1; 17 CFR 3; 17 CFR 32

Abstract: Congress has directed the Commission to issue regulations permitting grantors and futures commission merchants to grant, offer and sell so-called "dealer options" on certain physical commodities subject to certain conditions specified by statute and such other uniform and reasonable requirements as the Commission may prescribe. At present, the only persons who may lawfully grant dealer options are United States domiciles who, on May 1, 1978, were in the business of buying, selling, producing or otherwise using that commodity. The Commission has reproposed rules, principally concerning registration of dealer option grantors, requirements for the segregation of customer funds, disclosure to customers and prospective customers, and minimum financial requirements. The Commission intends to re-evaluate the proposed rules in light of regulatory changes that have occurred since 1980 and expects to decide whether to adopt or repropose Rules in mid-1986.

CFR Citation: 17 CFR 1; 17 CFR 3; 17 CFR 4; 17 CFR 31; 17 CFR 145; 17 CFR 147; 17 CFR 190

Abstract: On January 16, 1984, the Commission adopted interim final rules which establish a comprehensive regulatory scheme applicable to certain leverage transactions. 49 FR 5498 (Feb. 13, 1984). The regulations, among other things, impose registration, financial, segregation, disclosure and recordkeeping requirements upon persons engaged in the business of offering and selling to the public leverage contracts for the delivery of certain commodities. The regulations generally became effective on April 13, 1984. Commission rules 31.1 and 31.2, which impose temporary moratoria on the entry of new persons or firms into the leverage business, remain in effect. Subsequently, the Commission solicited public comment concerning whether and how the interim rules could be amended to encompass the marketing of certain "short sales" of leverage transactions to the public. The Commission has determined to make such amendments to the interim rules. On January 2, 1985, certain of these amendments which are technical in nature were published in final form without further notice and comment procedures. 50 FR 22. At that time, other more substantive amendments also were (cont)

Legal Authority: 7 USC 6d Commodity Exchange Act, Sec 4d; 7 USC 6f Commodity Exchange Act, Sec 4f; 7 USC 12a Commodity Exchange Act, Sec 8a

CFR Citation: 17 CFR 1.17

Abstract: In response to recent events in the commodities markets, the Commission has revised the proposed amendments to the Commission's minimum financial and related reporting requirements which had been pending final action. As revised, the proposed amendments would: (1) clarify the treatment to be accorded to

securities in current assets, whether or not such securities are subject to repurchase agreements; (2) require FCMs to calculate a concentration charge in computing their adjusted net capital; (3) change the treatment of debit/deficit accounts; and (4) clarify the requirements for and the treatment of a guaranteed account.

3555. REGULATIONS GOVERNING THE OFFER AND SALE OF FOREIGN FUTURES CONTRACTS IN THE UNITED STATES

Legal Authority: 7 USC 6(b) Commodity Exchange Act, Sec 4(b)

CFR Citation: Not yet determined

Abstract: Section 4(b) of the Commodity Exchange Act, as amended by the Futures Trading Act of 1982, authorizes the Commission to adopt rules and regulations proscribing fraud in the offer and sale of foreign futures contracts in the United States and requiring minimum financial standards, the keeping of books and records, the safeguarding of customer funds and the registration with the Commission of any person located in the United States who engages in the offer and sale of such contracts. The Commission has published an advance notice of proposed rulemaking to assist in determining the need for a more formal regulatory program to implement the provisions of Section 4(b) of the Act.

CFR Citation: 17 CFR 1; 17 CFR 33

Abstract: The Commission is proposing to amend Commission regulation 33.4(a)(2), which currently provides that a contract market applying for designation to trade commodity option contracts must require full payment of option premiums by the contract market's clearing organization. Under the proposed rule amendment, a contract market could choose instead to adopt rules permitting its members to make a deposit with respect to the option premium, subject to certain proposed requirements. In addition, the Commission is proposing to amend regulations 1.3, 1.12 and 1.17 to reflect in its minimum financial requirements for futures commission merchants the margin treatment which may be accorded option positions under proposed amendments to regulation 33.4(a)(2).

Abstract: The Commission is proposing amendments to Parts 16 and 17 of its regulations which are intended to provide the Commission with important surveillance data on a more timely basis. Proposed amendments to Part 16 would require that exchanges submit data under Rules 16.00, 16.01 and 16.02 to the Commission by 12:00 noon on the business day following the day to which the information pertains. Currently, the time of day for exchange submissions is not specified. Under the proposed amendments to Part 17, all futures commission merchants (FCMs), clearing members and foreign brokers would be required to submit the information specified under Rule 17.00(a) in machine readable form unless otherwise directed by the Commission or its designee. FCMs and foreign brokers which are exempt from automated reporting and which mail reports would have to mail such reports not later than the day covered by the report. The Commission also is proposing clarifying amendments to Rule 16.06 which requires a contract market promptly to inform the Commission of errors and (cont)

Abstract: The Commission has proposed to adopt regulation 1.59 which would require designated self-regulatory organizations to adopt rules that prohibit their employees from trading certain futures or options contracts which are related to their employment responsibilities and from divulging material, nonpublic information obtained as a result of employment at the self-regulatory organization. It also would be a violation of proposed regulation 1.59 for an employee to divulge material, nonpublic information obtained by reason of employment at a self-regulatory organization. Finally, the proposed regulation would require exchanges to adopt rules prohibiting members of their governing boards from trading in certain markets prior to the announcement of market regulatory decisions.

CFR Citation: 17 CFR 1

Abstract: The Commission has proposed an amendment to its regulation 1.35 (g) which would require that the time of trade execution be recorded to the nearest minute by each party to all transactions executed on the contract markets. The amendments would require that this trade execution time also appear on the trade register, which the contract markets are required to maintain pursuant to Commission regulation 1.35(e). The proposed amendments also would require that a mechanical or electronic time recordation system be used by the parties to each trade, although the proposed amendments also provide that, as an interim measure, other than mechanical or electronic means may be employed to capture the trade execution time to the nearest minute. The amendments are intended to enhance the audit trail capabilities of the contract markets, thus improving the ability to detect and prosecute trade practice abuses.

Abstract: The Commission has proposed to adopt a guideline pursuant to which the Commission will review and approve the rules of designated contract markets relating to the margining of option positions. The proposed guideline is intended to serve as a basis for ensuring, to the extent possible, that the margin assessed by contract markets on option positions both long and short, is commensurate with the risk assumed. This proposal is a direct response to the events resulting in the liquidation on March 20, 1985 by the Comex Clearing Corporation, Inc., of customer accounts carried by Volume Investors Corporation.

CFR Citation: 17 CFR 1; 17 CFR 190

Abstract: The Commission has requested comment on whether it should propose rules requiring each contract market and its related clearing association to adopt regulations governing the procedure pursuant to which the open commodity contracts carried by a clearing member futures commission merchant ("FCM") which

has defaulted on a margin obligation are transferred or liquidated. The Commission also has requested comment on whether it should amend its rules relating to liquidation of open positions in the event of a commodity broker bankruptcy, Commission rule 190.04(d). This proposal is a direct response to the events surrounding the liquidation on March 20, 1985 by the Comex Clearing Association, Inc., of customer accounts carried by Volume Investors Corporation. Comments will assist the Commission in determining whether it should propose rules which would provide express general guidelines to contract markets and their related clearing organizations for addressing similar default situations and thereby eliminate ad hoc procedures.

Semiannual Regulatory Agenda

CPSC

CONSUMER PRODUCT SAFETY COMMISSION

16 CFR Ch. II

Regulatory Flexibility Act; Semiannual Regulatory Flexibility and Unified Agendas

AGENCY: Consumer Product Safety Commission.

ACTION: Publication of regulatory flexibility and unified agendas.

SUMMARY: The Regulatory Flexibility Act (RFA) requires each Federal agency to publish twice each year a regulatory flexibility agenda listing for a 12-month period rules expected to be proposed or promulgated which may have a significant economic impact on a substantial number of small entities. In this document, the Commission publishes its tenth semiannual regulatory flexibility agenda.

Additionally, although not required to do so, the Commission has elected to comply voluntarily with those provisions of Executive Order 12291 which require executive agencies to publish an agenda of regulatory actions under development or review during the succeeding 12 months by the agency and which further provide that such an agenda may be combined with an agency's regulatory flexibility agenda published in accordance with the RFA.

DATE: The Commission welcomes comments from small entities, including small businesses, small organizations, and small governmental units, upon each subject area of the agenda. Written comments concerning the agenda should be received in the Office of the Secretary by December 31, 1985.

ADDRESS: Comments on the regulatory flexibility agenda should be sent to the Office of the Secretary, Consumer Product Safety Commission, Washington, D.C. 20207, telephone (301) 492-6800, and should be titled "Regulatory Flexibility Agenda."

FOR FURTHER INFORMATION CONTACT: For further information on the agenda in general, contact: Allen F. Brauninger, Office of the General Counsel, Consumer Product Safety Commission, Washington, D.C. 20207, telephone (301) 492-6980. All inquiries from the press and broadcast media should be directed to Lou Brott, Office of Public Affairs, Consumer Product Safety Commission, Washington, D.C. 20207, telephone (202) 634-7780. For further information regarding a particular item on the agenda, consult the individual listed in the column headed "Contact" for that particular item.

SUPPLEMENTARY INFORMATION: The Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), contains several provisions intended to reduce unnecessary and disproportionate regulatory requirements on small businesses, small governmental organizations, and other small entities. Section 602 of the Act (5 U.S.C. 602) requires each agency to publish twice each year a regulatory flexibility agenda containing a brief description of any rule expected to be proposed or promulgated which may have a "significant economic impact" on a "substantial number" of small entities. The agency must also provide a summary of the objectives and legal basis for each agenda item and a schedule for acting on each item, as well as the name and address of the agency official knowledgeable about the items listed. Further, agencies are required to provide notice of their agendas to small entities and solicit their comments by direct notification or by inclusion in publications likely to be obtained by such entities.

In addition, President Reagan's Executive Order 12291 requires executive agencies to publish, twice each year, a regulatory agenda of proposed regulations under development or review and further states that such an agenda may be combined with an agenda published under the RFA. While the Commission, as an independent regulatory agency, is not required to follow Executive Order 12291, the Commission is complying voluntarily with those provisions concerning publication of a regulatory agenda.

The tenth semiannual regulatory flexibility agenda, published below, lists for a 12-month period anticipated regulatory activities under development or review. These include all such activities, not only those which may have a significant economic impact on a substantial number of small entities.

The agenda contains a brief description and summary of each regulatory activity, including the objectives and legal basis for each; an approximate schedule of target dates, subject to revision, for the development or completion of each activity; and the name and telephone number of a knowledgeable agency official concerning particular items on the agenda. All agency contacts have the same address: Consumer Product Safety Commission, Washington, D.C. 20207.

DATED: September 20, 1985.

Sadye E. Dunn,

Secretary, Consumer Product Safety Commission.

3567. UPHOLSTERED FURNITURE CIGARETTE FLAMMABILITY STANDARD

Legal Authority: 15 USC 1193 FFA; 15 USC 1194 FFA

CFR Citation: 16 CFR 1633

Abstract: The Commission continued cooperative efforts with the upholstered furniture industry to improve the cigarette ignition resistance of upholstered furniture. In 1981, the Commission voted to defer mandatory regulatory action on upholstered furniture in order to work with manufacturers participating in the Voluntary Action Program (VAP) of the Upholstered Furniture Action Council (UFAC) on improvements in the cigarette ignition resistance of upholstered furniture. This program may eliminate the need for a mandatory standard. A 1984 evaluation of upholstered furniture produced by UFAC participating companies, following implementation of "Phase 2" of UFAC's VAP, indicated that these changes can be expected to result in a significant improvement in the cigarette ignition resistance of upholstered furniture. These tests also indicated that furniture without box welts and furniture covered with predominantly cellulosic fabrics ignited relatively easily, and represented a continuing problem. A report on Commission and industry activities to further improve these aspects is under preparation.

Legal Authority: 5 USC 553(e) Administrative Procedure Act; 15 USC 2051 Consumer Product Safety Act; 15 USC 2058 Consumer Product Safety Act

CFR Citation: Not yet determined

Abstract: The Commission staff anticipates completion of a study concerning consumer exposure to formaldehyde emissions from pressed-wood products in September 1985. The Commission will consider this study in determining whether any further action by the Commission is warranted to address any hazard to consumers which may be associated with exposure to formaldehyde from pressed-wood products. The Commission will also consider this study in deciding whether to grant or deny a petition from Consumer Federation of America requesting the Commission to issue a mandatory consumer product safety standard to limit the amount of formaldehyde which can be released from pressed-wood products made with urea-formaldehyde resin. The Commission received this petition on August 19, 1982.

Abstract: On April 26, 1984, the Commission published in the Federal Register a proposal to amend its regulations for classifying extremely flammable, flammable and combustible hazardous substances which release ignitible vapors. The staff has completed its analysis of issues raised by comments on the proposal, and expects to forward a briefing package to the Commission in September 1985 with recommendations for final action by the Commission. If issued on a final basis, the proposed amendments would bring the Commission's test method and flammability classification procedures into general conformity with the practices of other federal agencies and voluntary standards setting organizations.

3576. FEDERAL HAZARDOUS SUBSTANCES ACT REGULATIONS FOR FIRST AID LABELING OF PRODUCTS CONTAINING MORE THAN 5 PERCENT OF BENZENE OR 10 PERCENT OF TOLUENE, XYLENE, OR PETROLEUM DISTILLATES

Legal Authority: 15 USC 1261(p)(1) FHSA

CFR Citation: 16 CFR 1500.14(b)(3)

Abstract: The Commission staff has prepared a draft of a proposed regulation to amend the FHSA regulations for first aid labeling of products containing more than 5 per cent of benzene or 10 per cent of toluene, xylene, or petroleum distillates by eliminating the current requirement

that such labeling must contain the direction "if swallowed, do not induce vomiting." Current expert opinion is that the decision of whether to induce vomiting as a first aid treatment should be made on a case-by-case basis, depending on the toxicity of the individual product and the amount ingested. The staff anticipates transmittal of the proposed amendment to the Commission in September of 1985. If approved by the Commission, the proposed amendment will be published in the Federal Register to solicit written comments for all interested parties.

Significance: Agency Priority

Legal Authority: 15 USC 2051 et seq CPSA; 15 USC 1262(e) FHSA

CFR Citation: Not yet determined

Abstract: On May 31, 1985, the Commission published an advance notice of proposed rulemaking (ANPR) to announce its preliminary determination that an unreasonable risk of injury may be associated with all-terrain vehicles. An all-terrain vehicle (ATV) is a motorized machine intended to be ridden by one person and designed for off-road use for recreational and other purposes. ATVs are manufactured in three-wheel and four-wheel designs. The ANPR solicited written comments concerning risks of injury which may be associated with ATVs, rulemaking and other actions authorized by the Consumer Product Safety Act and the Federal Hazardous Substances Act to address such risks of injury; and alternatives to regulatory action, including voluntary standards. The ANPR also announced that the Commission would conduct public hearings to obtain information related to the safety of ATVs. Those hearings were conducted in five cities during the months of May through October 1985.

Legal Authority: 15 USC 1261 FHSA; 15 USC 1269 FHSA

CFR Citation: 16 CFR 1500.3(c)(5)

Abstract: The Commission staff is preparing a draft of a proposed regulation to define the term "strong sensitizer" to supplement the definition of that term set forth in the Federal Hazardous Substances Act. The supplemental definition will explain how the statutory definition will be applied, and will provide criteria to be used by the Commission in designating substances as "strong sensitizers" for purposes of the FHSA. The staff anticipates that the proposed amendment will be transmitted to the Commission in September of 1985. If approved by the Commission, the proposed amendment will be published in the Federal Register to solicit written comments from all interested parties.

Legal Authority: 15 USC 1471 et seq. PPPA

CFR Citation: 16 CFR 1700.14(a)(1)(i)

Abstract: By letter dated March 25, 1985, Miles Laboratories, Inc. petitioned the Commission to amend existing provisions of 16 CFR 1700.14(a)(1)(i) which exempt certain effervescent tablets containing aspirin from requirements for child-resistant packaging. The amendment requested by this petition would increase the percentage of aspirin allowed in products eligible for the exemption from 10 per cent to 15 per cent and would specify the required carbon dioxide content in terms of the quantity per tablet rather than the quantity per grain of aspirin. If the Commission grants this petition, it will publish a proposed amendment in the Federal Register to solicit written comments from all interested parties.

Legal Authority: 15 USC 1471 et seq. PPPA

CFR Citation: Not yet determined

Abstract: On May 3, 1985, the Commission received a petition from Diane L. Denton, R.N., requesting the Commission to initiate a rulemaking proceeding to establish requirements applicable to disposable lighters to make those products child-resistant. The staff is preparing a briefing package containing information for consideration by the Commission in deciding whether to grant or deny the petition. Legal Authority: 15 USC 2064

CFR Citation: 16 CFR 1115

Abstract: On December 28, 1984, the Commission published a notice in the Federal Register to invite written comments on a statement of enforcement policy concerning substantial product hazard reports which the Commission had published on April 6, 1984. The policy statement clarified the Commission's interpretation of requirements for reporting substantial product hazards established by section 15 of the Consumer Product Safety Act. The staff has drafted an analysis of issues raised by the comments on the policy statement. This analysis will be considered by the Commission in deciding whether to modify the policy statement in response to comments.

3586. EXEMPTION FROM CLASSIFICATION AS A BANNED TOY OR OTHER BANNED ARTICLE FOR USE BY CHILDREN -- CAPS (PAPER OR PLASTIC)

Legal Authority: 15 USC 1261(f)1(D); 15 USC 1262(e)(1); 15 USC 2079(a); 15 USC 1261(q)(1)(a); 15 USC 1261(s)

CFR Citation: 16 CFR 1500.18(a)(5); 16 CFR 1500.86(a)(6)

Abstract: For more than ten years a regulation has existed under the Federal Hazardous Substances Act that was an "interim" regulation. Caps producing sound levels in the range of 138-158 decibels have been banned, but are exempt from the ban if they are properly labeled and if firms producing them report to the Commission on programs to reduce the sound levels. The Commission will be considering whether to revoke the exemption and thus ban the caps or to expand the exemption to allow their marketing without any restrictions. Any action will be based on as-yet-undetermined analyses of the various costs and benefits associated with these two approaches or any other approaches that the Commission might pursue.

FARM CREDIT ADMINISTRATION

12 CFR Ch. VI

Unified Agenda of Federal Regulations

AGENCY: Farm Credit Administration.

ACTION: Department Unified Agenda of Regulations and review list.

SUMMARY: The Farm Credit Administration, as an independent regulatory agency in voluntary compliance with Executive Order 12291, sets forth the following agenda of regulations which it will have under development and review during the period of October 1985 through April 1986.

FOR FURTHER INFORMATION CONTACT: Dorothy J. Acosta, Associate General Counsel, Office of General Counsel, Farm Credit Administration, 1501 Farm Credit Drive, McLean, VA 22102-5090 (703-883-4020).

SUPPLEMENTARY INFORMATION: The Regulatory Flexibility Act (5 U.S.C. 601, *et seq.*), contains several provisions intended to reduce unnecessary and disproportionate regulatory requirements on small entities. Farm Credit Administration ("FCA") regulations which apply to Farm Credit System banks and associations do not and will not have a substantial impact on small entities. None of the entities regulated by the FCA fall within the definition of small entities in the Regulatory Flexibility Act. While many associations through which banks lend are smaller in size than their banks, they are not independently operated, as they are closely supervised by the banks, which must approve most of their operating policies. The associations rely exclusively on their supervising banks for their source of funds. Furthermore, the associations do not compete with each other since, as with their supervising banks, each serves only a particular geographic area.

While FCA is an independent Agency exempt from Executive Order 12291, we believe that participating in this joint publication will further the public interest by including FCA in a single source of information concerning current and projected rulemaking and reviews of existing regulations.

DATED: August 27, 1985.

Donald E. Wilkinson,

Governor.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Ch. I

Unified Agenda of Federal Regulations

AGENCY: Federal Communications Commission.

ACTION: Publication of the Unified Agenda of Federal Regulations.

SUMMARY: The Commission publishes the Unified Agenda of Federal Regulations to provide the public with adequate notice of all major and other significant proceedings under development or review. The agenda also provides the CFR Citations and Legal Authorities which govern these proceedings. This is in accordance with Executive Order 12291 and OMB Bulletin No. 85-21. In addition, the agenda, in compliance with the Regulatory Flexibility Act (94 Stat. 1167; 5 USC 605) includes notations on the applicability of the Regulatory Flexibility Act to each item. The Unified Agenda will be published in the **Federal Register** in April and October of each year.

ADDRESS: Federal Communications Commission, 1919 M Street, N.W., Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Claudette Pride, Management Planning and Program Evaluation Office, (202) 632-3906.

SUPPLEMENTARY INFORMATION:

Unified Agenda of all major and other significant proceedings

The Commission encourages public participation in the FCC rule making process. To help keep the public informed of significant rule making proceedings, the Commission has prepared an agenda of important proceedings now in progress. OMB will publish the Unified Agenda in the **Federal Register** in April and October of each year.

The following terms may be helpful in understanding the status of the proceedings included in this report:

A Docket Number - is assigned to a proceeding if the Commission has issued either a Notice of Proposed Rule Making or a Notice of Inquiry in regard to the matter under consideration. Since January 1, 1978, the Commission has used docket numbers which consist of the last two digits of the calendar year in which the docket was established plus a sequential number which begins at 1 with the first docket initiated during a calendar year (e.g. Docket 80-1 or Docket 83-1). The abbreviation for the responsible Bureau usually precedes the docket number, as in "Docket 79-164." When a docket number consists of only five digits (e.g. Docket 29622), this indicates that the docket was established before January 1, 1978.

Notice of Inquiry (NOI) - issued by the Commission when it is seeking information on a broad subject or trying to generate ideas on a given topic. A comment period is specified during which all interested parties may submit comments.

Notice of Proposed Rule Making (NPRM) - issued by the Commission when it is proposing a specific change to the FCC Rules and Regulations. Before any changes are actually made, interested parties may submit written comments on the proposals.

Memorandum Opinion and Order (MO&O) - issued by the Commission to deny a petition for rule making, conclude an inquiry, modify a decision, or deny a petition for reconsideration of a decision.

Rule Making (RM) Number - assigned to a proceeding after the appropriate Bureau/Office has reviewed a petition for rule making, but before the Commission has taken action on the petition.

Report & Order (R&O) - issued by the Commission to state a new or amended rule or state that the FCC Rules will not be changed.

William J. Tricarico,

Secretary, Federal Communications Commission.

Legal Authority: 29 USC 794; 47 USC 4(i); 47 USC 303(r)

CFR Citation: 47 CFR 1.1801 to 1.1899

Abstract: As originally enacted in 1974, Section 504 of the Rehabilitation Act prohibited discrimination on the basis of handicap in federally assisted programs. The Amendment of 1978 extended the nondiscrimination mandate of Section 504 to programs and activities conducted by federal agencies. Under Executive Order 12250, the Attorney General is authorized to coordinate the implementation. To assist agencies in developing rules to implement the 1978 Amendment, the Department of Justice drafted a prototype which our proposed rules follow to prohibit discrimination on the basis of handicap on FCC programs.

Federal Deposit Insurance Corporation

Semiannual Regulatory Agenda

FDIC

FEDERAL DEPOSIT INSURANCE CORPORATION

12 CFR Ch. III

Semiannual Agenda of Regulations

AGENCY: Federal Deposit Insurance Corporation.

ACTION: Publication of semiannual agenda of regulations.

SUMMARY: The Federal Deposit Insurance Corporation ("FDIC") is hereby publishing items for the October 1985 Regulatory Agenda. The agenda contains information about FDIC's current and projected rulemakings, existing regulations under review, and completed rulemakings.

FOR FURTHER INFORMATION CONTACT: Persons identified under regulations listed in the agenda. The address for all FDIC staff identified in the agenda is Federal Deposit Insurance Corporation, 550 17th Street, N.W., Washington, D.C. 20429.

SUPPLEMENTARY INFORMATION: Twice each year, the FDIC publishes an agenda of regulations to inform the public of its regulatory actions and to enhance public participation in the rulemaking process. Publication of the agenda is in accordance with both the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) and the FDIC statement of policy entitled "Development and Review of FDIC Rules and Regulations" (44 FR 31007, May 30, 1979; 44 FR 32353, June 6, 1979; 44 FR 76858, December 28, 1979; 49 FR 7288, February 28, 1984).

FDIC amends its regulations under the general rulemaking authority prescribed in section 9 of the Federal Deposit Insurance Act (12 U.S.C. 1819) and under specific authority granted by the Act and other statutes.

Interested persons may petition the FDIC for the issuance, amendment or repeal of any regulation by submitting a written petition to the Executive Secretary, Federal Deposit Insurance Corporation, Washington, D.C. 20429. Petitioners should include complete and concise statements of their interest in the subject matter and reasons why the petitions should be granted.

DATED: August 30, 1985.

Federal Deposit Insurance Corporation.

Hoyle L. Robinson,

Executive Secretary.

PROPOSALS OUTSTANDING

3737. BROKERED DEPOSITS, LIMITATIONS ON DEPOSIT INSURANCE

Significance: Agency Priority

Legal Authority: 12 USC 1819 Federal Deposit Insurance Act; 12 USC 1813 Federal Deposit Insurance Act; 12 USC 1817 Federal Deposit Insurance Act; 12 USC 1821 Federal Deposit Insurance Act; 12 USC 1822 Federal Deposit Insurance Act

CFR Citation: 12 CFR 330

Abstract: On June 20, 1984, the United States District Court for the District of Columbia entered an Order declaring the Final Rule published by the FDIC at 49 FR 13003 (April 2, 1984) on limiting insurance coverage for brokered deposits to be unlawful, enjoining the Rule's implementation and directing that the Order be published. The FDIC published the Order, as directed by the Court, at 49 FR 27294 (July 3, 1984). On January 30, 1985, the U.S. Court of Appeals upheld the U.S. District Court's ruling that the FDIC did not have authority to limit insurance coverage on brokered deposits. The FDIC is considering recommending to the Justice Department that the case be appealed to the Supreme Court.

CFR Citation: 12 CFR 338

Abstract: The FDIC has proposed amending its Fair Housing regulation, 12 CFR 338, to revise the recordkeeping exemption threshold. The FDIC now requires metropolitan banks with more than $10 million in assets to keep log sheets of home loan applications. The proposed rule would end the log sheet requirement for log sheet banks that have $50 million or less in assets and have received fewer than 25 home loan applications in the prior calendar year. Raising the threshold should improve the efficiency and effectiveness of consumer affairs examiners through more productive use of examination time and, additionally, should reduce the recordkeeping burden on banks.

3740. NONDISCRIMINATION ON THE BASIS OF HANDICAP

Legal Authority: 29 USC 504 Rehabilitation Act of 1973; 12 USC 1819 Federal Deposit Insurance Act

CFR Citation: 12 CFR 352

Abstract: This proposed regulation implements the spirit of section 504 of the Rehabilitation Act of 1973, as amended, which prohibits discrimination on the basis of handicap, as it applies to the programs or activities conducted by various Executive agencies. Although the FDIC does not believe that Congress contemplated coverage of non-appropriated, independent regulatory agencies such as the FDIC, it has chosen to promulgate this proposed regulation to ensure that, to the extent practicable, handicapped persons are provided with equal access to FDIC programs and activities.

Legal Authority: 12 USC 1813; 12 USC 1817; 12 USC 1821; 12 USC 1822; 12 USC 1823

CFR Citation: 12 CFR 330

Abstract: The FDIC is proposing to amend certain recordkeeping requirements affecting the manner in which insurance coverage on brokered deposits is determined. The amendments would require disclosure in the account records of the bank of the identity of each person having a beneficial ownership interest in such accounts in order for those persons to obtain insurance coverage. The primary purpose of the amendment is to enable the FDIC to determine quickly and efficiently the extent of insurance coverage on brokered deposits for supervisory and regulatory reasons and to make informed decisions regarding the costs of alternatives considered in handling insured banks which are failing.

3742. ● REPORTS OF APPARENT CRIMES AFFECTING INSURED NONMEMBER BANKS; NOTIFICATION OF CHANGE IN FIDELITY BOND COVERAGE

Legal Authority: 12 USC 1818; 12 USC 1819; 12 USC 1828

CFR Citation: 12 CFR 353

Abstract: The FDIC is proposing to add Part 353 to its regulations to require insured nonmember banks to report, on a prescribed form, criminal violations of the United States Code that involve or affect such banks to the appropriate investigatory and prosecuting authorities, as well as to the FDIC. Robberies, burglaries and nonemployee larcenies, which are subject to the requirements of 12 CFR 326.5(c), are exempt from the requirements of the proposed rule. The central purpose of the report form requirement is to assure that the information needed by the investigators and prosecutors for effective law enforcement is provided in an orderly and timely fashion. Also, the FDIC, by receiving a copy of the reports, will be better able to monitor, and to act to reduce, losses to insured nonmember banks as a result of criminal activity. The proposed rule also requires,in the interest of reducing losses, that an insured nonmember bank notify the FDIC if its fidelity bond against defalcations and similar losses is cancelled or if the coverage is changed significantly.

Legal Authority: 12 USC 1817; 12 USC 1818; 12 USC 1819

CFR Citation: 12 CFR 344

Abstract: After several years of experience with Part 344, the FDIC believes that some changes to these regulations are desirable. Part 344 requires insured State nonmember banks effecting securities transactions for customers to maintain chronological and account records of transactions and provide customers with timely specified information, and establish written policies and procedures applicable to the securities activities performed for customers. The regulation serves to assure that customers are provided with adequate information about their securities transactions effected by the bank and that banks are maintaining adequate business records. It was issued through the Federal Financial Institutions Examination Council on an interagency basis in 1979.

3746. APPLICATIONS, REQUESTS, SUBMITTALS, DELEGATIONS OF AUTHORITY, AND NOTICES OF ACQUISITION OF CONTROL

Legal Authority: 12 USC 1815; 12 USC 1816; 12 USC 1817(j); 12 USC 1818; 12 USC 1819; 12 USC 1828; 12 USC 1829; 15 USC 1607

CFR Citation: 12 CFR 303

Abstract: Part 303 sets forth the requirements and procedures to be followed by State nonmember banks in making application to the FDIC on such matters as obtaining deposit insurance, establishing a branch or moving a main office or branch, establishing remote service facilities, merging or consolidating, extending corporate or charter powers, reducing or retiring capital, providing notice of change in bank control, and various other matters. The regulation also describes the authority delegated by the FDIC Board of Directors to certain officials and committees of the Corporation to act on such matters as applications, notices of acquisition of control, requests for relief from reimbursement, and other related matters.

This regulation has been selected for review during calendar year 1985 under the FDIC's Regulation Review Program. See 50 FR 14247, April 11, 1985.

3754. SECURITIES RECORDKEEPING AND CONFIRMATIONS

Legal Authority: 12 USC 1819 Federal Deposit Insurance Act; 12 USC 1817 Federal Deposit Insurance Act; 12 USC 1818 Federal Deposit Insurance Act

CFR Citation: 12 CFR 344

Abstract: Part 344 of the FDIC's regulations requires insured State nonmember banks effecting securities transactions for customers to maintain chronological and account records of transactions and underlying order tickets reflecting specified information, provide customers with timely specified information, and establish written policies and procedures applicable to the securities activities performed for customers. The regulation serves to assure that customers are provided with adequate information about their securities transactions effected by the bank and that banks are maintaining adequate business records. It was issued through the Federal Financial Institutions Examination Council on an interagency basis in 1979. All three Federal bank regulatory agencies have almost identical regulations. After several years of experience with these regulations, some changes may be desirable. The three banking agencies, as a joint effort under the Examination Council, are reviewing these regulations to determine the specific changes to be proposed.

Legal Authority: 16 USC 792 to 828c

CFR Citation: 18 CFR 45, (Revision)

Abstract: The proposed rule would amend the procedure for application for authority to hold interlocking positions that require Commission approval under section 305(b) of the Federal Power Act. It would provide for a less burdensome procedure for acquiring Commission approval to hold positions with companies within a single electric utility holding company system registered under the Public Utility Holding Company Act of 1935. 3760. CALCULATION OF CASH WORKING CAPITAL ALLOWANCE FOR PUBLIC UTILITIES

Significance: Agency Priority

Legal Authority: 16 USC 79 to 828c

CFR Citation: 18 CFR 35

Abstract: Proposed rule would provide that a public utility that files electric rate schedules may include in rate base no cash working capital allowance, unless it is demonstrated that the payment of certain current operating expenses by that utility is not, on the average, closely timed with the receipt of revenues from ratepayers, producing a significant "lead" or "lag" in revenue collection in relation to the payment of expenses. The new section would prescribe the expense elements includable in cash working capital, the parameters of the presumption against a cash working capital allowance, and the nature of the studies that may be submitted in support of, or in opposition to, any request for a cash working capital allowance. 3780. ● REGULATION OF NATURAL GAS PIPELINES AFTER PARTIAL WELLHEAD DECONTROL

Significance: Agency Priority

Legal Authority: 15 USC 717 to 717z Natural Gas Act; 42 USC 7101 to 7352 Dept. of Energy Organ. Act; 15 USC 3301 to 3432 Natural Gas Policy Act

CFR Citation: 18 CFR 2; 18 CFR 154; 18 CFR 157; 18 CFR 161; 18 CFR 284

Abstract: The Commission is proposing to amend its rules in four specific areas. In order to open up natural gas transmission to more competition, any natural gas pipeline that holds itself out as a transporter of natural gas would be required to provide firm transportation service on a non-discriminatory basis with volumetric rates to all shippers for all categories of gas and for all end-uses. In addition, a rebuttable presumption of prudence would be established for certain limited and circumscribed payments ("buyouts") made by pipelines to extinguish all future minimum payment or purchase obligations in certain contracts with producers and suppliers. New, expedited certificate procedures would also be available on an optional basis to persons who apply for certificates to the Commission under section 7 of the Natural Gas Act, 15 U.S.C. 717f (1982). This proposal would also preserve to existing consumers the benefits of "old gas" price-controlled under the Natural Gas Policy Act, 15 U.S.C. 3301-3432 (1982). RM 85-1

3790. SECURITIES OFFERINGS

Legal Authority: 12 USC 1725; 12 USC 1726; 12 USC 1730; 12 USC 1464

CFR Citation: 12 CFR 563.7-4; 12 CFR 563.8; 12 CFR 563.8-1; 12 CFR 563.8-4; 12 CFR 563c.1; 12 CFR 563g, (Proposed new Part)

Abstract: The proposal is intended to establish uniform rules for securities offerings applicable to all institutions whose accounts are insured by, or who are applying for insurance from, the Federal Savings and Loan Insurance Corporation, and to relieve current restrictions on securities activities by such institutions at their offices. The current lack of uniform rules puts institutions in danger of inadvertently violating the disclosure-oriented antifraud provisions of the Securities Act of 1933 and the Securities Exchange Act of 1934, and the use of inadequate or misleading disclosures by individual institutions, could have a significant adverse impact on the capability of other thrift institutions to raise capital and could result generally in illiquid and disorderly markets for the securities of insured institutions.

The alternatives under consideration are: (1) do nothing (no adoption of rules); (2) adopt unique disclosure rules for thrifts; or (3) adopt SEC-like rules (as proposed-public market recognition and comparability).

Costs/benefits have not been quantified; general (cont)

Unified Regulatory Agenda

AGENCY: Federal Maritime Commission.

ACTION: Unified Agenda of Federal Regulations.

SUMMARY: Pursuant to section 5 of E.O. 12291 and the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) the Commission anticipates having under consideration during the period from October 1, 1985, to September 30, 1986, actions in the areas listed below.

FOR FURTHER INFORMATION CONTACT: For further information concerning Commission rulemaking proceedings or the status of any matter listed below, contact: John Robert Ewers, Director, Office of Regulatory Overview, 1100 L Street, N.W., Washington, D.C. 20573, (202) 523-5866.

SUPPLEMENTARY INFORMATION: Section 602 of the Regulatory Flexibility Act (5 U.S.C. 602) requires the publication of an agenda of items for which regulatory agencies may propose or promulgate a rule which is likely to have a significant economic impact on a substantial number of small entities. Section 5 of Executive Order 12291 also requires executive agencies to publish a regulatory agenda; the Commission voluntarily complies with this section. The agendas include information on regulatory activities being conducted or reviewed during the succeeding 12 months by the Commission.

The following is the Commission's Unified Regulatory Agenda. The agenda does not necessarily include petitions for rulemakings which are under staff review.

In addition, the Commission is publishing a compilation of the status of pending rulemaking proceedings and a listing of rules that have become final since the publication of the most recent regulatory agenda (April, 1985, 50 FR 18096). This list will be made available to the press and interested groups.

Bruce A. Dombrowski,

Acting Secretary.

Semiannual Regulatory Flexibility Agenda

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Semiannual agenda.

SUMMARY: The Board is issuing this Agenda under the Regulatory Flexibility Act and the Board's Statement of Policy Regarding Expanded Rulemaking Procedures. The Board anticipates having under consideration regulatory matters as indicated below during the period from October 1, 1985 through April 1, 1986. The next Semiannual Agenda will be published in April 1986.

DATE: Comments about the form or content of the Agenda may be submitted any time during the next six months.

ADDRESS: Comments should be addressed to William W. Wiles, Secretary of the Board, Board of Governors of the Federal Reserve System, Washington, D.C. 20551.

FOR FURTHER INFORMATION CONTACT: A staff contact for each item is indicated with the regulatory description below.

SUPPLEMENTARY INFORMATION: The Board is publishing its October 1985 Agenda as part of the October 1985 Unified Agenda of Federal Regulations, which is coordinated by the Office of Management and Budget under Executive Order 12291. Participation by the Board in the Unified Agenda is on a voluntary basis.

The Board's Agenda is divided into three sections. The first, Current and Projected Rulemakings, reports on regulatory matters that have been proposed and are under Board consideration, and other regulatory matters (designated by a plus sign (+)) the Board may consider for public comment during the next six months. The second section, Existing Regulations Under Review, reports on any major regulatory reviews under the Board's Regulatory Improvement Project that are scheduled for the next 12 months. A third section, Completed Rulemaking, reports on regulatory matters the Board has completed or is not expected to consider further.

A dot (●) preceding an entry indicates a new matter that was not a part of the Board's previous Agenda, and which the Board has not completed.

Barbara R. Lowrey,

Associate Secretary of the Board.

3819. REGULATION: B - EQUAL CREDIT OPPORTUNITY (DOCKET NUMBER: R-0541)

Legal Authority: 15 USC 1691b Equal Credit Opportunity Act

CFR Citation: 12 CFR 202

Abstract: In March 1985, the Board published for comment proposed revisions to Regulation B (50 FR 10890, March 18, 1985). The proposal stems from the Board's commitment to review its regulations every five years. The review of Regulation B focussed on how the regulation could be clarified, and whether any burdens on creditors could be reduced without diminishing consumer protections.

The proposal contains some technical changes, including a streamlined procedure dealing with incomplete applications and a broader selection of sample forms for informing applicants of the reasons for a credit denial. The proposal also would change the data notation requirements applicable to residential mortgage transactions and revise the definition of "applicant" to give a guarantor (who already has certain protections under Regulation B) legal standing in the courts when there is an alleged violation of the regulation. The Board is also publishing for comment an official staff commentary that would replace existing staff and Board Interpretations.

The proposal would apply to all creditors equally. Small (cont)

Legal Authority: 12 USC 371b; 12 USC 461(b)

CFR Citation: 12 CFR 204; 12 CFR 217

Abstract: On March 31, 1986, the authority transferred to the Depository Institutions Deregulation Committee expires, and interest paid on deposits will generally no longer be subject to regulation. The Board will consider amending its Regulations D and Q to reflect this expiration and to make other technical changes. It is expected that any changes in the regulations will not have a significant adverse effect on small entities.

Abstract: In March 1985, the Board issued for public comment proposed amendments to Regulation J intended to clarify certain issues that have arisen regarding Federal Reserve payments mechanism activities (50 FR 12310, March 28, 1985). The proposed amendments include (1) permitting the owner or other subsequent holder injured by a Reserve Bank's alleged failure to exercise ordinary care in handling a check to bring suit against the Reserve Bank; (2) establishing a two-year limitation for actions against a Reserve Bank for alleged mishandling of the collection of checks or processing wire transfers and for actions against payor institutions for failure to follow the notification of nonpayment requirements; (3) permitting Reserve Banks to require any prior indorser to defend a suit even if the Reserve Bank has not been sued directly; (4) authorizing depository institutions to deposit with Reserve Banks for collection checks drawn on institutions in foreign countries where Reserve Banks have made arrangements for their collection; (5) clarifying that Reserve Banks are not liable for consequential damages in handling wire transfers; (6) adding the northern Mariana Islands to the Twelfth (cont)

3822. ● REGULATION: K - INTERNATIONAL BANKING OPERATIONS (DOCKET NUMBER: R-0550)

Legal Authority: 12 USC 611 et seq

CFR Citation: 12 CFR 211

Abstract: In August 1985, the Board published for comment proposed regulations that would restrict lending by an Edge Corporation to its affiliates where the Edge Corporation is not subject to the restrictions of section 23A of the Federal Reserve Act (12 USC 371c) by virtue of being owned by a U.S. insured bank (Federal Register cite unavailable). In taking this action, the Board noted the increasing number of owners of Edge Corporations that are not subject to federal banking supervision and the potential adverse effects that might result from such affiliations, such as the impairment of the Edge's ability to act as an impartial arbiter of credit. The Board requested comment on the effect of the proposal on existing Edge Corporations, especially those owned by foreign banks and whether any exemptions from the restrictions are appropriate.

It is not expected that the proposal would have a significant economic impact on a substantial number of small businesses, because it applies only to organizations involved in international banking. The Board will review the public comments and take further action within the next six months.

Legal Authority: 12 USC 371b

CFR Citation: 12 CFR 217

Abstract: In March 1984, the Board proposed amendments to its rules concerning advertising interest on deposits to incorporate a policy statement concerning advertisements for split rate time deposits and for deposits used as Individual Retirement Account (IRA) investments (49 FR 11642, March 27, 1984). Under the proposal, in the case of a split rate account where a schedule of fixed rates to be paid is established in advance and the first rate to be paid is higher than subsequent rates, the Board would regard any advertisement of a rate as misleading unless the advertisement includes each rate to be paid in equal size type together with a conspicuous statement as to how long each rate will be in effect and a conspicuous statement of the average effective annual yield. In addition, advertisements should refer to IRAs as "tax deferred" and not as "tax exempt" or "tax free." The proposal would not adversely affect small businesses because no additional reporting or recordkeeping requirements are imposed.

The Board will review the public comments and is expected to take further action at the same time it considers updating (cont)

3824. +REGULATION: Q - INTEREST ON DEPOSITS

Legal Authority: 12 USC 371b

CFR Citation: 12 CFR 217

Abstract: In March 1984, the Board proposed amendments to its rules concerning advertising interest on deposits to incorporate a policy statement regarding advertisements for split-rate time deposits and for deposits used as Individual Retirement Account investments. (See entry RIN: 7100-

AA36). In response to comments received in that proceeding, the Board may consider whether to propose amending Regulation Q further in order to update and incorporate all the Board's existing requirements governing advertisement of interest on deposits. The Board might also request comment on whether additional requirements are necessary to provide depositors with accurate and adequate information in advertisements or at the time of opening an account. It has been suggested by some that such new requirements should be imposed to enable depositors to evaluate the many deposit options now available as a result of deregulation of interest rates. If the Board proposes any new rules, they are not likely to be severe nor to require reporting or recordkeeping. Therefore, it is expected that any such proposals would not have a significant adverse effect on small entities.

Legal Authority: 15 USC 78g Securities Exchange Act of 1934, as amended; 15 USC 78w Securities Exchange Act of 1934, as amended

CFR Citation: 12 CFR 221

Abstract: In 1985 or 1986, the Board may review a proposal submitted on behalf of a banking institution calling for an amendment to Regulation U that would permit banks to extend credit for options transactions in the same manner that broker-dealers may do so under Regulation T (Credit by Brokers and Dealers). In particular, the petitioner has requested the Board to change, if necessary, what is perceived to be a regulatory disparity between the treatment of banks and broker-dealers with respect to the financing of options transactions. This action may not be necessary if litigation upholds recent Securities and Exchange Commission Rule 3b-9 (17 CFR 240.3b-9), effective January 1, 1986, which requires a bank to conduct these activities through a broker-dealer subject to Regulation T.

It is not anticipated that this proposal would affect a significant portion of the overall lending activities of a substantial number of small firms.

Legal Authority: 12 USC 1843(c)(8) Bank Holding Company Act

CFR Citation: 12 CFR 225

Abstract: In March 1984, the Board proposed for public comment an amendment to Regulation Y that would list certain additional nonbanking activities as generally permissible for bank holding companies under section 4(c)(8) of the Bank Holding Company Act and in which bank holding companies may seek Board approval to engage (49 FR 9215, March 12, 1984). The activities proposed to be included in Regulation Y for the first time include: 1. commodity trading advisory services; 2. check guaranty services; 3. consumer financial counseling; 4. armored car services; 5. tax planning and tax preparation; and 6. operating a credit agency and credit bureau.

Consumer financial counseling, check guaranty services and limited types of tax preparation have been permitted previously by Board order on individual applications.

In addition the Board has proposed to expand the activities of property appraisal and providing advice in connection with future commission merchant activities. These activities have been included previously in the list of permissible activities (cont)

Legal Authority: 12 USC 1843(c)(8) Bank Holding Company Act

CFR Citation: 12 CFR 225

Abstract: In November 1983, the Board published for comment a proposal to eliminate the requirement in Regulation Y that bank holding companies engaging in credit life and credit

accident and health insurance underwriting provide rate reductions or increased policy benefits in order to engage in this activity (48 FR 53125, November 25, 1983.) The Board took this action as a result of the suggestions of several commenters to the Board's recent revision of Regulation Y, who advocated elimination of the rate reduction requirement from the regulation. These commenters stated that in their view the requirement puts bank holding companies at a competitive disadvantage with respect to other providers of this service, and that the potential adverse effects on the public that prompted the Board to impose this condition in 1972 have not been realized. This proposal, if adopted, would relax the regulatory requirements on bank holding companies which engage in this activity.

The Board will review the public comments and is expected to take further action within the next four months.

Legal Authority: 12 USC 1843 Bank Holding Company Act; 12 USC 1844(b) Bank Holding Company Act

CFR Citation: 12 CFR 225

Abstract: A provision of Regulation Y permits a state bank subsidiary of a bank holding company to engage through a nonbank subsidiary in any activity that is permissible under state law for the bank subsidiary itself, subject to the same limits as if the bank engages in the activity directly. (A similar rule applies to national bank subsidiaries regarding activities permissible for such banks under federal law.) The Board received comments on this provision in connection with its general request for comments in May 1983 regarding the proposed revision of Regulation Y. Some of the commenters challenged the Board's authority to issue this provision, although it has been part of Regulation Y since 1971. In taking final action on the revision of Regulation Y, the Board deferred consideration of the comments on this provision and allowed the existing rule to remain in effect in the interim (49 FR 794, January 5, 1984).

The Board plans to review this provision of the regulation in the near future. A determination to reverse the rule could have an adverse impact on many small banks that are subsidiaries of holding companies because they might be required to (cont)

Legal Authority: 12 USC 1841 Bank Holding Company Act; 12 USC 221 Federal Reserve Act; 12 USC 3901 International Lending Supervision Act of 1983

CFR Citation: 12 CFR 225

Abstract: In January 1985, the Board requested public comment regarding whether, and to what extent, the Board should exercise its authority under the Bank Holding Company Act, the Federal Reserve Act, and the International Lending Supervision Act to authorize or limit the conduct of real estate investment activities by bank holding companies and their nonbank subsidiaries (50 FR 4519, January 31, 1985). The Board has not proposed a specific regulation at this time, and has only requested comment on the general question of whether, and in what direction Board regulation in this area is appropriate. In the event the Board determines to propose a regulation in this area, the public will be invited to comment on the regulation. Comment in this area was requested in response to enactment of a number of state laws that have recently authorized state banks to conduct a broad array of nonbanking activities that previously were not authorized for state banks or bank holding companies, including real estate investment activities. Until the Board reviews the public comments on this activity, it is unclear whether the Board will act in this area or (cont)

Legal Authority: 12 USC 1841 et seq Bank Holding Company Act

CFR Citation: 12 CFR 225

Abstract: In January 1985, the Board requested public comment as to whether the Board should permit bank holding companies that own nonbank banks to provide internal administrative services to, and establish management interlocks with, those nonbank banks (50 FR 2057,

January 15, 1985). ("Nonbank banks" are institutions that are chartered as banks but which either do not accept demand deposits or do not make commercial loans.) The Board took this action to resolve a number of questions that had been raised regarding the appropriate scope of relationships between nonbank banks and their affiliates. It is likely that any action the Board might take would primarily affect larger bank holding systems and would relax a requirement or prohibition. Therefore, it is expected that any Board action would not have a significant economic impact on a substantial number of small entities.

In view of recent court decisions holding that nonbank banks violate the National Bank Act and the Bank Holding Company Act in certain circumstances, the Board has suspended further consideration of nonbank bank applications by bank holding companies pending (cont)

3831. REGULATION: Z - TRUTH IN LENDING (DOCKET NUMBER R-0545)

Legal Authority: 15 USC 1604, as amended Truth in Lending Act

CFR Citation: 12 CFR 226

Abstract: Regulation Z currently requires that creditors provide information to consumers regarding variable rate features in credit transactions. In the last several years, adjustable rate mortgages have become increasingly common and complex, and concern has been expressed in Congress and elsewhere as to whether Truth in Lending disclosures adequately convey to consumers the terms and potential costs of these mortgages.

The Board has proposed that creditors make more extensive disclosure of the variable rate feature in transactions secured by the consumer's home in order to provide consumers with the information needed for informed credit decisions, in keeping with the purpose of Truth in Lending (50 FR 20221, May 15, 1985). The proposal would amend the regulation to require that creditors make available to consumers general descriptive material about adjustable rate mortgages. The regulation would also be amended to require creditors to provide a more detailed description of their variable rate feature, together with an example showing the effect of a rate increase of two percentage points for each of the first three years of the transaction. Board proposed amendment	05/15/85	50 FR 20221

Additional Information: ABSTRACT CONT: Finally, the proposal would eliminate a provision of the regulation that currently permits creditors to substitute the disclosure required by other federal agencies for those called for in Regulation Z. The Board is concerned about the creditor burdens associated with compliance with the overlapping and duplicative disclosures in this area, and believes that elimination of that provision could encourage further movement among the agencies toward developing uniform disclosure requirements.

If the Board adopts this proposal, mortgage creditors, including small business engaged in mortgage lending, could incur some costs in implementing the revised disclosure by providing the general descriptive material, revising and reprinting forms, and changing certain procedures to comply with the requirement. Before any final action, the Board would consider appropriate actions to minimize the burdens and costs of compliance.

The Board will review the public comments and take further action within the next two months.

Legal Authority: 12 USC 221 et seq

CFR Citation: 00 CFR None

Abstract: In May 1985, the Board adopted a statement of its policy on reducing risks on large-dollar wire transfer systems (50 FR 21120, May 22, 1985) (see RIN: 7100-AA47). The Board determined, however, that certain aspects of this topic require further study and issued the following three requests for comments: (1) Book-entry securities transfer (R-0515A). In formulating its policy on risk reduction, the Board has been concerned about the impact that overdraft restrictions could have in the U.S. government securities market, which is vital to the conduct of monetary policy and the funding of the federal debt. Consequently, the Board has exempted daylight overdrafts resulting from the transfer of such securities from these restrictions. Instead, the Board is seeking comment on a proposal to reduce risks associated with transfers of book-entry securities that would require institutions to choose between treating book-entry related overdrafts the same as funds overdrafts or pledging collateral to secure book-entry overdrafts. (2) Automated Clearing Houses (R-0515B). The Board has previously regarded automated clearing house (ACHs) as (cont)

The Board did not consider risks associated with the many net settlement services offered by the Federal Reserve (ATM, POS, check, and credit cards). The Board has determined to consider these risks, and requested comment on various aspects of these services and the risks they entail, to aid it in its study. It is not expected that these proposals, if adopted, would have a significant economic impact on a substantial number of small entities, because small entities do not usually participate in large-dollar wire transfer systems. Legal Authority: 15 USC 78g Securities Exchange Act of 1934, as amended; 15 USC 78w Securities Exchange Act of 1934, as amended

CFR Citation: 12 CFR 207

Abstract: In March 1985, the Board proposed for public comment, an amendment to Regulation G that would provide an exemption for lenders subject to that regulation who make loans to qualified employee stock ownership plans (ESOPs) (50 FR 10972, March 19, 1985). At the same time the Board asked for comment as to whether Regulation T should also be amended to provide a comparable exception for brokers and dealers. In June 1985, the Board adopted amendments to regulations G and T after receiving favorable comments on the proposals (50 FR 26354, June 19, 1985). The effect of those amendments is to permit the lending to ESOPs on a "good faith" basis instead of under the usual margin requirements. As adopted by the Board, these exemptions parallel one already provided to lenders subject to Regulation U (Credit by Banks for the Purpose of Purchasing or Carrying Margin Stocks). It is not anticipated that the amendments will have a substantial impact on a significant number of small firms.

Legal Authority: 12 USC 601 to 604a; 12 USC 611 et seq; 12 USC 1841 et seq

CFR Citation: 12 CFR 211

Abstract: In August 1985, the Board adopted final revisions (Federal Register cite unavailable) to its Regulation K governing the international operations of U.S. banking organizations. The revisions had been proposed for comment in June 1984. The review and revision of the regulation were undertaken pursuant to a provision of the International Banking Act of 1978 which requires a review every five years of the rule governing Edge Corporations.

In order to improve the competitive position of Edge Corporations, the Board adopted one of the several alternatives that were proposed to enable Edge Corporations to provide a broader range of banking services than is currently permitted. The revision permits an Edge Corporation to lend for any purpose to a company that by its charter or license must engage only in international business. The Board also left this proposal open for comment with respect to a procedure permitting certification of other companies to which an Edge may lend for any purpose. Other major revisions include an increase in the Edge Corporation lending limit; relaxation of the limits on investments in (cont)

Legal Authority: 15 USC 78g Securities Exchange Act of 1934, as amended; 15 USC 78w Securities Exchange Act of 1934, as amended

CFR Citation: 12 CFR 220

Abstract: In June 1985, the Board adopted an amendment to Regulation T that would set the initial margin requirement for the writing of options on equity securities at the same level as the maintenance margin that is required by the national securities exchange or association and that has been approved by the Securities and Exchange Commission (50 FR 26355, June 26, 1985). This would replace the margin requirement for these instruments set at 30 percent of the value of the underlying securities plus any unrealized loss or minus any unrealized gain. When effective, the new margin for writing options on equity securities will be similar to that of the writing of other options; that is, the initial margin will be identical to that of the Securities and Exchange Commission approved maintenance margin. It is not anticipated that this amendment will have a significant impact on a substantial number of small firms. The amendment consolidates existing provisions into a single rule and adds a provision to cover options not effected on exchange or association facilities.

CFR Citation: 12 CFR 208.13; 12 CFR 225, Appendix A; 12 CFR 263.35

Abstract: In April 1985, the Board adopted amended Capital Adequacy Guidelines for bank holding companies and State member banks as well as a regulation embodying procedures to enforce these Guidelines (50 FR 16057, April 24, 1985). The amended Guidelines were adopted pursuant to the International Lending Supervision Act of 1983, which requires that the Board "cause banking institutions to achieve and maintain adequate capital." The Guidelines establish uniform minimum capital levels for all federally regulated banks (in conjunction with the Federal Deposit Insurance Corporation and the Comptroller of the Currency). The Guidelines also raise the minimum capital requirements for larger regional and multinational state member banks and bank holding companies, and establish a uniform minimum capital level for large and small banks and bank holding companies. The impact on small institutions is a slight easing of minimum primary capital requirements.

3840. REGULATION: AA - UNFAIR OR DECEPTIVE ACTS OR PRACTICES (DOCKET NUMBER: R-0006)

Legal Authority: 15 USC 57a Federal Trade Commission Act

CFR Citation: 12 CFR 227

Abstract: The Federal Trade Commission (FTC) Act requires that whenever the FTC enacts a rule covering unfair or deceptive acts or practices, the Federal Reserve Board must, within 60 days of the rule's effective date, promulgate a substantially similar rule governing banks. The Board may decline to issue such a rule only if the Board determines that such acts or practices of banks are not unfair or deceptive or that implementation of the rule with respect to banks would seriously conflict with essential monetary and payment systems policies of the Board.

In March 1984, the FTC published a trade regulation rule known as the Credit Practices Rule (49 FR 7740, March 1, 1984), which prohibits certain provisions that sometimes appear in consumer credit contracts to aid in the collection of unpaid debts. It also imposed certain specific disclosure and contractual requirements on creditors. The rule went into effect on March 1, 1985, and applies only to non-financial institution creditors.

When the FTC first published the proposed Credit Practices Rule in 1975, the Board published a substantially similar (cont)

In November 1984, the Board published for comment a proposal substantially similar to the FTC's final Credit Practices Rule and requested comment on whether the FTC's rule should apply to banks. In April 1985, the Board adopted a final rule with an effective date of January 1, 1986 (50 FR 16695, April 22, 1985). Under the rule, commercial bank lenders including small banks, may incur some one-time costs in preparing and revising forms, and in changing certain procedures to comply with the rule.

3841. REGULATION: AA - UNFAIR OR DECEPTIVE ACTS OR PRACTICES

Legal Authority: 15 USC 57a Federal Trade Commission Act

CFR Citation: 12 CFR 227

Abstract: In November 1984, the Federal Trade Commission (FTC) published a final trade regulation rule on the sale of used motor vehicles, known as the "Used Car Rule," (49 FR 45692 November 29, 1984), effective May 9, 1985. In adopting the Used Car Rule, the FTC specifically excluded banks and other financial institutions from the rule's "dealer" definition. This conclusion was based upon the determination that banks do not engage in the sale of used motor vehicles in a retail sales environment, and, absent such an environment, the risk of the deceptive practices found to be characteristic of used car sales presentations was substantially diminished.

Generally, the Board is required by the Federal Trade Commission Act to issue a substantially similar rule for banks whenever the Commission adopts a final trade regulation rule under its authority to prohibit unfair or deceptive acts or practices. The Board has concluded, however, that since banks do not engage in the activity being regulated by the Commission -- the sale of used motor vehicles in a retail sales environment -- it is unnecessary to adopt a rule substantially similar to (cont)

3842. REGULATION: EQUAL EMPLOYMENT OPPORTUNITY (DOCKET NUMBER: R-0527)

Legal Authority: 12 USC 244 Federal Reserve Act, Sec 10(4)

CFR Citation: 12 CFR 268

Abstract: In August 1984, the Board issued for public comment proposals to revise and expand its Equal Employment Opportunity regulation for the following purposes: (1) to conform the regulation insofar as possible to existing regulations of the Equal Employment Opportunity Commission governing the substantive rights of employees and applicants for employment with Federal agencies; (2) to designate clear responsibility for equal employment opportunity functions in light of changes in the Board's organizational structure; and (3) to prohibit discrimination against the handicapped in programs and activities conducted by the Board.

In April 1985, after reviewing and considering all public comments, the Board adopted a revised rule with an effective date of June 1, 1985 (50 FR 18767, May 2, 1985). This proposal will not have a significant economic impact on a substantial number of small entities since it focuses primarily on Board personnel and management policies and practices.

3843. POLICY STATEMENT ON RISKS ON LARGE-DOLLAR TRANSFER SYSTEMS (DOCKET NUMBER: R-0515)

Legal Authority: 12 USC 221 et seq

CFR Citation: 00 CFR None

Abstract: In April 1984, the Board requested public comment on several proposals to reduce risks on large-dollar wire transfer systems (49 FR 13186, April 3, 1984). The Board took this action in response to its concern that developments that might arise in connection with such networks could destabilize financial markets and the economy. In May 1985, after reviewing the comments, the Board took the following actions: (1) effective March 27, 1986, no large-dollar payment network will be eligible for Federal Reserve net settlement services unless it (a) requires each participant to establish a limit on the net value of transfers that it will receive from each other participant; (b) establishes a limit on the net debit position of each participant that is reasonably designed to reduce risks to other participants on that network; (c) develops and implements a system that will reject any payment that would reach either such limit; and (d) agrees to provide transaction data to its Reserve Bank on request. (2) The Board also strongly encouraged each institution running daylight overdrafts on Fedwire or participating on a private large-dollar network to adopt voluntarily by December 31, 1985, a (cont)

In addition to adopting a policy statement, the Board requested public comment on three additional proposals to reduce risk (see Entry 14).

Semiannual Regulatory Agenda

AGENCY: Federal Trade Commission.

ACTION: Semiannual regulatory agenda.

SUMMARY: The following agenda of Commission proceedings is published in accordance with section 22(d)(1) of the Federal Trade Commission Act, 15 U.S.C. 57b-3(d)(1), section 610(c) of the Regulatory Flexibility Act, 5 U.S.C. 610(c). Each projected event reflects the FTC staff's assessment of events that it expects will occur in the listed proceedings during the coming year. No Commission determination on the need for or the substance of a trade regulation rule or any other procedural option should be inferred from the projected events included in this agenda.

Several agenda items concern proceedings that may affect a substantial number of small businesses as that term is used in the Regulatory Flexibility Act. Whether any such proceeding will result in a rule which is likely to have a significant economic impact on such entities depends upon final Commission determinations on the need for or on the substance of a trade regulation rule.

Except for notice of completed actions, the information in this agenda represents judgments of the FTC staff, based upon information now available. These views should not be regarded as a final staff position, nor should they be attributed to the Commission itself. The Commission will address the issues presented on the rulemaking record in the final consideration of each proceeding.

Agenda items include the projected timing of any future Commission action. In most instances the dates of future events are listed by month, not a specific day. Discovery of new information, changes in circumstances, or in the law may alter the information set forth in this agenda.

FOR FURTHER INFORMATION CONTACT: Further details may be obtained from the agency contact responsible for a particular proceeding as listed in the agenda.

By direction of the Commission.

Benjamin I. Berman,

Acting Secretary.

Legal Authority: 15 USC 45 Federal Trade Commission Act; 15 USC 57(a) Federal Trade Commission Act

CFR Citation: 16 CFR 456, (Revision)

Abstract: The staff of the FTC's Bureau of Consumer Protection has identified several state and private restrictions on the delivery of eye care goods and services which may decrease consumer access to vision care services, increase the cost of those services, and impede the growth of alternative methods of organizing eye-care practices. The principal question the Commission is exploring is the impact of such restrictions on the price, quality and availability of vision care. The Commission's investigation has sought, through the development of empirical market research, to determine whether higher prices result from these restrictions and, if so, whether offsetting consumer benefits also result. The primary impact of a rule on small businesses could stem from the increased competition in the vision care industry which can be anticipated as a result of deregulatory effect of the rule. Rule provisions removing certain restraints on commercial ophthalmic practice could enhance competition by permitting small entities (i.e., optometrists and opticians) to engage in alternate modes of practice; or to expand, should they desire to do so. The affirmative requirements of a rule could impose additional (cont)

The alternatives to an FTC trade regulation rule include: a formal complaint against a professional association or an ophthalmic board alleged to have engaged in illegal acts or practices; a voluntary guide defining unfair acts or practices; legislative recommendations to Congress or to the States; or the release of a public report setting forth the findings of the staff. The Commission is postponing the Regulatory Flexibility Act review of the existing Advertising of Ophthalmic Goods and Services Trade Regulation Rule (Eyeglasses Rule) because that Rule will be modified by the current rulemaking. The Eyeglasses Rule requires eye doctors to furnish copies of spectacle prescriptions to consumers after eye examinations. The advertising portions of the Eyeglasses Rule are not in effect, pursuant to the decision in American Optometric Association v. FTC, 626 F. 2d 896 (D.C. Cir. 1980).The court in that case remanded the Eyeglasses Rule's advertising provisions for further consideration in light of the Supreme Court decision in Bates v. 3845. HEALTH SPAS

Legal Authority: 15 USC 45 Federal Trade Commission Act; 15 USC 57(a) Federal Trade Commission Act

CFR Citation: 16 CFR 443, (New)

Abstract: The rule proposed at the outset of this proceeding would require that health spa membership contracts provide consumers with a right to cancel and receive a full refund during a three-day cooling-off period. If a seller's facilities are not yet fully operational, the consumer would have ten days to cancel after notice that the spa facilities are fully operational. After this period, the consumer would have a right to cancel by paying up to a 5 percent cancellation fee plus a pro-rated portion of the contract price. Other provisions of the proposed rule would prescribe the form of the cancellation notices, limit contracts to two years, and prohibit the receipt of more than 5 percent of the contract price from consumers if a spa is not fully operational and available for use at the time the contract is signed. All industry members would incur costs for printing new contracts in order to comply with the proposed rule. Membership cancellations attributable to the requirements of the proposed rule would adversely affect the cash flow of health spas. Consumers would benefit from the proposed rule's unlimited cancellation rights to the extent they are not currently (cont)

3846. AMENDMENT TO TRADE REGULATION RULE CONCERNING PRESERVATION OF CONSUMERS CLAIMS AND DEFENSES ("HOLDER-IN-DUE COURSE RULE")

Legal Authority: 15 USC 45 Federal Trade Commission Act; 15 USC 57(a) Federal Trade Commission Act

CFR Citation: 16 CFR 433

Abstract: The objective of the proposed amendment is to ensure that a purchaser's duty to pay is not separated from sellers' duty to perform when consumer sales are financed by third party creditors or purchase money lenders. The original rule requires sellers to ensure that credit contracts used in consumer installment sales and purchase money loans contain a provision that makes any holder of the contract subject to all legal claims and defenses related to the sale transaction which the buyer may have against the seller. The proposed amendment would extend to creditors the obligation to ensure that credit contracts contain the required provision. Benefits from the proposed amendments may include improvement in the retail market due to increased scrutiny by creditors of the sellers with whom they do business and availability to consumers of additional claims and defenses against creditors. Some creditors may have increased costs associated with screening contracts and monitoring the reputations of retailers with whom they deal. CFR Citation: 16 CFR 460.10; 16 CFR 460.18; 16 CFR 460.19; 16 CFR 460, Appendix B

Abstract: The Commission's home insulation trade regulation rule became effective on September 29, 1980. Among other things, it requires advertisers to disclose specific additional information in advertisements or other promotional materials when they make energy savings claims about an insulation product or refer to the product's thickness, R-Value or price. The Commission temporarily stayed the effective date of those disclosure requirements as they applied to television ads pending completion of these amendment proceedings. The Commission has announced its intention to reopen the rulemaking proceeding to consider whether it should amend the rule's disclosure requirements insofar as they apply to television advertising. (ANPR, 46 FR 47236, Sept. 25, 1981.) The TV ad disclosure requirements in the rule benefit consumers by ensuring that they have an opportunity to understand and evaluate claims that may otherwise lead to misguided purchasing decisions. The major cost to consumers is the possible displacement of other valuable information in advertisements by the required disclosures. The major cost to industry members is the (cont)

Legal Authority: 15 USC 45 Federal Trade Commission Act; 15 USC 47(a) Federal Trade Commission Act

CFR Citation: 16 CFR 441, (New)

Abstract: Almost all mobile homes are sold with a manufacturer's warranty but many buyers may not receive adequate and timely service under the warranty. The rule would address possibly inadequate performance of mobile home warranties through a number of possible remedies: setting specific service deadlines, prohibiting exclusion of set-up and transportation from warranty coverage, requiring written service agreements between warrantors and their service agents, and requiring maintenance of service records. Compliance costs estimated by staff will be approximately $145 per home for most firms affected, and could be less, depending on what provisions are actually adopted. An estimated 20% of buyers would benefit by saving about $242 for warranty repairs they would otherwise not get; another 15% of buyers would have service time cut by an estimated 4 months. The incidence of warranted defects could be reduced, increasing the useful life of homes. Buyers could also receive better financing terms due to lowering the incidence of defects that diminish resale value. Consumers might benefit from better information, if warranties accurately reflected what service is included (cont)

The proposed rule will have an impact on 200 mobile home manufacturers and 12,000 mobile home dealers, most of which are small businesses. There are alternatives to rule provisions. Instead of specific time deadlines for warranty repairs, manufacturers and dealers could set their own deadlines as long as they are disclosed in their warranties; instead of requiring manufacturers to disseminate consumer questionnaires, to monitor effectiveness of factory and dealer warranty repairs, manufacturers could select their own monitoring devices; some responsibilities and duties of the manufacturers may not be needed (e.g., pre-occupancy inspection, set-up and transportation damage).

Legal Authority: 15 USC 45 Federal Trade Commission Act; 15 USC 57(a) Federal Trade Commission Act

CFR Citation: 16 CFR 438, (New)

Abstract: In 1979, the Second Circuit Court of Appeals set aside the rule as originally issued by the Commission, citing problems with some of the remedies that the rule provided to purchasers of proprietary vocational training. The Staff has prepared recommendations as to how the Commission should respond to the Court's decision. Alternatives under consideration include a rule that would give schools the option of providing either a strict pro rata refund remedy or a track record disclosure, a rule requiring some refunds but not on a strict pro rata basis, and a rule with no refund requirements at all. Alternatives to rulemaking include case-by-case enforcement, and FTC intervention before other state and federal agencies having jurisdiction over vocational schools to prevent deceptive practices. The rule may benefit consumers by enabling them to avoid expenditures on inappropriate courses and increasing the effectiveness of the vocational school industry in training and placing people in productive jobs. The cooling-off, track record disclosures, and refund components of the rule variations under consideration would impose real social costs on schools covered (cont)

The rule should be most costly to schools that use unfair or deceptive practices to induce students to enroll in their courses. Schools that do not use these practices may not incur significant cost increases. The rule seeks to deter deceptive sales practices by requiring schools to provide material

3850. NEGATIVE OPTION RULE

Legal Authority: 15 USC 41 Federal Trade Commission Act

CFR Citation: 16 CFR 425

Abstract: The Trade Regulation Rule concerning negative option plans was promulgated on February 15, 1973. The rule imposes specific requirements concerning procedures that must be followed in the operation of negative option methods of merchandising. The rule requires that all covered advertisements clearly disclose the material terms of the plan; that the subscriber be given a minimum of 10 days in which to instruct the seller not to mail a selection; and that the seller must give full credit, and guarantee return postage, for merchandise returned by subscribers who were not obligated to receive it. The rule is designed to address a number of significant consumer problems described in the record of the rulemaking proceeding, including denying subscribers sufficient time to respond to the negative option cards sent under these plans, thereby denying subscribers the opportunity to make an informed decision; delivering unordered merchandise without prior consent of subscribers; and placing the burden and expense of correcting "errors" on the subscriber.

Legal Authority: 15 USC 41 et seq. Federal Trade Commision Act

CFR Citation: 16 CFR 423

Abstract: The Trade Regulation Rule concerning care labeling of textile wearing apparel and certain piece goods used to make wearing apparel was promulgated on December 16, 1971. The rule requires manufacturers and importers to provide labels for covered items which disclose information for cleaning and care of the product. The rule is intended to assist consumers in making informed purchase decisions concerning the care characteristics of competing products and to enable consumers and cleaners to avoid product damage caused by the use of improper cleaning procedures. The rule was amended on May 20, 1981. The amendments require a more complete statement of the same procedures and establish a standard for the accuracy of each care procedure on a label. The amendments also provide a glossary of standardized care terminology that can be used. With the clarification of the rule's requirements provided by the amendments, manufacturers and importers will be able to minimize inadvertent violations and avoid unnecessary compliance costs.

Legal Authority: 15 USC 2302(b)(1)(A); 15 USC 2309(a) Magnuson-Moss Warranty--FTC Improvements Act

CFR Citation: 16 CFR 702

Abstract: The Magnuson-Moss Warranty Act (15 U.S.C. 2302(b)(1)(A)) requires that the Federal Trade Commission promulgate a rule to require that the terms of written warranties for consumer products be made available to consumers prior to purchase. The Rule modifications currently being considered are intended to achieve the Congressional objective more effectively by making the Rule requirements more flexible and thus lessening the costs and burdens of compliance while still ensuring consumers access to warranties prior to purchase. The current Pre-Sale Availability Rule requires that retailers of consumer products costing more than $15 make warranty texts available to consumers prior to purchase by placing the warranty text in one or a combination of four specified locations; (1) on the product, (2) in a binder, (3) on the package, or (4) on a sign. Manufacturers are required to provide materials sufficient for retailers to meet

their obligations. The Rule modifications currently under consideration would reduce retailers' obligations by requiring only that warranties accompany the product or be made readily available on request prior to sale. Changes in the Rule could (cont)

3853. RETAIL FOOD STORE ADVERTISING AND MARKETING PRACTICES

Legal Authority: 15 USC 41 et seq Federal Trade Commission Act

CFR Citation: 16 CFR 424

Abstract: The Commission's Rule on Retail Food Store Advertising and Marketing Practices states that it is a violation of Section 5 of the Federal Trade Commission Act for grocery stores to advertise products at a particular price unless such products are in stock and conspicuously and readily available for sale at the advertised price during the effective period of the advertisement. If a store runs out of advertised products, it is in violation of the rule even if the store noted the limitations on availability in its advertisement and even if the store provides rainchecks or substitute items. The rule is intended to benefit consumers by ensuring that advertised items are available, that advertising-induced purchasing trips are not fruitless, and that store prices accurately reflect the prices appearing in the ads. The rule may cause costs to be incurred in maintaining sufficient inventory to meet anticipated demand, and costs associated with the monitoring of price changes, changing marked prices, training employees to comply with the rule and keeping records to prove compliance. Additional Information: ABSTRACT CONT: The rule may also discourage the advertising of certain kinds of products, such as perishables or goods that are available to the store only in limited supply. The staff has concluded from a careful review of the rule's effects that the costs the rule imposes on consumers in the form of higher grocery prices significantly exceeds its benefits. Consequently, staff has recommended that the rule be modified in such a way that a store could comply with the rule by clearly and adequately disclosing in its advertisements that there are limitations on availability, or by offering rainchecks or substitute items if supplies run out. Staff has concluded that modifying the rule in this way will maintain any benefits it provides to consumers while substantially reducing or eliminating its costs. The Commission has authorized publication of a Notice of Proposed Rulemaking to begin the amendment process.

3854. COOLING-OFF PERIOD FOR DOOR-TO-DOOR SALES

Legal Authority: 15 USC 41 et seq Federal Trade Commission Act

CFR Citation: 16 CFR 429

Abstract: The rule states that sellers of consumer goods or services with a purchase price of $25.00 or more who sell away from their place of business must furnish to the buyer certain information regarding the buyer's right to cancel sales within three business days and must give the buyer a full refund of any down payment upon the buyer's cancellation. The rule requires a seller to furnish the buyer with a complete receipt or copy of a contract, along with a notice informing the buyer of the right to cancel the transaction, to furnish the buyer with a completed Notice of Cancellation. The rule is intended to benefit consumers by permitting them to reflect on their purchase and the terms of any contract, to compare the purchase with offerings of other sellers, and to ascertain the accuracy of any representations made. The resulting costs to sellers include the costs associated with cancellation (processing cancelled orders, returning downpayments, retrieving delivered goods, and returning traded-in merchandise) and the additional cost of printing the required cancellation notices. Legal Authority: 15 USC 41 et seq Federal Trade Commission Act

CFR Citation: 16 CFR 435

Abstract: The Commission's rule concerning mail order merchandise was promulgated on October 22, 1975. The rule requires mail order sellers to possess a reasonable basis for any claims made concerning shipping date or, in the absence of any specifically stated date, to ship the ordered merchandise within thirty (30) days of receipt of an order. In the event of delays in shipment, the rule establishes notification procedures whereby buyers have the option either to agree to the delay or to cancel the order and receive a prompt refund. The Commission's rule is designed to address a number of significant consumer problems described on the record of the rulemaking proceeding, including failure to deliver ordered merchandise, unexplained delays in delivery, failure to make prompt (or any) refunds upon cancellation of an order, and inability to obtain responses to inquiries about pending orders. The rule enables consumers to obtain ordered merchandise within a reasonable time period or, if delays occur, to cancel the order and obtain a prompt refund, so that losses due to undelivered merchandise, delays, and inadequate or nonexistent refunds can be avoided. 3856. REVIEW OF THE PREMERGER NOTIFICATION RULES AND REPORT FORM

Significance: Agency Priority

Legal Authority: 15 USC 18a Clayton Act

CFR Citation: 16 CFR 801; 16 CFR 802; 16 CFR 803; 16 CFR 803, Appendix

Abstract: The Premerger Notification Rules and the Antitrust Improvements Act Notification and Report Form were adopted pursuant to Section 7A of the Clayton Act. Section 7A requires firms of a certain size contemplating mergers or acquisitions of a specified size to file notification with the Federal Trade Commission (FTC) and the Department of Justice (DOJ) and to wait a designated period before consummating the transaction. It also requires the FTC, with the concurrence of the Assistant Attorney General for Antitrust, to promulgate rules requiring that notification be in a form and contain information necessary to enable the FTC and DOJ to determine whether the proposed acquisition may, if consummated, violate the antitrust laws. Review of these rules and the Form focuses on reducing the paperwork burden imposed on the business community. On July 29, 1981, the Commission proposed several changes in the current premerger rules (46 Fed. Reg. 38710). These proposed changes, with some modification, were adopted in July 1983. On July 2, 1982, the Commission requested comments on several approaches to reduce further the burden imposed by the premerger rules and the Form. (cont)

Additional Information: SMALL ENTITY CONT: The Premerger Notification Rules do not affect nonbusiness entities or small businesses. A firm must have sales or assets of at least $10 million to be subject to any reporting obligation. Moreover, any transaction is exempt under the rules if it is valued at less than $15 million and will not result in the acquiring person's holding 50% of the voting securities of a corporation with sales or assets of $25 million or more.

ABSTRACT CONT: On September 24, 1985 the Commission proposed amendments to the Premerger rules that pertain for the most part to the burden reduction initiative and that affect the scope of the reporting requirement. In October, 1985, the staff submitted to the Commission a recommendation to promulgate a final rule amendment requiring persons filing notification to submit revenue data for 1982 rather than 1977 in response to certain questions on the Form relating to product lines.

Legal Authority: 15 USC 45 Federal Trade Commission Act; 15 USC 57(a) Federal Trade Commission Act

CFR Citation: 16 CFR 419.1

Abstract: The Commission's trade regulation rule concerning games of chance became effective on October 17, 1969. The rule establishes requirements for food and gasoline retailers in conducting and advertising games of chance by requiring disclosure of odds-of-winning and prize information in broadcast and print advertisements, as well as in point of sale information. During January, 1983, the Commission granted a temporary partial exemption to allow supermarkets and gas stations to advertise their games on radio and television without disclosing full information on prizes and odds-of-winning. In addition, the Commission also published an advance notice of proposed rulemaking on whether to make the broadcast exemption permanent. Finally, the Commission has proposed to reduce the recordkeeping requirements of the rule from three years to one year in keeping with the goals of the Paperwork Reduction Act, and requests public comment on other possible areas where amendments to the rule may be appropriate. The rule benefits consumers by allowing contestants to enter games of chance with full knowledge of all material information to enable equal competition for (cont)

Legal Authority: 15 USC 41 et seq Federal Trade Commission Act

CFR Citation: 16 CFR 436

Abstract: The franchise trade regulation rule was adopted in response to evidence of deceptive and unfair practices in connection with the sale of the types of businesses covered by the rule. In some instances prospective franchisees lack a ready means of obtaining essential and reliable information about their proposed business investment. This lack of information reduces the ability of prospective franchisees either to make an informed investment decision or otherwise verify the representations of the business' salespersons. The rule attempts to deal with these problems by requiring franchisors and franchise brokers to furnish prospective franchisees with information about the franchisor, the franchise business and the terms of the franchise agreement. Franchisors and franchise brokers must furnish additional information if they have made any claim about actual or potential earnings, either to the prospective franchisee or in the media. All disclosures must be made (i) before any sale is made and (ii) by means of disclosure documents whose form and content are set forth in the rule. The rule requires disclosure of (cont)

Legal Authority: 42 USC 6294 National Energy Conservation Policy Act; PL 94-163 Energy Policy and Conservation Act, Sec 324, 1975

CFR Citation: 16 CFR 305

Abstract: The Energy Policy and Conservation Act (EPCA) required the Commission to consider labeling rules for the disclosure of energy information, based on standard test procedures prescribed by the Department of Energy, for at least 13 categories of major household appliances. The Commission adopted a labeling rule for seven appliance categories: (1) refrigerators and refrigerator- freezers; (2) freezers; (3) dishwashers; (4) clothes washers; (5) water heaters; (6) room air conditioners; and (7) furnaces. The Commission exempted five other categories of appliances. Following DOE's adoption of final test procedures for central air conditioners (and heat pumps), the Commission initiated a rulemaking to consider including these products. The Commission is also considering including two new types of furnaces in the rule's current coverage of furnaces.

The rule mandates that specific energy costs or efficiency information for covered products be disclosed in catalogs and on a label (fact sheets are required for furnaces). The label must include a highlighted energy cost or efficiency disclosure, a range indicating the highest and lowest energy costs or (cont)

The primary purpose of the rule is to permit consumers to compare the energy usage of competing appliances and to weigh that information along with other product features.

Since the Commission's rule implements the statutory directives in EPCA, most of the costs imposed on industry members may not be attributable to the rule. The rule applies mainly to manufacturers of household appliances, but does impose some burdens on distributors and retailers. Some of these entities may be small businesses pursuant to Section 610 of the Regulatory Flexibility Act; therefore, the Commission has begun a review of the rule to determine whether the rule has had a significant economic impact on a substantial number of small entities and, if so, whether the rule should be amended.

Legal Authority: 15 USC 2309; 15 USC 2310(a)(2) Magnuson-Moss Warranty--FTC Improvements Act

CFR Citation: 16 CFR 703

Abstract: The Magnuson-Moss Warranty act, enacted on January 4, 1975, requires that the Federal Trade Commission promulgate a rule prescribing the minimum requirements for any informal dispute settlement procedure which is incorporated into the terms of a written warranty subject to the Act. Because warrantors are not required to incorporate such procedures into warranties, the rule applies only to warrantors who voluntarily choose to do so. The present rule sets forth detailed procedural, recordkeeping, and reporting requirements for dispute settlement mechanisms designed to insure their fairness. In accordance with Section 610 of the Regulatory Flexibility Act, The Commission will begin a review of the rule during fiscal 1985 to examine whether the rule has had a significant economic impact on a substantial number of small entities and to assess whether any changes are needed. The review process will focus on whether changes in the rule would advance the Congressional objective of encouraging warrantors to establish informal dispute settlement mechanisms. Abstract: The Federal Trade Commission, in accordance with the Regulatory Flexibility Act and publication of a Plan for the Periodic Review of Commission Rules, 46 FR 35118 (July 7, 1981), is soliciting comments and data on whether the Octane Certification and Posting Rule, 16 CFR Part 306 ("the Rule"), has had a significant economic impact on small entities, and if it has, whether the Rule should be amended to minimize any such significant economic impact on small entities.

The Rule establishes standard procedures for determining, certifying and posting (by means of a label on the fuel dispenser) the octane rating of automotive gasoline intended for sale to consumers. In addition, the Rule contains recordkeeping requirements that require gasoline refiners and importers to retain octane rating test records and gasoline distributors and retailers to retain octane certification records pertaining to the gasoline they sell in commerce for one year.

Abstract: The proposed regulation would have afforded hearing aid purchasers a right to cancel the transaction within 30 days of purchase subject only to specified cancellation charges. Staff explored alternative rule proposals that would require hearing aid dispensers to disclose whether they offer a trial period or that would contain specific advertising prohibitions. In addition staff explored case by case enforcement and other alternatives to a Commission rule. If a trial period were required, the costs of the rule would be the dispenser's loss on the returned aid and the administrative expense of complying with the rule. This loss would be mitigated, among other things, by a cancellation fee and by the opportunity to re-sell the used aid. The benefit would be to protect consumers from deceptive and unfair sales practices, and from the risk that a hearing aid will not significantly enhance hearing. The Commission terminated the rulemaking without promulgating a rule, because the evidence on the record did not indicate that unfair or deceptive practices were sufficiently widespread to justify a rule or that the benefits of such a rule would outweigh its costs to (cont)

CFR Citation: 15 CFR 457, (New)

Abstract: Standards for products ranging from nuts and bolts to computers are set by trade associations, professional societies, testing laboratories, and other private sector groups. They are relied on by consumers, building code officials, government agencies, and others for regulatory and procurement purposes. These standards can provide significant benefits, such as lowering the cost of communications between buyers and sellers; improving the transfer of technology; encouraging efficiencies in design, production, and inventory; and assuring the safety, fitness, energy efficiency, or other aspects of product performance. However, substantial injury to competition and consumers can occur if standards or certification actions block the use of superior or lower cost technology, inflate product prices, or deceive consumers about the quality or safety of a product. In the proceeding, the Commission examined whether a rule, guide, or other enforcement action is needed to address these competitive and consumer injuries. The Commission, in its consideration of the need for a rule particularly addressed the impact on injurious practices of other events, such as promulgation (cont)

Additional Information: ABSTRACT CONT: of OMB Circular A-119 and recent court actions. The Commission has terminated the rulemaking without promulgating a rule. The Commission's decision was based on a determination that there is inadequate evidence to indicate that anticompetitive practices are sufficiently widespread to justify an industry-wide rule, particularly in light of recent changes in practices of standards developers in response to a Supreme Court decision holding a standards developer responsible for the anticompetitive practices of its members. Rather, the Commission intends to use case-by-case enforcement against specific instances

of abuse of the standards development or certification process.

3864. AMENDMENT TO THE RULES AND REGULATIONS UNDER THE WOOL PRODUCTS LABELING ACT OF 1939 AND THE TEXTILE FIBER PRODUCTS IDENTIFICATION ACT

Legal Authority: 15 USC 68b(d); 15 USC 70j

CFR Citation: 16 CFR 300; 16 CFR 303

Abstract: The Wool Products Labeling Act of 1939 requires all wool products to bear a label showing the percentage of wool, recycled wool, and non-wool fibers contained in the product and the name of the manufacturer or other distributor. The Textile Fiber Products Identification Act requires each household textile product to bear a label showing the percentage of each fiber contained in the product, the name of the manufacturer or distributor, and the country of origin if the product was manufactured principally in a foreign country. Each Act prohibits misbranding and false advertising of the fiber content of covered products and, in the case of textile products, requires that the appropriate generic name be used for all fibers. Each Act and accompanying rules are designed to protect producers and consumers from being deceived by misbranding and false advertising of covered products. Since the rules closely follow statutory requirements, most of the costs imposed on affected industry members may not be attributable to the rules. The rules apply to textile fiber product manufacturers and certain marketers some of which may be small businesses. (cont)

Additional Information: ABSTRACT CONT: On September 24, 1984 Congress amended these Acts. (Title III, Pub. Law 98-417). Effective December 24, 1984, the country of origin must be added to the information on the label, all products must be labeled, labels must be located in the neck of any garment having a neck, and mail order catalogues and other mail order promotional material must contain the disclosure for each covered product whether it was made in the U.S.A., imported, or both. Rule amendments implementing these requirements have been promulgated.

3865. LABELING AND ADVERTISING OF HOME INSULATION RULE

Legal Authority: 15 USC 45 Federal Trade Commission Act; 15 USC 57(a) Federal Trade Commission Act

CFR Citation: 16 CFR 460

Abstract: The Commission's home insulation trade regulation rule became effective on September 29, 1980. In summary, the major provisions of the rule: (1) prescribe standardized test methods for determining the R-values, or effectiveness, of home insulation materials; (2) mandate prepurchase point-of-sale disclosures of R-values and related information to consumers on labels and fact sheets; (3) require installers and new home sellers to disclose to consumers information about the insulation installed; (4) require disclosure of R-values or related information in advertisements which make specific claims about home insulation products; and (5) require substantiation and qualifying disclosures in advertisements which make energy savings claims about home insulation products. The rule is designed to enable consumers to evaluate and compare the thermal performance characteristics of these materials, and to ensure that promotional claims for home insulation products will be fair and nondeceptive. The disclosure requirements of the rule may benefit smaller manufacturers and other sellers, whose insulation products often compare favorably on an R-value basis with (cont)

Additional Information: ABSTRACT CONT: products produced by the dominant manufacturers in the industry. The resulting costs to covered sellers include the costs of conducting tests, preparing test reports, maintaining records, preparing labels and fact sheets, making disclosures in advertisements, and making disclosures in sales contracts or receipts given to consumers. Since the rule applies to all manufacturers, installers and other retail sellers of home insulation products, and to all retail new home and mobile home sellers, it may have a significant economic effect on a substantial number of small entities. To assess the possible impact of the rule on such small entities, the Commission conducted a review of the rule in accordance with Section 610 of the Regulatory Flexibility Act. Based on the comments received, the Commission determined that it had no basis to conclude that the rule had a significant impact on a substantial number of small entities. Accordingly, the Commission concluded that the rule should not be amended.

INTERSTATE COMMERCE COMMISSION

49 CFR Ch. X

[Ex Parte No. 420 (Sub-No. 9)]

Semiannual Regulatory Agenda

AGENCY: Interstate Commerce Commission.

ACTION: Notice of semiannual regulatory agenda to be part of a Unified Agenda of Federal Regulations.

SUMMARY: Pursuant to OMB Bulletin No. 85-21, issued under section 6(b) of E.O. 12291 to implement the provisions of section 5 of the Executive Order concerning Regulatory Agendas, the Commission is publishing an agenda of (1) current and projected rulemakings, and (2) existing regulations being reviewed to determine whether to propose modifications through rulemaking. Listed below are the regulatory actions to be developed or reviewed during the next 12 months. Following each rule identified is a brief description of the rule including its purpose and legal basis.

FOR FURTHER INFORMATION CONTACT: A contact person is identified for each of the rules listed below.

SUPPLEMENTARY INFORMATION: Two lists of proceedings appear below. The first contains information about subject areas in which the Commission is currently conducting rulemaking proceedings or may institute such proceedings in the near future. The second contains information about existing regulations being reviewed to determine whether to propose modifications through rulemaking.

The agenda identifies regulations likely to have a significant economic impact on a substantial number of "small entities." Accordingly, this information will satisfy the requirements of section 602 of the Regulatory Flexibility Act, 5 U.S.C. 602.

Finally, this agenda will comprise part of a Unified Agenda of Federal Regulations compiled by the Office of Management and Budget which is to be published in a single issue of the **Federal Register** in October 1985. The purpose of the Unified Agenda is to provide the public with more comprehensive documentation of the Federal government's current regulatory plans, and to provide a systematic means of monitoring regulatory activity in each agency.

This notice is issued pursuant to 49 U.S.C. 10321 and 5 U.S.C. 553.

Decided: August 20, 1985.

By the Commission, Chairman Taylor, Vice Chairman Gradison, Commissioners Sterrett, Andre, Simmons, Lamboley, and Strenio. Chairman Taylor was absent and did not participate.

James H. Bayne,

Secretary.

3885. RAIL GENERAL EXEMPTION AUTHORITY - MISCELLANEOUS PROCESSED AND MANUFACTURED COMMODITIES

Legal Authority: 49 USC 10505

CFR Citation: 49 CFR 1039

Abstract: 49 USC 10505 requires that the Commission exempt from regulation the movement by rail of traffic for which it finds continued regulation no longer necessary to serve the Nation's transportation policy objectives and to protect shippers from abuse of market power by the railroads. In examining the transportation characteristics and markets of various commodities moving by rail, there appear to be many products for which sufficient competition exists among transportation alternatives so that regulation may no longer be necessary. Exemption of such commodities should provide increased rate and service flexibility for railroads to meet shippers' needs and to compete more effectively for the subject traffic. Anticipated benefits include lower rates and improved service, at a possible "cost" of increased price instability and competition to alternative transport firms.

Legal Authority: 49 USC 11110

CFR Citation: 49 CFR 1056

Abstract: This proceeding involves a plenary review of the household goods regulations in which the Commission invites public comment and proposals which would minimize the regulatory burden on movers to the maximum extent consistent with the protection of individual shippers.

Legal Authority: 49 USC 10321; 49 USC 11144; 5 USC 552; 5 USC 553

CFR Citation: 49 CFR 1244.8

Abstract: The Commission, in recognition of the sensitivity of unaggregated waybill data and the potential for competitive harm to shippers and railroads, proposes to establish a policy for the release of waybill sample data. The policy will balance the need of the users of the data and assure that confidential carrier or shipper information is not disclosed. The policy will be added to 49 C.F.R. 1244 as Section 1244.8.

Significance: Agency Priority

Legal Authority: 49 USC 11142; 49 USC 11145

CFR Citation: 49 CFR 1206; 49 CFR 1249

Abstract: This rule would eliminate the Uniform System of Accounts and revise the periodic reporting requirements for Class I motor common and contract carriers of passengers. The Commission believes these provisions are no longer necessary for Commission oversight of the ratemaking process. The Commission is proposing a new condensed report, applicable only to Class I motor carriers of passengers, to replace the current comprehensive annual and quarterly report forms. These changes should significantly reduce the carriers' accounting and reporting costs and burden.

Significance: Agency Priority

Legal Authority: 49 USC 10321

CFR Citation: 49 CFR 1201

Abstract: This rule would modify the accounting rules for recognizing the costs of dismantling, removing and retiring depreciable assets. The objective is to assure that all operating expenses associated with long term depreciable assets are recognized and written off during the useful lives of the assets. The proposal would require the separate maintenance of three components: (1) the usual write-off of the cost of the asset, (2) the write-off of the estimated cost of removing the asset from service, (3) the recognition of

the estimated salvage value of the asset when removed from service.

Significance: Agency Priority

Legal Authority: 49 USC 10321; 49 USC 10311

Abstract: The Commission instituted this proceeding to (1) gather information from carriers and shippers regarding the problems and benefits arising from the implementation of recent legislation, particularly the Staggers Rail Act of 1980, and (2) provide a forum for direct discussion among these affected parties. The Commission hopes that this conference will lead to a more complete understanding of the changes that have occurred in rail transportation as a result of such legislation, and its implementation, and that it will assist the parties in resolving any problems that may exist.

Semiannual Regulatory Agenda

NCUA

NATIONAL CREDIT UNION ADMINISTRATION

12 CFR Ch. VII

Semiannual Agenda of Regulations

AGENCY: National Credit Union Administration (NCUA).

ACTION: Semiannual agenda of regulations.

SUMMARY: Pursuant to its ongoing policy of reviewing regulations, NCUA is publishing a list of current and projected rulemaking, reviews of existing regulations, and completed actions as of August 23, 1985. NCUA is also including this Agenda in the "Unified Agenda of Federal Regulations."

DATE: This information is current as of August 23, 1985.

ADDRESS: National Credit Union Administration, 1776 G Street, N.W., Washington, D.C. 20456.

FOR FURTHER INFORMATION CONTACT: On a particular regulation, contact the person named in the listing for that regulation at the above address.

SUPPLEMENTARY INFORMATION: The purpose of this Agenda is to enable the credit union community and the public to track regulatory development and review at NCUA and to enable interested parties to more effectively participate in that process. The Agenda is divided into three parts describing, respectively, (1) current rulemaking proceedings and regulatory reviews, (2) projected rulemaking and reviews and (3) actions completed since the last Agenda.

The Agenda is published pursuant to the Regulatory Flexibility Act (5 U.S.C. 601, *et seq.*) and NCUA's statement of policy concerning development and review of regulations (IRPS 81-4, 46 FR 2948).

NCUA will voluntarily include this Agenda in the Office of Management and Budget's next publication of its "Unified Agenda of Federal Regulations." The NCUA Board believes that participation in this joint publication will further the public interest by including NCUA in a single source of information concerning current and projected rulemaking and reviews of existing regulations.

Approved by the NCUA Board this 23rd day of August, 1985.

Rosemary Brady,

Secretary of the Board.

NUCLEAR REGULATORY COMMISSION

10 CFR Ch. I

Regulatory Agenda

AGENCY: Nuclear Regulatory Commission.

ACTION: Semiannual publication of NRC regulatory agenda.

SUMMARY: The Nuclear Regulatory Commission (NRC) is publishing its semiannual Regulatory Agenda in accordance with Pub. L. 96-354, "the Regulatory Flexibility Act," and Executive Order 12291, "Federal Regulations." The Agenda is a compilation of all rules on which the NRC has recently completed action or has proposed, or is considering action. This issuance updates any action occurring on rules since publication of the last semiannual Agenda on April 29, 1985 (50 FR 18154).

ADDRESSES: Comments on any rule in the Agenda may be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Branch. Comments may also be hand delivered to Room 1131, 1717 H Street, N.W., Washington, D.C. between 8:15 a.m. and 5:15 p.m. Comments received on rules for which the comment period has closed will be considered if it is practical to do so, but assurance of consideration cannot be given except as to comments received on or before the closure dates specified in the Agenda.

The Agenda and any comments received on any rule listed in the Agenda are available for public inspection, and copying at a cost of five cents per page, at the Nuclear Regulatory Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. 20555. Single copies of the NRC Quarterly Agenda can be purchased from the Superintendent of Documents, U.S. Government Printing Office, Post Office Box 37082, Washington, D.C. 20013-7082 at a cost of $6.00 each or $21.00 for an annual subscription. For further information on the substantive content of any rule listed in the Agenda, contact the individual listed under the heading "Agency Contact" for that rule.

SUPPLEMENTARY INFORMATION: Although publication of the Agenda is only required semiannually in April and October, the NRC has chosen to update and publish its Agenda each quarter. However, the information contained in this semiannual publication is updated to reflect any action which has occurred on rules since publication of the last NRC semiannual Agenda on April 29, 1985 (50 FR 18154).

Organization of the Agenda

Rules in this Agenda are divided into two main categories, "Action Completed Rules" and "Current and Projected Rulemakings." Rules in the "Action Completed" category include all rules which have been finally promulgated or withdrawn since publication of the last semiannual Agenda.

"Current and Projected Rulemakings" contain those rules currently under development. This category is subdivided into three sections. Section I includes all rules which have been published in the **Federal Register** as proposed rules. Section II includes all rules which have been published in the **Federal Register** as advance notices of proposed rulemaking. Section III includes all unpublished rules on which the NRC expects to take action.

Within each category and section, the rules are ordered from lowest to highest 10 CFR part, and when more than one rule appears under the same part, the rules are arranged within the part according to the date of most recent publication. If a rule contains changes to more than one 10 CFR part, the rule is listed under the lowest affected part.

The information in this Agenda has been updated through September 30, 1985. The date included under the heading "timetable," for next scheduled action indicates the date the rule is scheduled to be published in the **Federal Register.** The date is considered tentative and is not binding on the Commission or its staff. This Regulatory Agenda is intended to provide increased notice and opportunity for public participation in the NRC rulemaking process. The NRC may, however, consider or act on any rulemaking even if it is not included in the Regulatory Agenda.

Rulemakings Approved by the Executive Director for Operations (EDO)

The Executive Director for Operations (EDO) initiated a procedure for the review of the regulations being prepared by staff offices that report to him to ensure that staff resources were being allocated to achieve most effectively NRC's regulatory priorities. This procedure requires EDO approval before staff resources may be expended on the development of any new rulemaking. Furthermore, all existing rules must receive EDO approval prior to the commitment of additional resources.

Rules that have received EDO approval to date are identified by the symbol (+) at the beginning of the title. As additional rules receive EDO approval, they will be identified in subsequent editions of this Agenda. Those unpublished rules whose further development has been terminated will be noted in this edition of the Agenda and deleted from subsequent editions. Rules whose termination was directed subsequent to publication of a notice of proposed rulemaking will be removed from the Agenda after publication of a notice of withdrawal.

The NRC Agenda lists 104 rulemaking actions. Of these, no rulemaking items are considered to be priority or major as defined in section 1(b) of Executive Order 12291. In the "Action Completed" category there are 17 completed actions. In the "Current and Projected Rulemaking" category: section I contains 45 proposed rulemakings; section II contains 11 advance notices of proposed rulemakings and section III contains 31 unpublished rulemakings. Nine rules potentially will have a "significant economic impact on a substantial number of small entities" as defined in the Regulatory Flexibility Act.

Dated at Bethesda, Maryland this 26th day of August 1985.

NUCLEAR REGULATORY COMMISSION (NRC) — Current and Projected Rulemakings

PROPOSED RULES

3943. PROCEDURES INVOLVING THE EQUAL ACCESS TO JUSTICE ACT: IMPLEMENTATION

Legal Authority: 5 USC 504

CFR Citation: 10 CFR 1; 10 CFR 2

Abstract: The proposed rule provides new provisions intended to implement the Equal Access to Justice Act (EAJA). The provisions would provide for the payment of fees and expenses to certain eligible individuals and businesses that prevail in adjudications with the agency when the agency's position is determined not to have been substantially justified. The basis for these proposed regulations is a set of model rules issued by the Administrative Conference of the United States (ACUS) that have been modified to conform to NRC's established rules of practice. The proposed rule would further the EAJA's intent by insuring the development of government-wide "uniform" agency regulations and by providing NRC procedures and requirements for the filing and disposition of EAJA applications. A final draft rule was sent to the Commission in June 1982, but Commission action has been suspended pending a decision by the Comptroller General on the availability of funds to pay awards to intervenor parties. The decision from the Comptroller General has been rendered and is currently being analyzed.

More recently than the actions just discussed, however, (cont)

3944. LICENSING AND REGULATORY POLICY AND PROCEDURES FOR ENVIRONMENTAL PROTECTION; ALTERNATIVE SITE REVIEWS

Legal Authority: 42 USC 2201; 42 USC 4332; 42 USC 5841

CFR Citation: 10 CFR 2; 10 CFR 50; 10 CFR 51

Abstract: The proposed rule would focus on six major issues associated with alternative site selection for nuclear power plants; (1) information requirements, (2) timing, (3) region of interest, (4) selection of candidate sites, (5) comparison of the proposed sites with alternative sites, and (6) reopening of the alternative site decision. The proposed rule would provide procedures and performance criteria for reviewing alternative sites for nuclear power plants under the National Environmental Policy Act of 1969 (NEPA). The proposal is intended to stabilize alternative site review of a license application by codification of the lessons learned in past and recent review of nuclear power plant sites into an environmentally sensitive rule. The proposed rule would develop understandable written NRC review and decision making criteria to permit a rational and timely decision concerning the sufficiency of the alternative site analysis.

Alternatives to this rulemaking would include publishing a policy statement or regulatory guide or withdrawing the proposed rule. Each of these alternatives would be less efficient than completing the rulemaking. The provisions of the proposed (cont)

Confusion and controversy over this issue would be reduced. There would be no significant impact on costs other than savings that would result from greater certainty regarding the Commissions requirements. NRC resources necessary to complete this rulemaking are minimal. Approximately two-man months of staff time will be required to finalize this rule if the Commission decides to complete the rulemaking.

After considering the comments on the proposed rule, the Commission published a final rule on May 28, 1981 (46 FR 28630). That final rule addressed the sixth issue, reopening the construction permit or early site review stages insofar as it relates to operating license proceedings. Finalization of other portions of the proposed rule has been deferred until completion of a

comprehensive review of radionuclide source terms from reactor accidents.

3945. POSSIBLE AMENDMENTS TO "IMMEDIATE EFFECTIVENESS" RULES

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 2; 10 CFR 50

Abstract: The proposed rule indicates that the Commission is considering five alternative amendments to the "immediate effectiveness" rule for construction permit proceedings. Under the original "immediate effectiveness" rule (36 FR 828, January 19, 1971) construction of a nuclear power plant could begin on the basis of an initial decision by the Atomic Safety and Licensing Board (ASLB) even though that decision was subject to further review by the Commission. The Commission is concerned that the rule often prevented it from reviewing a case until construction was well underway and that this might have (1) allowed commitment of large sums of money to altering sites before a final decision was made on site-related issues and (2) promoted piecemeal review rather than promoting early resolution of all licensing issues to be considered. Present rules provide for limited review of ASLB decisions by the Atomic Safety and Licensing Appeal Board (ASLAB) and the Commission prior to issuance of construction permits.

This proposed rule would help to determine whether NRC should return to the former "immediate effectiveness" rule or adopt one of the following alternatives:(1) require the ASLAB (cont)

Additional Information: ABSTRACT CONT: to make a separate ruling on the question of effectiveness, or (2) require final ASLAB and Commission decisions on the merits of certain construction-related issues prior to authorizing issuances of the construction permit; (3) require final ASLAB and Commission decisions on the merits of all issues prior to authorizing issuances of the construction permit; and, return to the former "immediate effectiveness" rule, but relax the standards for obtaining a stay of the ASLAB decisions.

The public comment period on the "Regulatory Reform Proposal Concerning the Rules of Practice and Rules for Licensing of Production and Utilization Facilities" (49 FR 14698) closed June 11, 1984. As a result of staff evaluation of these comments and further staff review of the "immediate effectiveness" issues, a rule is being proposed that will supersede this proposed rule and another entitled, "Commission Review Procedures for Power Reactor Construction Permits; Immediate Effectiveness Rule."

3946. MODIFICATIONS TO THE NRC HEARING PROCESS (LIMITED INTERROGATORIES AND FACTUAL BASIS FOR CONTENTIONS)

Legal Authority: 42 USC 2239

CFR Citation: 10 CFR 2

Abstract: The proposed rule would expedite conduct of NRC adjudicatory proceedings by requiring intervenors in formal NRC hearings to set forth the facts on which contentions are based and the sources or documents used to establish those facts and limit the number of interrogatories that a party may file in an NRC proceeding. The proposed rule would expedite the hearing process by, among other things, requiring intervenors to set forth at the outset the facts upon which their contention is based and the supporting documentation to give other parties early notice of intervenor's case so as to afford opportunity for early dismissal of contentions where there is no factual dispute. Expediting the hearing process should ultimately provide cost savings to all participants in the process. The content of this rule is being considered as part of the regulatory reform rulemaking package.

3947. COMMISSION REVIEW PROCEDURES FOR POWER REACTOR CONSTRUCTION PERMITS; IMMEDIATE EFFECTIVENESS RULE

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 2

Abstract: The proposed rule would amend the immediate effectiveness rule with regard to rules of practice for granting a power reactor construction permit to conform to those for granting an operating license. It (1) would retain the requirement that the Commission conduct a limited review of an Atomic Safety and Licensing Board's decision to grant a construction permit pending completion of administrative appeals and (2) would delete the requirement that an Atomic Safety and Licensing Appeal Board conduct a similar review. The proposed rule would not affect the separate Appeal Board and Commission appellate reviews of the merits of Licensing Board decisions. It would reduce somewhat the time required for administrative review of construction permit decisions while retaining direct Commission oversight prior to permit issuance.

The comment period closed November 24, 1982. Nine comments were received. Half of the comments favored the proposed rule while half opposed it. This proposed rule does not preclude further action on five alternatives for amending the "Immediate effectiveness" rule presented in an earlier notice on (cont)

3948. HYBRID HEARING PROCEDURES FOR EXPANSIONS OF ONSITE SPENT FUEL STORAGE CAPACITY AT CIVILIAN NUCLEAR POWER REACTORS

Legal Authority: 42 USC 2201; 42 USC 2239

CFR Citation: 10 CFR 2; 10 CFR 72

Abstract: The proposed rule contains two options for implementing the hybrid hearing process in Section 134 of the Nuclear Waste Policy Act of 1982. That section sets forth a hybrid hearing process for certain contested proceedings on applications for a license or a license amendment to expand the spent nuclear fuel storage capacity at the site of a civilian nuclear power reactor. Either version of the proposed rule would provide for an oral argument in the early stage of the hearing process and would designate only genuine and substantial issues for resolution in an adjudicatory hearing. Option 1 would add a new Subpart K to Part 2. Subpart K would require the use of hybrid procedures in all proceedings to which section 134 applies. It would also change the initial stages of the existing hearing process by allowing a person whose interest is affected to participate as a party and to obtain discovery without the need to plead contentions. Option 2 would permit the use of hybrid procedures at the request of any party to the proceeding. It would be implemented by means of an alternative form of summary disposition under a new Sec. 2.749a. (cont)

Additional Information: ABSTRACT CONT: In all other respects, the existing Part 2 procedures would apply. The Commission sought comments on both proposals to aid in its choice of procedures for the final rule.

The hybrid hearing procedures are intended to simplify and expedite the licensing process for spent fuel storage facility expansions and transshipments. The proposed rule is needed to permit full realization of those statutory purposes. Because section 134 applies by its terms to applications filed after January 7, 1983, a final rule should be developed as soon as practicable. There are no alternatives to rulemaking that would meet the statutory objectives. The rule will simplify and expedite the hearing process resulting in less costly and shorter hearings for license applicants, intervenors, the NRC staff, and the Licensing Boards. Members of the public who seek to participate in NRC licensing proceedings will have an opportunity to request an oral argument but will be required to make a stronger showing of need in order to require that an adjudicatory hearing be held.

Legal Authority: 42 USC 2201; 42 USC 2231; 42 USC 2241; 42 USC 5841

CFR Citation: 10 CFR 2

Abstract: The Nuclear Regulatory Commission is considering amending its rules of practice to provide special procedures for resolving conflicts concerning the disclosure or nondisclosure of information relating to an NRC investigation or inspection or provided by a confidential source and deemed relevant and material to an adjudication. Prepared at the express direction of the Commission, the proposed amendments apply to all NRC offices that have information relevant and material to an adjudication. The proposed amendments provide for ex parte in camera presentations and follow guidance contained in the Commission's recent statement of policy on investigations, inspections, and adjudicatory proceedings.

3950. NONDISCRIMINATION ON BASIS OF AGE IN FEDERALLY ASSISTED COMMISSION PROGRAMS

Legal Authority: 42 USC 6101

CFR Citation: 10 CFR 4

Abstract: The proposed rule would implement the provisions of the Age Discrimination Act of 1975, as amended. The proposed amendment makes it unlawful for any recipient of Federal financial assistance to discriminate on the basis of age in programs or activities receiving Federal financial assistance from the NRC. The Act also contains certain exceptions that permit, under limited circumstances, continued use of age distinctions or factors other than age that may have a disproportionate effect on the basis of age. The Act applies to persons of all ages. The proposed rule is necessary to comply with the Age Discrimination Act of 1975, which directs that all Federal agencies empowered to provide Federal financial assistance issue rules, regulations, and directives consistent with standards and procedures established by the Secretary of Health and Human Services (HHS). NRC's proposed and final regulations have been modeled after those HHS guidelines as published in 45 CFR 90. (cont)

3951. PRODUCTION OR DISCLOSURE IN RESPONSE TO SUBPOENAS OR DEMANDS OF COURTS OR OTHER AUTHORITIES

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 9

Abstract: The proposed rule would add Subpart D to 10 CFR Part 9 to prescribe procedures with respect to the production of documents or disclosure of information in response to subpoenas or demands of courts or other judicial or quasi-judicial authorities in state and Federal proceedings. The proposed rule would clarify the procedures to be followed by Commission employees in responding to demands for testimony, information, or documents and would ensure that the responsibility for determining the response to the demands is placed on the appropriate Commission official. The rule will allow the Office of General Counsel more control over Commission information and documents subpoenaed in litigation to which the NRC is not a party. There is no alternative to rulemaking for this issue. This rule will require those who seek to use current or former NRC employees in their litigation to submit certain information to the NRC; however, the Commission has decided that this slight inconvenience is warranted in these circumstances. Because this rule is almost ready for publication, the NRC resources consumed in (cont)

3952. ● MINOR CLARIFYING AMENDMENTS

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 9

Abstract: The NRC is proposing to amend its regulations pertaining to the availability of records under the Freedom of Information Act to clarify and conform them to existing case law and to reflect long-standing agency practice. In addition, the NRC is proposing to amend its regulations to conform the reproduction costs for Privacy Act records to those currently charged at the NRC's Public Document Room and other NRC offices for publicly available documents.

Legal Authority: 42 USC 2021; 42 USC 2073; 42 USC 2077; 42 USC 2111; 42 USC 2201; 42 USC 5841

Abstract: The proposed rule would exempt from licensing and regulatory requirements technetium-99 and low-enriched uranium as residual contamination in any smelted alloy. The proposed rule would remove the Commission's present specific licensing requirement that has the effect of inhibiting trade in and recycling of metal scrap contaminated with small

amounts of these radioactive materials. This requirement also prevents recycling by the secondary metals industry of smelted alloys containing these two radioactive materials. The NRC issued the proposed rule in response to a Department of Energy request. A draft environmental statement for this action has been prepared.

Legal Authority: 42 USC 2201

CFR Citation: 10 CFR 30; 10 CFR 40; 10 CFR 50; 10 CFR 51; 10 CFR 70; 10 CFR 72

Abstract: The advance notice of proposed rulemaking sought comment on a proposal to develop a more explicit policy for decommissioning nuclear facilities. The proposal would provide more specific guidance on decommissioning criteria for production and utilization facility licensees and byproduct, source, and special nuclear material licenses. This action is intended to protect public health and safety and to provide the applicant or licensee with appropriate regulatory guidance for implementing and accomplishing nuclear facility decommissioning. Although it is planned to provide additional guidance through regulatory guides, it is necessary to amend the regulations in order to achieve appropriate assurances that funds for decommissioning will be available.

The major cost impact of the proposed rule would involve proper planning at all stages of nuclear facility operation. Proper planning includes providing for (1) financial assurance that funding will be available for decommissioning, (2) maintenance of records that could affect decommissioning, and (3) careful(cont)

3955. PATIENT DOSAGE MEASUREMENT

Legal Authority: 42 USC 2111; 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 35

Abstract: Each specific NRC medical licensee is currently required by license condition to measure radiopharmaceutical dosage before it is administered to a patient. This proposed rule is intended to ensure the consistent application of the requirement and to simplify licensing by replacing the individual license conditions with a single regulatory requirement that would apply to all current and future medical licensees. The proposed rule will require licensees to measure each dosage and make a record of each measurement. Because the requirement is currently imposed by license condition, there will not be cost savings or additional burden; however, the industry and NRC will benefit by having a clear, concise requirement in the regulation. The proposed rule is being incorporated into a proposed revision of 10 CFR Part 35 (See RIN-3150-AA-73 Medical Use of Byproduct Material).

Legal Authority: 42 USC 2111; 42 USC 2201; 42 USC 2232; 42 USC 2233

CFR Citation: 10 CFR 35

Abstract: The proposed rule would revise Part 35 to modify the process for licensing and regulating the medical use of radioactive byproduct material. Requirements that apply to medical licensees are scattered in the regulations, license conditions, the individual licensee's application, and licensing branch policy statements. The purpose of the proposed rule is to consolidate and codify the requirements in the regulation. This rule will result in a clearer understanding of NRC requirements for all medical licensees. This revision is necessary in order to provide a clear consolidated statement of requirement. The only way to impose requirements on all licensees is by license condition or regulation; therefore no alternative action was considered. Because most of the requirements contained in this regulation are currently imposed by regulation or license condition, there will be no significant cost savings or additional burden; the industry and NRC will benefit by having a clear, concise, complete regulation. The Commission approved publication of the proposed revision, but has some comments that need to be resolved before the proposed rule can be published for public comment. (cont)

3957. + LICENSES AND RADIATION SAFETY REQUIREMENTS FOR WELL-LOGGING OPERATIONS

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 39

Abstract: The proposed rule would establish specific radiation safety requirements applicable to licensees who perform operations such as well-logging, mineral-logging, radioactive markers, and subsurface use of radioactive materials in tracer studies. The proposed rule is necessary because current NRC regulations address these operations in a general way without providing the specific guidance necessary to ensure that these operations are performed safely. As an alternative to the status quo, the proposed rule would adopt the requirements similar to those in the suggested State Regulations for Control of Radiation Part W as new NRC regulations. The potential costs for industry to implement these requirements would be about $1,300,000/yr. However, because most of the requirement is already imposed by license conditions, the net increase in cost would be about $350,000 per year for the industry or about $2000 per licensee. The rule would establish a consistent, comprehensive set of requirements that would minimize the effort required to obtain reciprocity for NRC licensees to operate in Agreement States or vice versa. The rule would require about one staff-year effort.

3958. + URANIUM MILL TAILINGS REGULATIONS: CONFORMING NRC REQUIREMENTS TO EPA STANDARDS

Legal Authority: 42 USC 2014; 42 USC 2092; 42 USC 2093; 42 USC 2094; 42 USC 2095; 42 USC 2111; 42 USC 2113; 42 USC 2114; 42 USC 2201; 42 USC 2232; 42 USC 2233; 42 USC 2236; 42 USC 2282; 42 USC 2021; 42 USC 5841

CFR Citation: 10 CFR 40

Abstract: The proposed rule would revise the Nuclear Regulatory Commission's regulations governing the disposal of uranium mill tailings to conform them to regulations recently published by the Environmental Protection Agency that set standards for protecting the environment from these wastes. The proposed rule would remove inconsistencies between NRC and EPA requirements and incorporate in NRC regulations the stability, radon release, and other provisions of the EPA standard not related to groundwater. This action is necessary to comply with provisions of the Uranium Mill Tailings Radiation Control Act and the NRC Authorization Act for FY 1983; therefore no alternatives to this action need to be considered. EPA has estimated that compliance with their recently published regulations would cost the uranium milling industry from about $310 million to $540 million to dispose of all existing tailings and tailings to be generated by the year 2000. This includes the costs of the groundwater

protection provisions which are to be addressed in future NRC rule changes. The EPA regulations are binding on NRC licensees in the interim. The final rule is under review by the Commission.

Legal Authority: 42 USC 2201; 42 USC 5841; 42 USC 7901 Note

CFR Citation: 10 CFR 40

Abstract: The advance notice of proposed rulemaking seeks comment on NRC's tentative approach to making further amendments to its uranium mill tailings regulations. The contemplated rulemaking proceeding is intended to incorporate groundwater provisions and other requirements established by the Environmental Protection Agency for similar hazardous wastes into NRC regulations. This action is necessary to make NRC regulations consistent with EPA standards as required by the Uranium Mill Tailings Radiation Control Act. Alternatives to this action involve timing and scope. Comments on th ANPRM will help define the nature and scope of the action. EPA has estimated that compliance with their groundwater standards and with the stability, radon release, and other requirements recently promulgated will cost the industry from about $310 million to $540 million for all tailings generated by the year 2000. The range depends on the eventual cost of groundwater protection for future tailings. The EPA regulations are binding on NRC licensees in the interim. Estimates of NRC resources are still being developed.

3960. + MATERIAL BALANCE REPORTS

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 40; 10 CFR 70; 10 CFR 150

Abstract: The proposed rule would amend the requirements applicable to the submission of source material and special nuclear material inventory reports. The proposed rule would eliminate the requirement to report inventories on Form 742 for all licensees except those reporting under the US/IAEA Safeguards Agreement. The proposed rule would also eliminate the requirement to report inventories for all licensees except those for nuclear reactors and those reporting under the agreement. The NRC would generate an equivalent inventory report, based on the data submitted by each affected licensee; and the licensee would verify the accuracy of the report. This amendment would reduce the reporting burden imposed on the licensee without adversely affecting the domestic safeguards program on the ability to satisfy international commitments. The proposed reduction would result in a total cost savings of $39,000 for affected licensees.

3961. + TECHNICAL SPECIFICATIONS FOR NUCLEAR POWER REACTORS

Legal Authority: 42 USC 2201

CFR Citation: 10 CFR 50

Abstract: The proposed rule would amend current regulations pertaining to technical specifications for nuclear power reactors. Specifically, the proposed rule would (1) establish a standard for deciding which items derived from the safety analysis report

must be incorporated into technical specifications, (2) modify the definitions of categories of technical specifications to focus more directly on reactor operations, (3) define a new category of requirements that would be of lesser immediate significance to safety than technical specifications, and (4) establish appropriate conditions that must be met by licensees to make changes to the requirements in the new category without prior NRC approval.

The changes are needed because of disagreement among parties to proceedings as to what items should be included in technical specifications, and concern that the substantial growth in the volume of technical specifications may be diverting the attention of licensees from matters most important to the safe operation of the plant.(cont)

Additional Information: ABSTRACT CONT: The proposed rule would improve the safety of nuclear power by placing more emphasis on those specifications of high safety significance, and provide more efficient use of NRC and licensee resources. The NRC staff has estimated that each of the affected 21 licensees should utilize the proposed method for changing supplemental specifications approximately twice a year. The total additional yearly burden to resubmit a revoked change for all 21 affected licensees would be approximately 101 staff hours.

The future milestones for this rule have not been established because the rule is on hold, pending determination as to whether or not the rule will be continued.

Legal Authority: 42 USC 2236; 42 USC 2237

CFR Citation: 10 CFR 50

Abstract: At a Commission meeting, October 17, 1984, the Commission directed the staff to draft a policy statement on programs for training and qualification in lieu of publishing this proposed "Fitness for Duty" rule and other proposed training and qualification amendments. On December 10, 1984, the NRC decided to separate the policy statement on fitness for duty from the policy statement on training and qualifications. Therefore, this proposed rule is being withdrawn. The policy is being established to allow power reactor applicants and licensees to develop and implement their own fitness-for-duty programs during a 2-year period. Nothing in the policy statement limits NRC's authority or responsibility to follow up on operational events or its enforcement authority when regulatory requirements are not met.

A proposed policy statement was submitted to the Commission on January 1, 1985; as SECY 85-21. A proposed fitness for duty withdrawal statement was submitted to the Commission on April 12, 1985, as SECY 85-21A. Both SECY 85-21 and 85-21A await disposition by the Commission.

CFR Citation: 10 CFR 50; 10 CFR 70; 10 CFR 73

Abstract: When the Commission approved the set of final physical protection requirements for fuel cycle facilities possessing formula quantities (five formula kilograms or more) of strategic special nuclear material (SSNM), they exempted nonpower reactors from these requirements and, instead specified a set of interim requirements. At that time the staff was directed to develop a set of permanent physical protection requirements for this class of nonpower reactors. This rulemaking is needed: (1) to replace current interim regulations and establish permanent physical security requirements for nonpower reactor licensees who possess a nonexempt formula quantity of SSNM, (2) to provide protection against insiders, and (3) to arrange for a response by local law enforcement or other agencies in time to prevent a theft of a formula quantity. The staff is using a performance-oriented regulatory approach which would give affected licensees flexibility in designing cost-effective measures for implementing the requirements of the final rule by allowing licensees to take advantage of existing facility design features. Not more than three facilities are expected to have to implement these (cont)

3964. MANDATORY PROPERTY INSURANCE FOR DECONTAMINATION OF NUCLEAR FACILITIES

Legal Authority: 42 USC 2201

CFR Citation: 10 CFR 50

Abstract: The proposed rule would require an increase in the amount of on-site property damage insurance from the current minimum of $585 million to $1.02 billion. The NRC believes that such insurance should be required so that the financing and pace of cleanup following an accident does not become a public health and safety problem. Recent studies indicate that as much $1.02 billion may be required to cover on-site cleanup of the worst reactor accidents if inflation and other factors are included. Other issues addressed in the proposed rule are whether the Federal government can preempt State law that prohibits certain public utilities from buying insurance offered by mutual companies or requiring payment of a retrospective premium and whether a priority of payment of insurance proceeds for decontamination and cleanup can be imposed. Action in these areas is required for the same reason as imposition of general insurance requirements, i.e. to remove the financial aspects of recovery after an accident from having an adverse impact on public health and safety.

Additional Information: ABSTRACT CONT: requiring insurance above that currently required but rather allowing the necessity for additional insurance to be determined by economic regulators at the State level.

The impact of the proposed rule on licensees would probably not be large. Most licensees currently purchase insurance in excess of $1.02 billion. Approximately 10 licensees would be required to carry more insurance than they otherwise would for an annual incremental premium cost of roughly $1 million per year. Thus the total impact of the rule would be approximately $10 million per year. The impact on the public would generally be positive in that public health and safety would be better protected. The impact on the NRC would be minimal with respect to increasing the amount of insurance. A decontamination priority, if it were invoked, could require additional hearings with attendant costs. One-half of a staff-year is required by OSP to continue the rulemaking, with minimal impact on other offices expected.

3965. REVISION OF BACKFITTING PROCESS FOR POWER REACTORS

Legal Authority: 42 USC 2021; 42 USC 2133; 42 USC 2134; 42 USC 2201; 42 USC 2232; 42 USC 2233; 42 USC 2239; 42 USC 4332; 42 USC 4334; 42 USC 4335; 42 USC 5841; 42 USC 5842; 42 USC 5846

CFR Citation: 10 CFR 50

Abstract: The proposed rule is being initiated by the Nuclear Regulatory Commission to establish requirements for long-term management of its review process for the imposition of new regulatory requirements on power reactors. More specifically, the objective of the rulemaking is to address "backfitting", a process which can include both plant specific changes and generic changes as applied to one or more classes of power reactors. This rulemaking would revise 10 CFR 50.54, 50.109, 2.204, and add a conforming amendment to Appendix O. The rule is intended to reduce costs of "backfitting" for licensees through better management of this review process.

3966. NOTICE AND COMMENT ON, PROCEDURES FOR STATE CONSULTATION ON, AND STANDARDS FOR MAKING DETERMINATIONS ABOUT WHETHER LICENSE AMENDMENTS INVOLVE NO SIGNIFICANT HAZARDS CONSIDERATIONS

Legal Authority: 42 USC 2201; PL 97-415

CFR Citation: 10 CFR 2; 10 CFR 50

Abstract: The NRC is publishing a single final rule that combines the two interim final rules implementing, in part,

PL 97-415. Modifications to the final rule are based on further staff review and evaluation of public comments received on the two rules. The rules were published on April 6, 1983 (48 FR 14868). They specify criteria for notice and public comment on, procedures for State consultation on, and standards for making determinations about whether amendments to operating licenses for certain facilities involve no significant hazards considerations. In addition, the rules specify procedures for consultation on these determinations with the State in which the facility of the licensee requesting the amendment is located. The rules permit the Commission to act expeditiously if circumstances surrounding a request for an amendment require prompt response and to issue an amendment before holding any required hearing, unless a significant hazards consideration is involved.

3967. + CODES AND STANDARDS FOR NUCLEAR POWER PLANTS (1983 EDITION, WINTER 1982 THROUGH SUMMER 1984 ADDENDA)

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 50

Abstract: The proposed rule would incorporate by reference the Winter 1982 Addenda, Summer 1983 Addenda, Winter 1983 Addenda, Summer 1984 Addenda, and the 1983 Edition of Section III, Division I, of the American Society of Mechanical Engineers Boiler and Pressure Vessel Code (ASME Code), and the Winter 1982 Addenda, Summer 1983 Addenda, and the 1983 Edition of Section XI, Division I, of the ASME Code. The ASME Code sets standards for the construction of light-water-reactor nuclear power plant components in Section III, Division 1, and specifies requirements for the inservice inspection of those components in Section XI, Division I. The proposed rule would update the existing reference to the ASME Code and would thereby permit the use of improved methods for the construction and inservice inspection of nuclear power plant components.

Incorporating by reference the latest edition and addenda of the ASME Code will save applicants/licensees and the NRC staff both time and effort by providing uniform detailed criteria against which the staff can review any single submission. Revisions to the ASME code are achieved through the (cont)

3968. OPERATORS' LICENSES

Legal Authority: 42 USC 2137; 42 USC 2201; 42 USC 5841; 42 USC 10226

CFR Citation: 10 CFR 50; 10 CFR 55

Abstract: The Nuclear Regulatory Commission was proposing to amend its regulations to (1) require each holder of and each applicant for a license to operate a commercial nuclear power plant to establish and use a systems approach in developing training programs and establishing qualifications requirements for civilian nuclear power plant operators, supervisors, technicians, and, as appropriate, operating personnel; (2) clarify the regulations for the issuance of licenses to operators and senior operators; (3) revise the requirements and scope of written examinations and operating tests for operators and senior operators; (4) codify procedures for the administration of requalification examinations; and (5) describe the form and content for operator license applications.

The proposed rulemaking was in response to Section 306 of the Nuclear Waste Policy Act of 1982. A regulatory analysis showed a public risk reduction of 268,000 person-rem at a cost of $240.4 million dollars resulting in a value/impact ratio of 1,100 person-rem/$million. Coordinated industry objections to the rulemaking were the subject of a Commission meeting on (cont)

Additional Information: ABSTRACT CONT: April 9, 1984. Industry requested that the NRC issue a policy statement rather than a rule. Consequently, at an October 17, 1984, Commission meeting, the Commission directed the staff to publish the portion of the proposed rule revising 10 CFR Part 55 "Operators' Licenses," and to draft a Policy Statement on programs for training and qualification of nuclear power plant personnel. The proposed revision was published for comment on November 26, 1984, and the effective Policy Statement was published March 20,1985.

The Policy Statement replaces the portion of this proposed rule that would have added requirements to 10 CFR Part 50 on training and qualification of plant personnel. The training programs are to be developed and implemented by industry during a two-year period. The policy statement provides guidance regarding NRC's support of the industry-managed training accreditation program and states NRC's continuing responsibility to independently evaluate applicants' and licensees' implementation of training programs.

3969. PERSONNEL ACCESS AUTHORIZATION PROGRAM (PART OF INSIDER PACKAGE)

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 50; 10 CFR 73

Abstract: The proposed rule would establish a personnel screening program for individuals requiring unescorted reactor facility access, thus providing increased assurance of the trustworthiness and emotional stability of a reactor site population. Study has indicated that disoriented or disgruntled employees (especially ones who might also be psychotic) at nuclear reactors are of primary safeguards concern because of their inside position. While the Commission has stated that at present it is satisfied with the level of safeguards in place at reactors, it approved publication of the proposed rule for public comment (49 FR 30726) as one means of further assuring protection of public health and safety. The public comment period concluded March 7, 1985, and comments received are now under analysis.

Alternatives to rulemaking that were investigated, included endorsing an ANSI standard through a regulatory guide, using staff position papers, and implementing license conditions. These alternatives were rejected because some would not produce an industry standardized program while others lacked regulatory authority. The proposed regulation will protect against (cont)

Primary benefit to the public and licensees is an increased assurance of the trustworthiness and emotional suitability of individuals working in a nuclear reactor environment. Benefits to the NRC result from the use of a codified program that assures that a uniform approach, meeting minimum requirements, will be applied in screening reactor personnel. The net increase in cost per applicant and licensee in implementing this requirement is estimated to be $155,000 initially and $348 per annum thereafter. The net increase in cost to the NRC due to estimated time in reviewing proposed Personnel Access Authorization Plans and enforcement activities is $510,000 initially with an estimated annual cost impact of $211,000.

3970. PROTECTION OF CONTRACTOR EMPLOYEES

Legal Authority: 42 USC 2236; 42 USC 2282; 42 USC 5851

CFR Citation: 10 CFR 50

Abstract: The proposed rule would require 10 CFR Part 50 licensees, permittees, and applicants to ensure that procurement documents they issue or modify, specify that contractors and subcontractors post a notice to employees related to employee protection. The required notice would contain information notifying employees that an employer is prohibited from discriminating against an employee engaging in protected activities and that an employee may seek a remedy for prohibited discrimination by filing a complaint with the Department of Labor. The proposed amendment would affect licensees, permittees, applicants, and their contractors and subcontractors who are contractually responsible for construction of basic components or production and utilization facilities. Although there is no health and safety reason for addressing the issue, NRC is interested in protecting employees from discrimination. However, because Section 210 of the Energy Reorganization Act does not give the NRC direct authority over contractors and subcontractors and it clearly envisioned that the Department of Labor would be the principal agency in ensuring the rights of nuclear industry (cont)

Legal Authority: 42 USC 2133; 42 USC 2134; 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 50

Abstract: The proposed rule would amend the Commission's emergency planning regulations to reflect experience gained since 1980 and reorganize the emergency planning requirements for clarity. Research studies on reactor risk and practical emergency planning experience have led to a refined portrayal of reactor risks and consequences. The proposed rule would require a graduated emergency response capability to reflect a more realistic program for dealing with radiological emergencies at nuclear power plants.

Legal Authority: 42 USC 2133; 42 USC 2134; 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 50

Abstract: The proposed rule would require that non-power reactors use only low-enriched uranium fuel (LEU), with certain exceptions. The proposed rule is intended to reduce the high-enriched uranium fuel (HEU) in the United States and thereby reduce the potential for theft or diversion. The majority of licensees affected by the proposed rule would be universities operating research and training reactors. To date, four of the 25 affected universities have made the decision to curtail the operation of their research/training reactors. Delay in the implementation of the proposed rule could have an adverse impact on the remaining affected licensees and their decisions regarding continuance or discontinuance of their respective reactor operations.

Other alternatives that have been and will continue to be considered include retaining the status quo and leaving the highly enriched uranium in place while upgrading security over the life of the facility.

The estimated identified and quantifiable costs to the affected licensees range between $9-12 million. In addition, there will be other identifiable costs that are difficult to assess (cont)

Legal Authority: 42 USC 2133; 42 USC 2134; 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 50

Abstract: The proposed rule would consider the need to take into account the complicating effects of earthquakes on emergency preparedness. Existing regulations require that nuclear power plants be designed to safely shut down for most earthquakes. The probability of earthquakes large enough to cause major onsite damage that would result in a significant radiological release from the plant is low; and for large earthquakes, offsite damage could make prior offsite emergency plans premised on normal conditions marginally useful.

One alternative to the proposed rule change would be not to require that the emergency plans specifically address the impact of earthquakes. The staff believes this to be an inappropriate alternative because of the flexibility of existing emergency plans as well as the very low probability of the occurrence of an earthquake of substantial magnitude and a radiological release from the plant. Another alternative would be to adjudicate the issue on a case-by-case basis. The staff believes this to be an inappropriate alternative because it would be extremely time consuming and would not necessitate the unwarranted (cont)

The proposed amendment will not greatly affect the industry since licensees are required to have approved emergency response plans which are flexible enough to assure that appropriate protective measures can be taken to mitigate the consequences of a nuclear emergency. The public will not be affected as adequate emergency preparedness at nuclear reactors will be assured. The staff anticipates that there will be no increase in cost to the NRC, State, and local governments and to licensees associated with the proposed rule change because it is interpretative in nature.

3974. + MODIFICATIONS TO GDC 4 REQUIREMENTS FOR PROTECTION AGAINST POSTULATED PIPE RUPTURES

Legal Authority: 42 USC 2201; 42 USC 5846

CFR Citation: 10 CFR 50

Abstract: The proposed rule would permit licensees to use newly developed analytical methods involving widely accepted advanced fracture mechanics theories for determining that certain pipe ruptures need not be treated in the design basis for dynamic effects. Implementation of the rule would facilitate the removal of unnecessary pipe whip restraints and jet shields from existing nuclear power plants. This would reduce inservice inspection cost and, in addition, would reduce inspector radiation exposure. The need and urgency for addressing the issue stems from the widespread acceptance of the analysis results and the research findings pertaining to pipe rupture coupled with increasing confidence in its applicability. Prior to the last few years, there was no sound technical basis for excluding certain pipe ruptures from the design basis. Now it is clear that it is possible to defend the exclusion of PWR primary loop double-ended guillotine pipe ruptures, and that the scope may be extended to other piping. A benefit derived from the rule would be avoidance of extensive exemptions to General Design Criterion 4 which would be the only acceptable alternate to the proposed rule. (cont)

Abstract: The Nuclear Regulatory Commission is proposing to amend its regulations to clarify standards that will be applied when it considers whether to grant exemptions from the regulatory requirements codified in 10 CFR Part 50. Staff experience and several recent adjudicatory proceedings have shown that clarifying these standards would improve understanding of situations warranting an exemption for the applicants, licensees, public, and the staff. Although existing exemption practice will suffice for an interim period until the proposed rule is finalized, action should be completed on this issue as soon as is practicable. There is no alternative to rulemaking as a mechanism to clarify and strengthen the Commission's exemption policy, as well as to formalize existing criteria and existing staff practice. The associated incremental industry and NRC staff cost will be minimal. Development and promulgation of the proposed and final rule will involve approximately 640 hours of NRC staff time, at $60 per hour for a total of $238,400.

3976. EXPLANATION TO TABLE S-3 URANIUM FUEL CYCLE ENVIRONMENTAL DATA

Legal Authority: 42 USC 2011; 42 USC 4321

CFR Citation: 10 CFR 51

Abstract: The proposed rule provides a narrative explanation of the numerical values established in Table S-3, "Table of Uranium Fuel Cycle Environmental Data," that appears in the Commission's environmental protection regulations. The proposed rule describes the basis for the values contained in Table S-3, the significance of the uranium fuel cycle data in the table, and the conditions governing the

use of the table. The narrative explanation also addresses important fuel cycle impacts (e.g., environmental dose commitments, health effects, socioeconomic impacts) and the cumulative impacts of the nuclear fuel cycle for the whole nuclear power industry so that it may be possible to consider these impacts generically rather than repeatedly in individual licensing proceedings, thus reducing litigation time and costs for both NRC and applicants.

The proposed rule was published for public review and comment (46 FR 15154, March 4, 1981), but the final rulemaking was deferred pending the outcome of a suit (Natural Resources Defense Council, et al. v NRC, No. 74-1486) in the U.S. Court of Appeals. CFR Citation: 10 CFR 60

Abstract: The proposed rule would revise procedures regarding NRC reviews of license applications for disposal of high-level radioactive wastes in geologic repositories. The procedures are being revised principally to conform to the provisions of the Nuclear Waste Policy Act of 1982. Specifically, the proposed rule would clarify that NRC begins its review in this licensing process after DOE provides NRC a site characterization plan and that usual rules of practice apply to licensing of these repositories. It would also provide that the NRC may publish a notice of receipt of a site characterization plan and a notice inviting comments on its analysis of a plan.

The proposed rule would also change some of the procedures for the participation of States and Indian tribes in the licensing process. Without the proposed rule, there would be major incongruities between the Nuclear Waste Policy Act and 10 CFR Part 60. Alternatives to the proposed rule would be changing the Nuclear Waste Policy Act or doing nothing and allowing incongruities to exist, with subsequent risk of litigation against NRC.(cont)

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 70

Abstract: The proposed rulemaking would replace existing material control and accounting (MC&A) requirements for fuel cycle facilities that are authorized to possess and use formula quantities of strategic special nuclear material (SSNM).

It would establish a performance oriented regulation that emphasizes timely detection of formula quantity SSNM losses and provides for more conclusive resolution of discrepancies than is currently achievable. Experience with existing regulations has demonstrated weaknesses in the area of alarm resolution principally because of a lack of timely detection of anomalies and poor loss localization capabilities. The rulemaking would alleviate these liabilities by requiring

tests on a more timely basis on small plant subdivisions.

An alternative to the rule would be to implement the concepts through license amendments for the four involved licensees; however, such an action would be inconsistent with the Administrative Procedures Act and the direction provided in NRC's Policy and Program Guidance document. The protection of the public health and safety will be enhanced through earlier (cont)

3979. + MISCELLANEOUS AMENDMENTS CONCERNING PHYSICAL PROTECTION OF NUCLEAR POWER PLANTS (PART OF INSIDER RULE PACKAGE)

Legal Authority: 42 USC 2101; 42 USC 5841

CFR Citation: 10 CFR 73

Abstract: The proposed rule would require in Nuclear Power Plants (1) the designation of vital areas (to allow vital islands), (2) access controls to vital islands, (3) the protection of certain physical security equipment, (4) revised requirements for key and lock controls, and (5) revised authority to suspend safeguards measures during emergencies. (Years of operating experience revealed a need for clarification and refinement.) The requirements will clarify policy in these areas and reduce unnecessary burden on the industry while maintaining plant protection. This rule is a revision of the proposed rule entitled "Access Controls to Nuclear Power Plant Vital Areas." Initial development of a final rule produced significant changes, particularly in the criteria for personnel access controls to vital areas, resulting in the need to publish a revised rule. This proposed rule and the other components of the insider rule package were reviewed by the NRC Safety/Safeguards Review Committee which considered a number of alternative approaches to vital island configurations and provided recommendations that are reflected in the proposed rule. 3980. + MODIFICATION OF PROTECTION REQUIREMENTS FOR SPENT FUEL SHIPMENTS

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 73

Abstract: A proposed rule has been issued to moderate the present interim requirements for the protection of shipments of irradiated reactor fuel cooled for 150 days or more. Recent research shows that the quantity of radioactive material that would be released as a result of successful sabotage is much smaller than was supposed at the time that the interim rule was issued. The alternatives considered during the development of the proposal were: (1) let the current interim requirements continue in force; (2) moderate the current requirements; and (3) eliminate all interim requirements. The alternative of moderating the requirements was selected. The moderated requirements would provide for (1) shipments to be accompanied by an unarmed escort,

who may be driver or carrier employee and may have other duties, (2) on-board communications, and (3) immobilization capability for trucked shipments. Present interim requirements will continue to be effective for shipments of irradiated fuel cooled less than 150 days. The benefit of the proposed rule would be the elimination of unnecessarily strict requirements which presently apply to spent fuel shipments.(cont)

3981. + SEARCHES OF INDIVIDUALS AT POWER REACTOR FACILITIES (PART OF INSIDER PACKAGE)

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 73

Abstract: The proposed rule would revise the search requirements for individuals entering the protected area of nuclear power plants. Under the proposed requirements, all persons would be subject to equipment searches for firearms, explosives and incendiary devices. Physical searches would be required only when search equipment is not working properly or when the licensee suspects that an individual is attempting to carry into the plant prohibited devices or material. Random searches were considered as an alternative, but were dismissed as being possibly disruptive. Since licensees already possess the necessary equipment, this rule will affect only licensee procedures at negligible additional cost.

Since requirements for searches have been in effect for some time, and modifications to those requirements are needed, alternatives to this rulemaking such as revised guidance would be inappropriate in that they would not carry the force of a regulation. (cont)

Legal Authority: 42 USC 2201; 42 USC 2210; 42 USC 5841; 42 USC 5842

CFR Citation: 10 CFR 140

Abstract: The proposed rule would revise the criteria the Commission currently follows in determining an extraordinary nuclear occurrence (ENO), in order to overcome the problems that were encountered following the Three Mile Island (TMI) accident when the present criteria were applied. The proposed criteria would focus on items that can be readily counted or estimated within a relatively short time following an accident (i.e., substantial release of radioactive material or radiation offsite and substantial exposure levels). The revised criteria will provide for speedy satisfaction of legitimate claims in the event of an ENO. Because ENO criteria are administrative criteria for use by the Commission, they do not impose any requirement upon a licensee.

ADVANCE NOTICES OF PROPOSED RULEMAKING

3983. REGULATORY REFORM OF THE RULES OF PRACTICE AND RULES FOR LICENSING OF PRODUCTION AND UTILIZATION FACILITIES

Legal Authority: 42 USC 2201; 42 USC 2231; 42 USC 5841; 42 USC 5842; 42 USC 5846

CFR Citation: 10 CFR 2; 10 CFR 50

Abstract: This proposed rule would amend thirty-three sections of two parts affecting the hearing process associated with the issuance of all NRC licenses. Streamlining the hearing process would ultimately provide cost savings to all participants in the process. However, intervenors may initially be required to provide more information than is now required at some added expense.

In the screening process, the most significant changes would (1) establish a screening Atomic Safety and Licensing Board (ASLB) to act as a clearinghouse for all requests for hearings, petitions for leave to intervene, and proposed contentions, (2) require a participant in a hearing to show that he or she has an interest to protect in the proceeding, and (3) require evidence of a factual dispute for a contention to be admitted.

During the conduct of hearings, the most significant changes would (1) not hear discovery requests requiring the staff to support positions other than its own, (2) permit the ASLB to decide the case on the basis of written material, (3) permit the ASLB to appoint a panel of technical experts if needed, (cont)

Additional Information: ABSTRACT CONT: (4) allow presiding officers to raise issues on their own motion (sua sponte) only in unusual cases, (5) allow summary disposition motions to be filed at any stage of the proceeding, (6) allow the Commission to designate a hearing examiner in lieu of a three-member ASLB, and (7) require the filing of cross examination plans.

During the decision-making process, the most significant changes would (1) remove the ASLB as an independent appeal board but place it organizationally directly under the Commission to review, as before, ASLB decisions, and give its recommendations to the Commission, (2) allow any generic issue resolved in an initial licensing proceeding to be codified, allowing a 45 day comment period (3) allow an intervenor to participate in discussing only those items he or she introduced, and (4) reinstate the immediate effectiveness of an ASLB decision on an operating license, construction permit, or work authorization. The proposals, submitted by the Commission's Regulatory Reform Task Force suggest ways to improve the reactor licensing process.

3984. RULES OF PRACTICE FOR DOMESTIC LICENSING PROCEEDINGS: ROLE OF NRC STAFF IN ADJUDICATORY LICENSING HEARINGS

Legal Authority: 42 USC 2201; 42 USC 2231

CFR Citation: 10 CFR 2

Abstract: The role of the NRC staff in initial proceedings was among the issues discussed in an enclosure to a January 2, 1985, memorandum to the Chairman of the House Subcommittee on Energy and Water Development from Chairman Palladino. This discussion stated that the Commission has decided that the NRC's role in these proceedings should not be changed. Therefore, the action proposed by this advance notice of proposed rulemaking will be terminated. The Commission is considering amending its Rules of Practice concerning what role the NRC staff should have in adjudicatory licensing hearings to most effectively contribute to the protection of the public health and safety. This notice invites public comments and suggestions on four options and related questions, briefly described below. Option 1 would limit staff participation in contested initial licensing proceedings to only those controverted factual issues it disagrees with on a technical basis or rationale. Option 2 would require (cont)

Option 3 would retain status quo, i.e., the NRC staff would participate as full party on all issues. Option 4 would expand public involvement in the prehearing stage of initial licensing proceedings, and this option could be used in conjunction with any of the first three options. The staff would subsequently address each substantive issue raised in the Safety Evaluation Report.

Alternatives to rulemaking could include a policy statement or no action, depending on the option chosen. The possible means of addressing this issue through rulemaking are discussed above. The effects of the rulemaking, including benefits and costs, will depend on the option chosen. NRC resources needed for this rulemaking are estimated at 500 staff hours.

CFR Citation: 10 CFR 20

Abstract: Radiation protection philosophy and technology have changed markedly since the present Part 20 was promulgated nearly thirty years ago. Since Part 20 contains the NRC standards for protection against radiation which are used by all licensees and affects exposures of workers and members of the public, it should be the most basic of the NRC regulations. However, because the present Part 20 has become outdated, most radiation protection actions occur through licensing actions independent of Part 20. A complete revision is necessary to provide better assurance of protection against radiation; establish a clear health protection basis for the limits; reflect current information on health risk, dosimetry, and radiation protection practices and experience; provide NRC with a health protection base from which it may consider other regulatory actions taken to protect public health; be consistent with recommendations of world authorities (ICRP); and apply to all licensees in a consistent manner.

Alternatives to the complete revision considered were no action; delay for further guidance; and partial revision of the standards. They were rejected as ignoring scientific (cont)

Benefits would include updating the regulations to reflect contemporary scientific knowledge and radiation protection philosophy; implementing regulations which reflect the ICRP risk-based rationale; reducing lifetime doses to individuals receiving highest exposures; implementing provisions for summation of doses from internal and external exposures; providing clearly identified dose limits for the public; providing understandable health-risk base for protection; and placing constraints on collective dose evaluations at levels where risks are trifles.

Initial estimates of the cost of implementing the revision is about $23 million the initial year and about $7 million in subsequent years. This cost does not include any savings which might also be realized by the revision.

CFR Citation: 10 CFR 20

Abstract: The notice of proposed rulemaking seeks comment on a proposal to add amendments to 10 CFR Part 20 that would improve the accuracy and consistency of reported occupational radiation dose measurement by requiring proficiency tests of dosimetry processors who perform dosimetry for NRC licensees. The proposed amendments would require NRC licensees to have personnel dosimeters (devices carried or worn by each radiation worker to measure radiation exposure received during work) processed by a dosimetry service that is accredited by NBS/NVLAP. The Commission considered five alternatives for establishing a regulatory program intended to improve personnel dosimetry processing. These alternatives included: no change in current requirements; requiring licensees to participate in performance testing without specifying a testing laboratory; requiring licensees to participate in performance testing conducted by an NRC-specified testing laboratory; a request from Congress for the authority for NRC to license personnel dosimetry processors directly; and requiring licensees to obtain dosimetry services from an NRC-operated or contracted dosimetry service. Additional Information: ABSTRACT CONT: An evaluation of estimated annual costs to the dosimetry processing industry resulting from an NRC rule requiring licensees to utilize dosimetry processors accredited under an NBS/NVLAP program was projected to be about $717,000. This would result in an estimated net annual increase in the cost of providing monitoring for each worker per year of $0.51, a 2.1% annual increase. The major benefit of the proposed rule would be increased accuracy and reliability of dose measurement to workers in licensed installations. Other benefits include continued assurance of personnel dosimeter processor competence with minimal NRC staff and resource allocation; formulation of a program that can easily be utilized by other agencies; value to the industrial licensee through legal credibility of a nationally-recognized accreditation program; and value to the worker through more accurate assignment of dose. The staff is currently analyzing the comments received on the NPRM.

3987. +EMERGENCY PREPAREDNESS FOR FUEL CYCLE AND OTHER RADIOACTIVE MATERIALS LICENSEES

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 30; 10 CFR 40; 10 CFR 70

Abstract: The proposed rule would require about 30 fuel cycle and other radioactive materials licensees to submit an emergency plan that would among other actions, require the notification of local authorities in case of an accident and that the licensee recommend protective actions for the public. The proposed rule is intended to further protect the public from accidental exposure to radiation. The affected licensees are those whose possession limits indicate the potential for an accident that could deliver a radiation dose offsite exceeding one rem effective dose equivalent or 5 rems to the thyroid or could cause a soluble uranium inhalation of 2 milligrams (a chemical toxicity hazard).

Based on preliminary data contained in the draft regulatory analysis for this proposed rule, the costs of emergency preparedness are expected to exceed the benefits in terms of protecting public health and safety. However, the proposed requirements may be justifiable in terms of the intangible benefit of being able to reassure the public that if an accident does occur, they will be warned and told what to do to protect themselves.

Legal Authority: 42 USC 2201

CFR Citation: 10 CFR 30; 10 CFR 40; 10 CFR 61; 10 CFR 70; 10 CFR 72

Abstract: The advance notice of proposed rulemaking (ANPRM) seeks comments on the advisability of having NRC require a mechanism to assure financial capability on the part of certain NRC materials licensees (e.g., fuel fabricators and users of sealed radiation sources) to undertake prompt cleanup of accidental releases or contamination, both on and off site. Estimates for cleanup costs in the recent past have ranged up to $2 million for a single event. To date, cleanup has been conducted by the State or Federal government, but frequently public monies are used only after lengthy delays. Use of an alternative, i.e., the 1980 Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), is effectively blocked by EPA policy. CERCLA provides funds for cleanup if the owner or operator is unable to do so and if the release is not covered by "Price-Anderson" provisions, which address liability and do not provide funds for cleanup per se. EPA maintains that NRC has full authority to require cleanup of accidental releases by licensees; thus, CERCLA public funds should not be used for this purpose. (cont)

3989. CERTIFICATION OF INDUSTRIAL RADIOGRAPHERS

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 34

Abstract: The advance notice of proposed rulemaking would have required all individuals who use byproduct material in the conduct of industrial radiography to be certified by a third party. Radiography licensees account for over 60 percent of the reported overexposures greater than five rems to the whole body. NRC regulations permit industrial

radiographers to perform radiography independently. The NRC grants radiography licensees the authority to train and designate individuals competent to act as radiographers. The advance notice of proposed rulemaking sought comment on a proposal that would enable NRC to verify the effectiveness of this training, thereby assuring that all radiographers possess adequate training and experience to operate radiographic equipment safely.

Following a series of public meetings, many comments were received. The thrust of the comments was that current training programs and examination procedures administered by licensees were adequate for determining the competence of individuals to be industrial radiographers. An ad hoc Radiography Steering Committee formed to improve radiation safety in the (cont)

CFR Citation: 10 CFR 50

Abstract: The proposed rule would amend regulations concerning acceptance criteria for emergency core cooling systems (ECCS) by changing the methods used to demonstrate that an ECCS would protect the nuclear reactor core during a loss-of-coolant accident. This action is proposed because research has shown that calculations performed under current requirements result in estimates of cooling system performance are significantly worse than estimates based on the improved knowledge gained from this research and because the operation of some nuclear reactors is being unnecessarily restricted. This results in increased cost of electricity generation. The proposed rule would allow use of the best information currently available to demonstrate that the ECCS would protect the reactor core during a loss-of-coolant accident. The proposed rule would apply to all applicants for and holders of construction permits for light water reactors.

Because the proposed rule represents a significant change in a regulatory requirement, the staff is currently preparing a summary of ECCS research performed over the last 10 years which will serve as the technical basis for the proposed rule (cont)

3991. DESIGN AND OTHER CHANGES IN NUCLEAR POWER PLANT FACILITIES AFTER ISSUANCE OF CONSTRUCTION PERMIT

Legal Authority: 42 USC 2201

CFR Citation: 10 CFR 50

Abstract: The proposed rule will prescribe improved approaches for reducing and better controlling the level of change in reactor design and construction. These approaches will be based on recommendations found in NUREG-1055, "Improving Quality and the Assurance of Quality in the Design and Construction of Nuclear Power Plants" (QA Report), which the NRC submitted to Congress in April 1984. The QA Report, prepared by the NRC's Office of Inspection and Enforcement (IE), cited deficiencies in the management of design changes as a key factor contributing to significant quality problems in reactor design and construction that have occurred in the past several years. The QA Report recommended that the NRC consider

requiring more complete designs prior to the beginning of construction and the adoption, as a discipline, of change management (known generically as configuration management) as approaches to overcoming the design management deficiencies. Since this rulemaking deals with issues closely related to design completion and control of changes, responsibility for this rulemaking was transferred from the NRC's Office of Nuclear Regulatory Research to IE in September 1984.(cont)

3992. MODIFICATION OF THE POLICY AND REGULATORY PRACTICE GOVERNING THE SITING OF NUCLEAR POWER REACTORS

Legal Authority: 42 USC 2133; 42 USC 2134; 42 USC 2201; 42 USC 2232; 42 USC 5842

CFR Citation: 10 CFR 50; 10 CFR 51; 10 CFR 100

Abstract: This rulemaking is intended to review and revise the Commission's siting regulations to reflect experience gained since the Commission's current reactor siting regulations were published on April 12, 1962 (27 FR 3509). Many developments in this period including work to establish a Commission safety goal and the review of reactor accident source terms, have brought into the question both the existing regulations and their technical support. This rulemaking will resolve those questions.

In the present circumstances a lack of applications for new plants argue that these changes are not needed. However, the new information that is now available and the lead time between the decision to site and the time when a reactor begins producing power commercially make it prudent for the Commission to address these changes in a timely manner.

The alternatives to rulemaking in this case are restricted to no action. If action is taken based on the new and more reliable data now becoming available, the regulations themselves must be changed. Intermediate remedies such as policy statements and regulatory guides would not have adequate authority to (cont)

Additional Information: ABSTRACT CONT: supplant existing regulations.

An advance notice of rulemaking was published seeking public comment on various approaches to this rulemaking. A proposed rule will be structured to achieve resolution of these comments and reflect recent information from the reactor accident source term review and the trial implementation period for the Safety Goal. These revised regulations will make the siting and review of power sites more predictable through application of clearer requirements.

There is no indication that the criteria would increase costs or have a significant adverse affect on safety. On the contrary, clear requirements will allow for more informed and more efficient siting decisions. This rulemaking would require additional NRC resources of approximately two staff years and minimal contract support. This rulemaking is presently on hold pending completion of the reactor accident source term review. A schedule for resumption of this activity is to be developed upon completion of the accident source term review.

Legal Authority: 42 USC 2133; 42 USC 2134; 42 USC 2201; 42 USC 2232; 42 USC 5842

CFR Citation: 10 CFR 100

Abstract: The advance notice of proposed rulemaking was published to solicit public comment on the need for a reassessment of the Commission's criteria for the siting of nuclear power plants. The Commission determined that this action was necessary as a result of experience gained with application of current criteria and the rapid advancement in the state of the art of earth sciences. The NRC staff was particularly interested in finding out about problems that have arisen in the application of existing siting criteria. The public was invited to state the nature of the problems encountered and describe them in detail. The public was also asked to submit proposed corrective actions. Two petitions for rulemaking filed with the Commission, PRM-50-20 and PRM-100-2 will be addressed as part of this rulemaking.

The staff has initiated paperwork to withdraw this rulemaking.

Legal Authority: 42 USC 2201; 42 USC 2231; 42 USC 2241; 42 USC 5841; 5 USC 552

CFR Citation: 10 CFR 0; 10 CFR 1; 10 CFR 2; 10 CFR 9; 10 CFR 50

Abstract: The Nuclear Regulatory Commission is proposing an amendment that would revise its procedural rules governing the conduct of all adjudicatory proceedings, with the exception of export licensing proceedings. The proposed rule would

comprehensively restate current practice, retitle the hearing office, and revise and reorganize the Commission's procedural rules. The changes set out in this proposed rule are intended to enable the Commission to render decisions in a more timely fashion and reduce the burden and expense to the parties participating in the proceedings.

3995. SEPARATION OF FUNCTIONS AND EX PARTE COMMUNICATIONS IN ON-THE-RECORD ADJUDICATIONS

Legal Authority: 5 USC 554; 5 USC 557

CFR Citation: 10 CFR 2

Abstract: The proposed rule would amend the Commission's rules of practice regarding the separation of functions and ex-parte communications in on-the-record adjudications. The proposed rule would allow the Commission greater flexibility in communicating with its staff by relaxing the restrictions on Commission-staff communications in initial licensing cases. The proposal would permit Commissioners to consult with staff members who were not personally involved in the proceeding and who did not consult privately with interested persons outside the agency. The proposed rule is intended to provide the Commission with better access to the expertise of its staff. It would conform the Commission's rules to those of the Administrative Procedures Act. It would also supersede a prior proposed rule entitled "Ex Parte Communications and Separation of Adjudicatory and Non-Adjudicatory Functions" published in the Federal Register on March 7, 1979 (44 FR 12428).

The issues encompassed in this rule were considered in the "Regulatory Reform Proposal Concerning the Rules of Practice and Rules for Licensing of Production and Utilization Facilities" (49 FR 14698). As a result of staff evaluation of comments (cont)

Abstract: The proposed rule will revise existing regulations to cover specific licensing requirements for the storage of spent nuclear fuel and high-level radioactive waste in a monitored retrievable storage installation (MRS). This revision, required by the Nuclear Waste Policy Act, is intended to ensure that the Commission has in place the appropriate regulations to fulfill the requirements contained in the Nuclear Waste Policy Act of 1982 concerning the licensing of facilities which could be part of the MRS program.

Paragraph (d) of Section 141 of the NWPA provides that any monitored retrievable storage installation pursuant to Section 141 shall be subject to licensing by the Commission. The Commission could await further development of the MRS option before proposing its MRS rules. However, this approach could result in unnecessary delay in reviewing a license application if congress authorizes construction of an MRS. The Department of Energy (DOE) is required to complete a detailed study of the need for and feasibility of a MRS installation. In a proposal to be submitted to Congress on or before June 1, 1985, DOE must include

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 2

Abstract: The proposed amendment would conform the NRC's regulations pertaining to the availability of official records to existing case law and agency practice. The purpose of the amendment is to reaffirm that the terms of 10 CFR 2.790 (c) provide submitters of information a qualified right to have their information returned upon request. This amendment informs the public of three exceptions to the right to withdraw pursuant to 10 CFR 2.790 (c) of the NRC's regulations, i.e., information submitted in a rulemaking proceeding that subsequently forms the basis for the final rule, information which has been made available to an advisory committee or was received at an advisory committee meeting, and information that is subject to a pending Freedom of Information Act request.

Abstract: This proposed rule would establish a specific retention period for certain NRC-required records. It would also provide a uniform standard acceptable to the NRC for the condition of a record throughout a specified retention period. Further, the rule would establish throughout NRC regulations, with some exceptions, uniform retention periods of three years, five years, ten years, and the life of a license. This rule would bring NRC regulations into compliance with the Office of Management and Budget's (OMB) regulation (5 CFR 1320.6) that requires a specified retention period for each required record. It also implements NRC's 1982 commitment to OMB to establish a record retention period of determinable length for each required record.

Amending twenty one parts of NRC regulations to specify clearly what records to retain, how long to retain them, and the condition of a record useful for NRC inspection, will be mutually beneficial to applicants and licensees and to the NRC.

Recordkeeping labor for NRC's approximately 6,700 licensees who would be affected by the rule can be divided into four functions: (1) preparing the report, (2) storing the report, (3)

The principal savings to the licensee, dispersed over the period licensed, would be in physical storage space and associated storage equipment and materials. The burden of recordkeeping would be reduced approximately 10 percent annually for these licensees by the proposed rule. An estimated 466,323 hours associated with recordkeeping or $28,000,000 annually would be saved. Legal Authority: 42 USC 2201(i); 42 USC 5841

CFR Citation: 10 CFR 11

Abstract: The proposed rule would amend the requirements for applications for initial access authorization and for their renewal by allowing utilization of information on file with the government on individuals who possess current active clearances based upon equivalent investigations. The proposed changes would eliminate unnecessary duplication of administrative costs to licensees for individuals who possess comparable clearances and also eliminate certain NRC administrative costs. The objective of this rulemaking action is to provide an effective program for the Commission to grant special nuclear material access authorizations without imposing unnecessary administrative burdens on licensees. This can be achieved by effecting the foregoing changes to the existing rule, which will allow the Commission to grandfather certain cleared licensee employees into the program and to accept application forms and investigative data provided by other Federal agencies, thereby eliminating the $1580.00 investigation fee.

CFR Citation: 10 CFR 20; 10 CFR 71

Abstract: The proposed amendments would revise the requirement for advance notification of waste shipments to provide a more uniform level of hazard at which the report is required. The proposed level of hazard is expected to conform to the level at which the Department of Transportation imposes motor vehicle routing requirements. The proposed amendments would also clarify which of the general licenses in 10 CFR Part 71 require quality assurance programs. The proposed amendments would also adjust the limits for package monitoring on receipt in 10 CFR 20.205 to conform to the new A1/A2 system of Part 71. The proposed amendments are expected to result in no overall net increase in costs to affected licensees.

4004. RESIDUAL RADIOACTIVE CONTAMINATION LIMITS FOR DECOMMISSIONING

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 20

Abstract: The proposed rule would establish residual radioactive contamination limits that must be met before buildings, structures, equipment, materials, and lands may be released for use on an unrestricted basis. Licensed facilities with residual levels of radioactive contamination below these limits would be eligible for unrestricted release and termination of the license. The proposed amendments are necessary to provide licensees with

quantitative criteria to use in the decommissioning and cleanup of buildings, structures, equipment, materials, and lands used in NRC licensed activities. The primary alternative to rulemaking is to continue case-by-case evaluations based on regulatory guides until such time as EPA may establish such standards. The proposed rule is intended to ensure that buildings, structures, equipment, materials, and lands used in NRC licensed activities will be decommissioned and decontaminated in a consistent manner that protects public health. The cost analysis for this proposal is being completed.

Legal Authority: 42 USC 2201; 42 USC 2282; 42 USC 5841; 42 USC 5846

CFR Citation: 10 CFR 21; 10 CFR 50

Abstract: This proposed rule would amend Part 21 and sec. 50.55(e) both of which require the reporting of safety defects by licensees. This effort was prompted by TMI Action Plan Task II.J. 4 and has as its main objectives: (1) elimination of duplicate reporting among all requirements, (2) consistent reporting among all reporting requirements, (3) establishment of uniform and clear definitions for defects which need to be reported, (4) establishment of uniform time limits within which a defect must be reported and evaluated and, (5) establishment of uniform content for reporting of defects. Approximately 450 to 500 reports are issued annually under Part 21 and sec. 50.55(e) respectively. The reports identify plant-specific safety concerns and potential generic safety concerns for further NRC followup. These reports form the basis for numerous NRC bulletins and information notices. This proposed rulemaking will reduce the potential for duplicate reporting and evaluation that now exists and will establish a more coherent regulatory framework that is expected to reduce industry and NRC burden in this area without sacrificing safety effectiveness. Current costs of reporting under Part 21 and section 50.55 (e) are estimated at $12,400,000 annually for industry and $2,900,000 annually for NRC evaluations. It is anticipated that industry reporting burden with the proposed rulemaking will be reduced by 36,800 hours or $2,208,000 while NRC burden should be increased by $100,000. Additional burden to industry and NRC, while minimal, is anticipated in the areas of adherence to time schedules, and enforcement, recordkeeping respectively.

Abstract: The final rule revises current regulatory requirements regarding the frequency of formal publication of changes to the Access Authorization Fees charged by NRC. Currently, section 25.17 states that revised fees will be published in the Federal Register during July of each year. A more accurate and efficient regulatory requirement would be to revise the access authorization fee schedule concurrent with the Office of Personnel Management's (OPM) notification to NRC of its background investigation rate changes since NRC's fees are wholly dependent on the rate charged by OPM.

CFR Citation: 10 CFR 30; 10 CFR 32; 10 CFR 40; 10 CFR 70

Abstract: The proposed rule would require manufacturers or distributors of sealed sources or devices containing sealed sources to obtain a license from the NRC prior to the initial transfer of the sealed sources or devices to specific licensees. The rule would also require manufacturers or distributors of sealed sources or devices to provide the NRC with information on such products relating to design, manufacture, testing, operation, safety and hazards as a condition for obtaining a license. If the proposed requirements were applied to the 800 material license applications and amendments reviewed in 1982 as a statistical base, total costs to suppliers would rise from $148,025 under the current voluntary program to $152,950. At the same time, the proposed rule would eliminate the $48,000 cost to material licensees of preparing 800 license amendments.

NRC plans to terminate this rulemaking and develop an alternative means to modify the licensing process for sealed sources and devices that would be less costly to the industry and more effective in reducing the NRC workload.

4011. + RADIATION SURVEYS AND IN-HOUSE INSPECTION SYSTEMS IN RADIOGRAPHY

Legal Authority: 42 USC 2111; 42 USC 2201; 42 USC 2232; 42 USC 2233; 42 USC 5841

CFR Citation: 10 CFR 34

Abstract: The proposed rule would require that the in-house inspection description in a radiography license application specify a method for inspecting each radiographer and radiographer's assistant's knowledge of applicable regulations, license conditions, and performance of established procedures at intervals not exceeding three months. This action is intended to further ensure that radiographic operations are conducted safely.

The cost of performing the inspection is estimated to be $120.00 per worker or $432,960 per year for the entire industry. There is no impact on the NRC staff. The proposed rule would also require a licensee to perform and record a radiation survey of a radiographic exposure device made when storing the device after use instead of recording the results of the radiation survey made after the last exposure. This action, which is taken in response to a petition for rulemaking (PRM-34-3) is intended to provide an acceptable procedure for assuring that the sealed source has been properly stored within the device.

Alternatives to rulemaking were considered including preparation of guidance recommending a time-of-storage survey or

Requiring an additional radiation survey at the time of storage provides additional assurance that accidental exposures will not occur to members of the public as well as workers. The cost of this survey requirement to the entire industry is estimated to be $541,200 annually ($150.00 per radiographer). There are no additional recordkeeping costs. Impact on NRC staff is negligible since inspectors will review the time-of-storage survey record rather than the last use survey record. NRC staff time for processing this rule to final publication is estimated to be 0.4 staff years.

Twenty comments were received on the proposed rule, most of which were opposed to the three month inspection of radiographers with a roughly 50-50 split on the storage survey issue.

4012. EXTENSION OF CRIMINAL PENALTIES

Legal Authority: 42 USC 2201

CFR Citation: 10 CFR 50

Abstract: The proposed rule, in accordance with the provisions of the NRC Authorization Act for Fiscal Year 1980, would extend the application of the criminal penalties provision of the Atomic Energy Act (AEA) of 1954, as amended, to any individual director, officer, or employee of a firm constructing or supplying the components of a nuclear power plant who knowingly and willfully violates any NRC regulation, order, or license condition during construction of a nuclear power plant. Section 223(b) of the AEA essentially directs the Commission to establish a limit for potential unplanned off-site releases of radioactive material which would trigger consideration of possible criminal penalties. As directed in Section 223(b)(3), the proposed rule establishes in its definition of a "basic component," the limits for potential unplanned releases of radioactive material that could trigger application of criminal penalties.

Independent review resulted in recommendation that this rule be terminated.

4013. PRIMARY REACTOR CONTAINMENT LEAKAGE TESTING FOR WATER-COOLED POWER REACTORS

Legal Authority: 42 USC 2133; 42 USC 2134; 42 USC 5841

CFR Citation: 10 CFR 50

Abstract: The proposed rule would update and revise the 1973 criteria for preoperational and periodic pressure testing for leakage of primary and secondary containment boundaries of water-cooled power reactors. Problems have developed in application and interpretation of the existing rule. These result from changes in testing technology, test criteria, and a relevant national standard that needs to be recognized. It is proposed to revise the rule as noted to make it current and improve its usefulness.

The revision is urgently needed to resolve continuing conflicts between licensees and NRC inspectors over interpretations, current regulatory practice which is no longer being reflected accurately by the existing rule, and endorsement in the existing regulation of an obsolete national standard that was replaced in 1981.

The benefits anticipated include elimination of inconsistencies and obsolete requirements, and the addition of greater usefulness and a higher confidence in the leak-tight integrity of containment system boundaries under post-loss of coolant accident conditions. The majority of the effort needed by NRC to

4014. + RADON 222 ESTIMATE FOR TABLE S-3

Legal Authority: 42 USC 2201; 42 USC 5841; 42 USC 5842

CFR Citation: 10 CFR 50; 10 CFR 51

Abstract: In a Federal Register notice published on April 14, 1979, the Commission deleted the radon-222 value from Table S-3 because it was recognized to be underestimated. Pending rulemaking action to provide a new estimate for radon-222 in Table S-3, the environmental effects of radon are subject to litigation in individual nuclear power plant licensing proceedings. The purpose of the proposed rule would be to deal with this question generically for all nuclear power plants, thus saving the time and cost of repetitive consideration of the effects of radon-222 in individual nuclear power plant licensing proceedings. The only alternative to generic treatment of the environmental impact of radon-222 is to continue to allow these environmental impacts to be brought into litigation in individual licensing cases. By the proposed rulemaking action, new estimates for the environmental releases of rn-222 will be added to Table S-3, and the narrative explanation of Table S-3 will be modified accordingly. This will complete Table S-3 and will remove all environmental impacts of the uranium fuel cycle from further consideration and litigation in individual nuclear power plant licensing cases. (cont)

4015. GENERAL DESIGN CRITERION ON HUMAN FACTORS

Legal Authority: 42 USC 2201; 42 USC 5846

CFR Citation: 10 CFR 50

Abstract: The proposed rule would establish a new general design criterion on human factors considerations. The specific factors to be addressed include operability, surveillance, maintainability, and human engineering criteria. The revised human factors criterion is necessary because post-TMI reviews and operating experience indicate that the human factors discipline is rarely applied when needed at the design and construction stage.

Alternatives to the proposed criterion are described in the Regulatory Analysis and include (1) continuation of the current ad hoc requirements; (2) modification to specific existing criteria in 10 CFR Part 50, Appendix A; and (3) delaying action until the development of an industry standard and preparing a regulatory guide to document the NRC position.

Alternative 1 may not meet the objective of timely incorporation of sound human factors principles into the design, construction and operation of nuclear power plants; alternative 2 would probably prove more costly and less efficient to implement, and alternative 3 may not implement the human factors principles in the time frame recommended by TMI investigative groups. (cont)

Next Action Undetermined		

Small Entity: Not Applicable

Additional Information: ABSTRACT CONT: When all effects of the proposed Human Factors General Design Criterion are quantitatively evaluated, a net benefit is expected. The results indicate that the nuclear industry will experience an overall cost increase as a result of applying human factors principles to the design, installation and operation of an average system. However, new plants that have human factors principles applied throughout the entire design, construction, and operations phases can

expect a net savings of $1.1 million on each system. Operating plants or plants with an already approved design that apply human factors principles to new or replacements systems may experience a net cost increase of about $3.1 million.

A qualitative analysis for this proposed rule showed that benefits will accrue in the areas of occupational exposure, public health, regulatory efficiency and economic risks to onsite and offsite property.

4016. STATION BLACKOUT

Legal Authority: 42 USC 2133; 42 USC 2134; 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 50

Abstract: NRC is proposing to amend its regulations to require light water nuclear power plants to be capable of withstanding a total loss of alternating current (AC) electrical power, called Station Blackout, to the essential and nonessential switchgear buses for a specified duration. A proposed regulatory guide, to be issued at the same time as the proposed rule, would provide guidance on how to determine the duration.

The proposed requirements were developed in response to information generated by the Commission's study of Unresolved Safety Issue A-44, Station Blackout. The proposed rule is intended to provide further assurance that a loss of both off-site and emergency on-site electric AC power systems will not adversely affect the public health and safety.

A regulatory analysis has been prepared for the proposed rule. The estimated public risk reduction is 80,000 person-rem over 25 years, and the estimated total cost for industry to comply with the proposed rule is $40 million. This results in an overall cost benefit ratio of about 2,000 person-rem per million dollars.

Legal Authority: 42 USC 2201

CFR Citation: 10 CFR 50

Abstract: This proposed rule would amend the regulations which establish the procedures for submitting correspondence, reports, applications, or other written communications pertaining to the domestic licensing of production and utilization facilities.

The proposed amendments are expected to resolve confusion regarding submittal procedures and improve the communication process with the affected applicants and licensees.

The proposed amendments would (1) simplify the procedures for making Part 50 submittals to the NRC; (2) facilitate the timely dissemination of Part 50 submittals to NRC staff; (3) reduce postage and copying costs for applicants and licensees by requiring fewer copies of submittals; (4) establish a central NRC receipt point for Part 50 submittals; (5) include the NRC Resident Inspectors in the formal communications; and (6) supersede all outdated submittal directions contained in other sources of submittal guidance, such as Regulatory Guide 10.1 (Revision 4) and NRR Generic Letter 82-14. Although these documents addressed the problem, they did not entirely resolve the confusion. Moreover, subsequent changes in the (cont)

The current regulations also cause unnecessary delays in the dissemination of information to NRC staff. For example, any document submitted to an NRC Regional Office will not usually be disseminated to NRC Headquarters staff until two weeks later.

These problems can be resolved only by amending 10 CFR Part 50, since the current regulations are the source of the problems. The proposed rule is expected to reduce postage and copying costs for licensees and applicants subject to 10 CFR Part 50. An annual savings of $140,000 is estimated. In

4018. + DELETION OF THE UNUSUAL EVENT EMERGENCY CLASSIFICATION

Legal Authority: 42 USC 2133; 42 USC 2234; 42 USC 5841

CFR Citation: 10 CFR 50

Abstract: The proposed rule would delete the "Unusual Events" emergency class from the Commission's emergency classification scheme. The current emergency classifications are: (1) notification of unusual events, (2) alert, (3) site area emergency and (4) general emergency. This emergency classification scheme has been used by the NRC, FEMA, licensees and State and local governments for at least four years. During this time, the Commission has noted that the reporting of unusual events not only significantly strains the NRC resources, but tends to establish a "cry wolf" syndrome with State and local governments. The NRC emergency operations center receives approximately 20 notifications of unusual events per week. The purposes of the unusual events offsite notifications are to (1) assure that the first step in any response later found to be necessary has been carried out, (2) bring the operating staff to a state of readiness, and (3) provide systematic handling of unusual events information and decision-making. All of these purposes are redundant to the purposes and required licensee actions associated with the "alert" classification. (cont)

Additional Information: ABSTRACT CONT: One alternative to the proposed rule would be to not remove the unusual events classification. Another alternative simply would be to delete the unusual event from NUREG-0654. These alternatives would not satisfactorily accomplish the staff's objectives. The staff believes that the deletion of the "unusual events" classification would not impair or decrease the state of preparedness at nuclear power plants. The proposed change would require the NRC to approve revised emergency plans. However, the staff believes that the deletion of "unusual events" will represent a substantial savings to the industry both in dollars and in human resources, approximately one-half staff year per plant. The NRC resources expended through 1985 in order to develop this rulemaking will be approximately two staff-years, or $120,000 per year.

Legal Authority: 42 USC 5841; 42 USC 5842; 42 USC 5846

CFR Citation: 10 CFR 50

Abstract: The Nuclear Regulatory Commission proposes to clarify its regulations on the use of the terms "important to safety" and "safety related" by adding two new definitions to 10 CFR Part 50 and by discussing how these definitions will be applied in NRC licensing reviews. Significant issues concerning the meaning of these terms as they are used in this part have arisen in Commission licensing proceedings. This proposed rule would define these terms and clarify the nature and extent of their effect on quality assurance requirements, thereby resolving these issues. The rulemaking should not impact licensees or the public because it clarifies existing requirements. The additional burden on NRC to prepare and implement this rule will be very nominal because current practices will not be changed.

4020. ● BROAD SCOPE MODIFICATION OF GENERAL DESIGN CRITERION 4 REQUIREMENTS FOR PROTECTION AGAINST DYNAMIC EFFECTS OF POSTULATED PIPE RUPTURES

Legal Authority: 42 USC 2201; 42 USC 5846

CFR Citation: 10 CFR 50

Abstract: The proposed broad scope modification of General Design Criterion 4 (GDC 4) would allow demonstration of piping integrity by analyses to serve as a basis for excluding consideration of dynamic effects associated with pipe ruptures. A proposed rule published July 1, 1985 (50 FR 27006) was limited to the primary loops of pressurized water reactors

(PWRs), whereas this proposed rule would cover all high energy piping in all light water reactors (LWRs). The modification will permit the general but selective removal of pipe whip restraints and jet impingement shields from operating plants, plants under construction and future plant designs, but will not impact other design requirements.

The only alternatives to rulemaking would be the granting of partial exemptions to GDC 4 or reinterpretation of the text of the existing rule. The staff has, however expressed that extensive use of exemptions to authorize the elimination of pipe whip restraints is inappropriate. Therefore, it appears most appropriate to undertake rulemaking at this time.

4021. ● + PART 51; CONFORMING AMENDMENTS

Legal Authority: 42 USC 10101

CFR Citation: 10 CFR 51; 10 CFR 60

Abstract: The proposed rule would provide procedures for performing an environmental review of High Level Waste geologic repositories. Part 51 contains no provisions for the environmental review of a license application for a HLW repository. The Nuclear Waste Policy Act of 1982 established requirements for environmental reviews which are at variance with the environmental review which NRC perform in licensing other types of nuclear facilities. This issue must be addressed in order to avoid delay in the U.S. HLW Program. The proposed rule would benefit the public, industry, and NRC by clarifying licensing procedures, thus avoiding case determinations and possible litigation during HLW geologic repository licensing. Minor revisions to Part 60 will be necessary to conform to the environmental requirements of the NWPA. Alternatives are to take no action, issue an ANPRM, or ask Congress for additional legislation.

4022. ● + DEFINITION OF HIGH-LEVEL RADIOACTIVE WASTE (HLW) IN 10 CFR PART 60

Legal Authority: 42 USC 10101

CFR Citation: 10 CFR 60

Abstract: This advance notice of proposed rulemaking (ANPRM) seeks to revise the definition of HLW in Part 60 to reflect certain changes in the legal definition of HLW contained in the Nuclear Waste Policy Act of 1982. Because of the complex issues involved in revising the definition of HLW, which affects virtually the entire radioactive waste management system, the staff is proposing an ANPRM rather than a proposed rule. A revision of the definition of HLW would affect DOE's plans for a geologic repository, State plans for regional compacts to manage low-level waste, Federal vs. State responsibility for some above Class C wastes, costs of waste disposal for certain waste generators, and the development of new technologies and facilities to dispose of certain types of wastes. A definition of HLW which reduces uncertainty about responsibility for different types of wastes would benefit the radioactive waste management system. NRC staff time for processing this rule is estimated to be 4 staff years. Alternatives to rulemaking would be to take no action or request Congress to amend the NWPA. The rulemaking would eliminate uncertainty and reduce costs for the public, industry, and NRC.

4023. ● ELIMINATION OF INCONSISTENCIES BETWEEN NRC REGULATIONS AND EPA STANDARDS

Legal Authority: 42 USC 10101

CFR Citation: 10 CFR 60

Abstract: The Nuclear Waste Policy Act of 1982 directs NRC to promulgate criteria for the licensing of HLW geologic repositories. By section 121 (c), these criteria must not be inconsistent with standards to be developed by EPA for the disposal of HLW in deep geologic repositories. This proposed rule is needed in order to eliminate several inconsistencies with the EPA standards, thus fulfilling the statutory requirement. The EPA Standard is scheduled to be promulgated in August, 1985. The alternative is to ask Congress to amend the NWPA. The public, industry, and NRC will benefit from eliminating inconsistencies in Federal HLW regulations.

4025. + SPECIAL NUCLEAR MATERIAL PHYSICAL INVENTORY SUMMARY REPORTS

Legal Authority: 42 USC 5841

CFR Citation: 10 CFR 70

Abstract: The NRC is amending its regulations in section 70.53 to require affected licensees to report data summarizing the results of physical inventories of special nuclear material (SNM). The affected licensees are required by section 70.51 to conduct the physical inventories but would be required by section 70.53 to report the summary of the results. In the past, licensees voluntarily provided this information, which is used to determine compliance with NRC regulations and to provide data for NUREG- 0430, "Licensed Fuel Facility Status Report." Without a regulatory requirement or without licensee's voluntary submittals, NRC would have to conduct inspections to acquire SNM physical inventory data. In conjunction with this rulemaking, the form that licensees use to report summaries of SNM physical inventory data has been modified to include definitions of required data elements.

Since the affected licensees are already supplying this information voluntarily, there will be no additional costs to these licensees.

CFR Citation: 10 CFR 71

Abstract: The proposed rule would define two classes of LSA materials with specified shipping or packaging requirements. The two classes represent a consolidation of five classes of LSA materials and solid contamination objects (SCO) now in the 1985 regulations of the International Atomic Energy Agency (IAEA). In addition, the proposed rule provides special consideration for the inherent safety associated with the shipment of solid, nonflammable objects which are not dispersible in water. A new requirement of the amended rule would impose a dose rate limit on LSA materials. This requirement, which is philosophically consistent with the proposed IAEA regulations, is considered necessary to keep current and future LSA shipments within the envelope of safety originally conceived for such materials. This proposed rule would be responsive to PRM-71-1, PRM-71-2 and PRM-71-4. A regulatory analysis is currently being developed by the staff.

4027. + PHYSICAL PROTECTION REQUIREMENTS FOR INDEPENDENT SPENT FUEL STORAGE INSTALLATIONS (ISFSIS)

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 73

Abstract: Requirements for the physical protection of spent nuclear fuel at independent storage sites are currently contained in 10 CFR 73.50. Those requirements were originally developed for a broad range of materials and facilities, and were not developed specifically for independent spent fuel storage installations (ISFSIs). Preliminary studies, some of which are related to transportation and require extrapolations to fixed installations, indicate that some of the current requirements for ISFSIs may not be at the appropriate level. If ongoing assessments confirm that existing regulations should be changed to be more commensurate with the consequences of a sabotage attack, a proposed performance-oriented rule would be developed to allow licensees the flexibility of using the most cost-effective measures available to meet the regulatory requirements. The necessity and urgency of addressing this issue is to have safeguards requirements in place that are commensurate with the risk of storing spent nuclear fuel in dry casks at reactor sites. An alternative to rulemaking is to continue use of the existing regulations, issuing exemptions and adding license (cont)

In accordance with NRC Policy and Planning Guidance, rulemaking is to be utilized when numerous licensees are affected. As work on resolution of the technical issues continues, analyses regarding the effects of the rule on the public, industry and NRC will be developed. It will take about one year to publish a final rule after the Commission approves the proposed rule for publication. The estimated resources needed from now until a final rule is prepared are approximately 1-1/2 staff years.

Legal Authority: 42 USC 2201; 42 USC 5842

CFR Citation: 10 CFR 70; 10 CFR 72; 10 CFR 73; 10 CFR 74

Abstract: The proposed rule would amend reporting requirements of section 73.71 for reports of unaccounted for shipments, suspected thefts, unlawful diversion, and other safeguards events. The staff has found the present requirements confusing to licensees and, therefore, difficult for licensees to properly implement. These difficulties have contributed to safeguards event reports that lack uniformity and contain insufficient data for NRC analysis purposes. Safeguards event reporting requirements are necessary to permit timely response by the NRC to safeguards incidents and to identify possible generic deficiencies in safeguards systems. Until the requirements for reporting are clarified and simplified, the problems identified above will continue to exist. This is considered to be a matter of moderate urgency. An alternative to rulemaking is issuance of additional or revised guidance on the present requirement. However, such guidance would lack regulatory authority. Since the problems have arisen over the abstract nature of the present requirement, it appears the best solution is to correct the source of the problem by amending the existing rule. The proposed amendments redefine, in (cont)

The current 24 hour telephonic notification is deleted. All events would be either telephonically reported within one hour or logged in licensee records to be submitted to the NRC quarterly. Concurrent with the rule revision, a revised regulatory guide is being developed which provides a format for reporting to the NRC and gives examples of what types of events should be reported and under what category.

There is expected to be no cost impact to the public. Benefits to licensees will be clearer, simpler regulations, and a reduction in telephonic and written report making. While the proposed regulations will require more detailed, standardized written reports, the reduction in the number of telephone and written reports is expected to result in a net cost decrease to industry of $641.600 incurred on an annual basis.

Legal Authority: 42 USC 2201

CFR Citation: 48 CFR 20

Abstract: The proposed rule would implement and supplement 48 CFR, Federal Acquisition Regulation (FAR) System and specify those agency policies, procedures, contract clauses, solicitation provisions, and forms governing the contracting process. In publishing the proposed rule, the NRC will comply with P.L. 98-577 and the FAR 1.303 which requires that agency regulations be published in the Federal Register and codified in 48 CFR. The proposed rule will enable prospective contractors to become familiar with NRC contracting regulations and enable the preparation of contractual documents which protect the interest of the NRC. NRC resources needed for this rulemaking are estimated at 1,120 staff hours at an estimated cost of $67,200.

Legal Authority: 42 USC 2201; 42 USC 2231; 42 USC 2241; 42 USC 5841

CFR Citation: 10 CFR 2

Abstract: This final rule amends the Commission's rule of practice by revising NRC procedures contained in Sections 2.804 and 2.805 to clarify the Commission's use of the exceptions to notice and comment rulemaking contained in the Administrative Procedure Act (5 U.S.C. 553(b)). Exception to notice and comment rulemaking may be applied (1) to interpretive rules, general statements of policy, or rules of agency organization, procedure, or practice (5 U.S.C. 553(b)(A)) or (2) when the agency for good cause finds that notice and comment are impracticable, unnecessary, or contrary to the public interest (5 U.S.C. 553(b)(B)). This clarification is necessary in light of the U.S. Court of Appeals for the District of Columbia decision in Union of Concerned Scientists v. Nuclear Regulatory Commission, No. 82-2000 (D.C. Cir. June 30, 1983) which vacated a Commission rulemaking on the Environmental Qualification of electrical equipment. The court held that by making the rule immediately effective, instead of providing for notice and comment, the NRC had among other things, violated 10 CFR 2.804 of the Commission regulations which the Court read as a requirement for notice and comment in all (cont)

CFR Citation: 10 CFR 20

Abstract: The proposed rule would have removed a discretionary clause that requires each NRC licensee to report a loss or theft of licensed material only when it appears to the licensee that the loss or theft would pose a substantial hazard to persons in an unrestricted area. The proposed rule would have provided increased radiological safety to the public by requiring that all losses or thefts of licensed material be reported to the NRC if the loss exceeds the minimum quantity specified in the regulations. The issues addressed in this proposed rule will be incorporated into the comprehensive revision of Part 20.

Abstract: The NRC has amended its regulations in order to implement the provisions of the Convention on the Physical Protection of Nuclear Material. Since NRC is responding to implementing legislation enacted by Congress and signed by the President, no alternatives were considered. The amendments will require (1) the physical protection of transient shipments of special nuclear material of moderate and low strategic significance and irradiated reactor fuel, (2) advance notification to NRC concerning the export of Convention-defined nuclear materials, (3) advance notification and assurance of protection to NRC concerning the importation of Convention- defined nuclear materials from countries that are not parties to the Convention, and (4) advance notification and assurance of protection concerning transient shipments of Convention-defined nuclear material shipped between countries that are not parties to the Convention. The amendments will improve security for Convention-defined nuclear material during international transport. (cont)

4033. PRESSURIZED THERMAL SHOCK

Legal Authority: 42 USC 2133; 42 USC 2134; 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 50

Abstract: The final rule codifies the NRC staff's recommended near-term actions for protection against pressurized thermal shock (PTS) events. Specifically, the provisions of the final rule establishes screening criteria for axial and circumferential welds; require licensees with operating plants to submit data concerning their reactor vessels to the NRC staff for review; require certain licensees to submit an analysis and schedule for implementation of flux-reduction programs; and require certain licensees with operating pressurized water reactors (PWRs) to submit a PTS safety analysis to the NRC staff for review. The issue of pressurized thermal shock arises because in PWR's, transients and accidents can occur that result in severe overcooling (thermal shock) of the reactor pressure vessel concurrent with, or followed by, repressurization. In these PTS events, rapid cooling of the reactor vessel internal surface results in thermal stress with a maximum tensile stress at the inside surface of the vessel. The provisions of the final rule applies only to PWRs. The major considered alternative to the rule was to take no action.(cont)

Legal Authority: 42 USC 2201; 42 USC 5842; 42 USC 10141

CFR Citation: 10 CFR 60

Abstract: The Nuclear Regulatory Commission (NRC) is publishing amendments related to the disposal of high-level radioactive wastes in geologic repositories within the unsaturated zone. These amendments, in addition to the existing provisions of 10 CFR Part 60 ensure that the regulations will apply in an appropriate manner to geologic media within either the saturated or the unsaturated hydrogeologic zone. This action is necessary to ensure that the NRC regulations address considerations relevant to all geologic repositories, whether sited in the saturated or the unsaturated zone. The major benefit of the final amendments provides NRC with the maximum flexibility with respect to reviewing license applications for high-level radioactive waste disposal.

CFR Citation: 10 CFR 35

Abstract: As new uses for FDA approved drugs are developed, the NRC is amending its regulations to provide physicians an exception from its requirement to use a radiopharmaceutical only for the methods of use listed on the package label. This rule will facilitate potentially beneficial new uses of approved drugs. The only alternative to the rulemaking was to amend individual licenses to authorize these new methods of use which would have consume an inordinate amount of staff time. The final rule allows NRC licensed physicians to use certain currently available diagnostic radiopharmaceuticals for some recently developed methods of use that are not listed on the respective package labels.

Legal Authority: 42 USC 2201; 42 USC 5841; 5 USC 552b

CFR Citation: 10 CFR 9

Abstract: The interim final rule conforms the Commission's definition of a "meeting" under the Government in the Sunshine Act (5 USC 552 more closely to the statutory intent, as set forth in the language of the Act, its legislative history, and the unanimous 1984 decision of the United States Supreme Court in Federal Communications Commission v. ITT World Communications, U.S., 104 S.Ct. 1936. The Commission believes that these proposed changes would serve to effectuate the Congressional intent that background briefings and generalized discussions of agency business not be considered "meetings" for Sunshine Act purpose, and that adherence to statutory standards will help assure both fuller information for the Commissioners and greater collegiality in their performance of their duties.

Legal Authority: 42 USC 2133; 42 USC 2134; 42 USC 2201; 42 USC 5851

CFR Citation: 10 CFR 50

Abstract: The Nuclear Regulatory Commission revised its emergency planning and preparedness regulations for nuclear power reactors in response to a decision by The United States Court of Appeals for the District of Columbia Circuit in Union of Concerned Scientists v. NRC, 735 F.2d 1437 (D.C. Cir. 1984). The decision vacated NRC's 1982 amendment (47 FR 30232, July 13, 1982), which stated that emergency preparedness exercises were part of the operational inspection

process. This revision amends the regulations to the effect that the results of pre-licensing emergency preparedness exercises may be subject to litigation before the Licensing Board rather than part of the inspection process.

Abstract: The final rule would amend the NRC's regulations pertaining to the domestic licensing of production and utilization facilities in order to rearrange the definitions section, which is currently arranged by alphabetical designators, into an undesignated alphabetical listing. This rearrangement will be easier to locate, read, and amend. In addition, cross references to specific paragraphs in 10 CFR 50.2 are being revised in Parts 1, 20, and 50 to reflect the removal of designated paragraphs. The Secretary will be required to consult with the Commission before granting an appeal. CFR Citation: 10 CFR 110

Abstract: The final rule amends the regulations applicable to the import and export of nuclear equipment and material to clarify the identification of components that are especially designed or prepared for use in a nuclear fuel reprocessing plant and are therefore subject to the Commission's export licensing authority. The final rule is necessary to implement the recent decision of the multilateral Non-Proliferation Treaty Exporters Committee (Zanneger Committee) to add four new definitions to its international export control Trigger List covering specially designed or prepared reprocessing plant components.

Regulatory Flexibility Agenda and Rules Scheduled for Review

AGENCY: Securities and Exchange Commission.

ACTION: Publication of regulatory flexibility agenda and rules scheduled for review.

SUMMARY: The Securities and Exchange Commission is today publishing an agenda of its open and anticipated rulemaking actions, pursuant to Chapter Six of the Administrative Procedure Act and Office of Management and Budget Bulletin 85-21. The agenda is a general announcement to the public intended to provide advance notice of rulemaking actions which may have a significant economic impact on a substantial number of small entities. The Commission is also publishing a list of rule reviews anticipated to be completed during the next twelve months. The Commission invites questions and public comment on individual agenda entries.

DATE: Public Comments are due by December 31, 1985.

ADDRESSES: Persons wishing to submit written views should file three copies with John Wheeler, Secretary, Securities and Exchange Commission, 450 5th Street, N.W., Room 6184, Stop 6-9, Washington, D.C. 20549. All submissions should refer to File No. S7-38-85, and will be available for public inspection at the Commission's Public Reference Room, Room 1026, at the same address.

FOR FURTHER INFORMATION CONTACT: Joseph A. Meiburger, Jr., Directorate of Economic and Policy Analysis, Securities and Exchange Commission, 450 5th Street, N.W., Room 7169, Stop 7-6, Washington, D.C. 20549 (202-272-7110). Additional names of persons to contact are identified with each entry.

SUPPLEMENTARY INFORMATION: The Regulatory Flexibility Act ("RFA") (Pub. L. No. 96-354, 94 Stat. 1164 [September 19, 1980]) requires each federal agency during April and October of each year to publish in the **Federal Register** a regulatory flexibility agenda identifying rules which the agency expects to propose, adopt or review which are likely to have a significant economic impact on a substantial number of small entities (the "significant impact criterion").[1] Part I of this agenda contains 58 entries for all open and anticipated rulemaking actions which may meet this criterion.

The RFA also requires the review of existing rules.[2] The Commission published in June 1981 a plan for the periodic review of all rules issued by the agency which may meet the significant impact criterion.[3] The plan provides for the review of all such rules in effect on January 1, 1981 within ten years of that date and for the review of such rules adopted thereafter within ten years of their adoption as final rules. The RFA further requires publication each year of a list of those rules which are to be reviewed during the succeeding twelve months.[4] Part II of the agenda contains 4 of these entries. The Commission's continuing review of its rules, begun before the effective date of the statute (January 1, 1981), extends beyond the requirements of the RFA. Consequently, some rules listed in this part of the agenda may not be required to be reviewed. The Commission is identifying them here in order to inform the public of its intention to review them. Part III of the agenda identifies the 7 rulemaking actions and 15 rule reviews which have been completed since the last RFA release was approved by the Commission on February 27, 1985.[5] The agenda relies on the definitions of the term "small entity" for purposes of the RFA which were adopted by the Commission for the various categories of regulated entities.[6]

The statute specifically provides that the agenda does not preclude the Commission from considering or acting on any matter not included, nor is the Commission required to consider or act on any matter which is included.[7] Furthermore, the inclusion of a rule in the Commission's agenda reflects only the staff's preliminary judgment that the rule, if adopted or as it exists, may have a significant economic impact on a substantial number of small entities. This preliminary judgment may be changed upon further analysis.

Below is an index of the Commission's entries to this October 1985 Unified Agenda of Federal Regulations. The agenda contains new entries as well as items carried over from the April 1985 publication. New entries are marked with an asterisk. Copies of this preamble and a list of the entries (including next action dates and identifying a staff contact) are available from the Commission's Office of Public Affairs (Room 1015). The entries themselves are also available for inspection and copying in the Public Reference Room (Room 1026) (File S-7-38-85), as noted above.

The Commission invites public comment on the individual entries in its agenda of rulemaking actions and rules scheduled for review in 1986.

By the Commission.

August 28, 1985.

Secretary.

CFR Citation: 17 CFR 210

Abstract: The staff is considering whether to recommend that the Commission propose rules calling for increased disclosure of off-balance sheet financing arrangements. During recent years off-balance sheet financing arrangements have increased in number and complexity, and disclosure of such arrangements may currently appear in various places throughout the financial statement footnotes. The identification and analysis of the aggregate impact of the various types of arrangements may therefore be difficult. The staff is considering various alternatives - including possible centralized footnote disclosure - to provide for improved disclosure of the effects of off-balance sheet financing arrangements. The concept for such improved disclosure was announced in Securities Act Release No. 6514 (49 FR 6737; February 23, 1984).

4055. PROPOSALS REGARDING INDUSTRY SEGMENT AND OTHER INTERIM FINANCIAL REPORTING MATTERS, MANAGEMENT'S DISCUSSION AND ANALYSIS, AND OFF BALANCE SHEET FINANCING DISCLOSURES

Legal Authority: 15 USC 77f; 15 USC 77g; 15 USC 77h; 15 USC 77j; 15 USC 77s(a); 15 USC 77aa(25) and (26); 15 USC 78l; 15 USC 78m; 15 USC 78o(d); 15 USC 78w(a); 15 USC 79e(b); 15 USC 79n; 15 USC 79t(a); 15 USC 80a-8; 15 USC 80-29

CFR Citation: 17 CFR 210.5-02; 17 CFR 210.10-01; 17 CFR 210.11-02; 17 CFR 229.303

Abstract: The Commission proposed amendments to require (1) presentation of certain industry segment information for interim periods; (2) a discussion of reportable segments in management's discussion and analysis; and (3) modifications of other miscellaneous interim reporting requirements. The release also provides advance notice of possible future rulemaking regarding (1) additional segment reporting disclosures and (2) uniform disclosure of off balance sheet financing arrangements. The proposals are designed to enhance analysis of financial information. They may entail some new recordkeeping but any such costs have not been determined. The Commission's interim reporting rules will be reviewed as a part of this action.

CFR Citation: 17 CFR 210.9; 17 CFR 231; 17 CFR 241

Abstract: The staff is considering whether to propose amendments to Industry Guide 3, statistical disclosure by bank holding companies and Article 9 of Regulation S-X. The formation of savings and loans holding companies has increased during the past several years to the point where approximately 60 savings and loan holding companies file with the Commission. In addition, a number of other registrants own savings institutions. The Commission's regulations do not specifically address the filing requirements for savings and loans, which have certain practices peculiar to the industry. The amendments, if proposed, would focus on disclosure requirements to enhance the comparability among registrants.

Abstract: The Staff is considering whether to recommend that the Commission propose amendments to Item 304 of Regulation S-K and related forms and schedules to remove the dependence of that item on the prior filing of a Form 8-K. Presently, certain registrants who had no Form 8-K filing requirement at the time a change in accountants occurred are not specifically required to provide Item 304 disclosure regarding disagreements with their former accountants. The amendments, if proposed, would provide for such disclosure in initial public offerings among other filings.

CFR Citation: 17 CFR 231; 17 CFR 241

Abstract: The staff is considering whether to propose an amendment to Industry Guide 3, statistical disclosure by bank holding companies. Since 1982, a number of foreign countries have restructured significant portions of their debt owed to multinational consortiums of financial institutions. These restructurings can impact individual bank holding companies differently because of the relative exposures to these foreign countries. The amendment, if proposed, would focus on uniform disclosures of the terms of the restructurings and the impact to the bank holding company. This disclosure would enhance the comparability between registrants.

4060. SMALL ISSUER PERIODIC REPORTS

Legal Authority: 15 USC 77s(a)

CFR Citation: Not yet determined

Abstract: The Securities Exchange Act of 1934 (the "Exchange Act") imposes periodic reporting requirements on companies subject to Sections 13(a) and 15(d) of the Exchange Act. Because these reporting requirements may not be entirely appropriate for companies of all sizes, the Commission plans to review the Exchange Act reporting system as it pertains to small businesses, with a view toward relieving certain small businesses from some of the requirements therein. The Commission has not yet determined the alternatives available or the costs of revising these requirements.

Legal Authority: 15 USC 77g; 15 USC 77j; 15 USC 77s(a)

CFR Citation: 17 CFR Not yet determined

Abstract: Currently, there are no disclosure requirements specially tailored for issuers of partnership interests. Thus, they currently must refer to requirements which have been designed for use by corporations. Special disclosure requirements have developed as a matter of administrative practice. These requirements differ depending upon the type of partnership interest involved. This project will involve development of uniform disclosure requirements for all varieties of partnership offerings, with a focus on those characteristics common to all or most limited partnerships, such as tax implications. It also will involve codification of informal practices and streamlining of registration to the extent appropriate. These efforts are expected to facilitate the preparation of registration statements concerning such interests and to improve the disclosure provided to investors.

Legal Authority: 15 USC 77s Securities Act

CFR Citation: 17 CFR 230.100 to 230.180

Abstract: The Commission is conducting a "sunset" review of the thirty-nine rules contained in the "100 series" of general rules under the Securities Act. Generally, these rules define key terms used in the Securities Act. The object of this review is to eliminate any inconsistencies, to delete unnecessary, outmoded or duplicative rules and to update and revise the remaining provisions. Abstract: The rule is being examined in response to informal requests from the public that its scope be broadened. Abstract: The Securities Act of 1933 ("Securities Act") requires securities to be registered with the Securities and Exchange Commission ("SEC") prior to an offer or sale unless an appropriate exemption from registration exists. Section 3(b) and 4(2) of the Securities Act provide for exemption from registration and Regulation D was promulgated thereunder. Regulation D requires the filing of a Form D 15 days after the first sale pursuant to the Regulation D exemption. The Commission plans to revise Form D to eliminate certain information currently required by the Form and to clarify other questions therein in order to minimize the filing burdens on issuers using the Regulation. In the context of this rulemaking, Form D will be fully reviewed for purposes of the Regulatory Flexibility Act.

Abstract: The Commission intends to revise the disclosure requirements under the federal securities laws relating to registration under the Securities Act of 1933 of securities to be offered to employees of an issuer pursuant to certain plans. Such registration currently is made on Form S-8 (17 CFR 239.16b). The Commission has found that the extensive disclosures required under Form S-8 are burdensome to issuers and may not produce benefits to employees, who already have access to much of the required information under ERISA and reports under the Securities Exchange Act of 1934. The Commission is developing proposals in this area and considering alternative approaches to the problem of reducing burdens while ensuring the availability of sufficient information to employees.

In the context of this rulemaking, Form S-8 will be fully reviewed for purposes of the Regulatory Flexibility Act.

CFR Citation: 17 CFR 239.25, (New)

Abstract: As part of its review of proxy rules, regulations, and schedules, the Commission intends to revise the disclosure requirements under the federal securities laws relating to mergers, acquisitions, and other

business combinations, focusing primarily on Form S-14 (17 CFR 239.23). Form S-14 is used for the registration of securities in business combination transactions under Rule 145 (17 CFR 230.145). The Commission has found that in many cases the sheer volume of disclosure in connection with mergers, acquisitions and other business combinations tends to be confusing to security holders and burdensome for registrants to prepare. The Commission intends to revise the existing disclosure requirements of Form S-14 to provide streamlined, comprehensible disclosure to shareholders and to reduce compliance burdens on issuers consistent with the protection of investors. In developing proposals in this area and considering alternative approaches to the problem of reducing burdens while ensuring that sufficient information is available to security holders, the Commission will attempt to apply the techniques used in its integrated disclosure system, such as incorporation (cont)

Abstract: The Commission intends to propose a rule under section 21(d)(2)(A)of the Securities Exchange Act of 1934 to exempt from liability for purposes of that section trading by multiservice firms under certain circumstances. The rule proposal will be similar in intent and design to Rule 14e-3(b) which establishes an exception from liability under Rule 14e-3(a) of the Exchange Act where an institution or other non-natural person engaged in the reasonable procedures to ensure that individuals within the institution who make investment decisions on behalf of such person would not know or would not use material, non-public information within the possession of such person and that such individuals did not in fact know the information.

CFR Citation: 17 CFR 240.14a-1 to 240.14a-12; 17 CFR 240.14a-101; 17 CFR 240.14a-102

Abstract: As part of its proxy review program, the Commission intends to review the rules governing proxy contests, which are contained in Regulation 14A, promulgated under Section 14(a) of the Exchange Act. Regulation 14A regulates the solicitation of proxies in regard to securities registered under Section 12 of the Exchange Act. In general, Regulation 14A specifies the information required to be disclosed to security holders to enable them to make informed decisions concerning authorization of proxies. This review focuses only on regulations concerning proxy contests. Rules 14a-3 through 14a-10 prescribe certain filing, dissemination and disclosure requirements with respect to all proxy solicitations, including proxy contests. Rule 14a-11 prescribes special requirements relating only to contested elections of directors. The number of proxy contests has risen in recent years and the rules relating to them have not been reexamined in some time. The Commission's goal in this review is to make sure that the rules pertaining to proxy contests still operate effectively in addressing this dynamic area, thus benefiting shareholders and issuers.

Abstract: Regulation 14A specifies the information required to be disclosed to security holders to enable them to make informed decisions concerning authorization of proxies. Regulation 14A consists of twelve rules and Schedules 14A and 14B. These provisions contain requirements regarding disclosures in, and dissemination and filing of, proxy solicitations with respect to a security registered pursuant to Section 12 of the Exchange Act, opposition solicitations with respect to the election of directors and annual reports to security holders accompanying or preceding a proxy solicitation with respect to a security registered pursuant to Section 12 of the Exchange Act. This regulation is being reviewed in conjunction with the Commission's examination of its proxy

rules and will encompass any provisions not specifically covered in other related proxy review projects. The review will attempt to identify ineffective or outmoded rules and, as appropriate, rescind or replace such rules with alternatives designed to maximize shareholder protection while minimizing burdens on registrants.

Abstract: The Commission will review the existing rules and reporting forms intended to implement the provisions of Section 16 of the Securities Exchange Act. Section 16 seeks to deter misuse of inside information by imposing certain periodic and transactional reporting requirements on the officers, directors and principal beneficial shareholders of companies registered under that Act as well as certain limitations on equity transactions by those persons. Over the years the Commission has adopted a number of rules and forms to clarify the applicability of Section 16's requirements to particular circumstances. The Commission will examine their current suitability in light of the purposes of the statute. The Commission also will examine the concept of beneficial ownership for purposes of Sections 13, 14 and 16 of the Securities Exchange Act. Section 13 provides notice of possible changes in control of a registrant by imposing certain reporting requirements on persons acquiring beneficial ownership of 5% or more of a registrant's equity securities. Section 14, which regulates the proxy solicitation process, contains a (cont)

In 1978, the Commission, after a series of public hearings, adopted a definition of beneficial ownership for purposes of Section 13 and Section 14. That standard was not applied to Section 16 in view of its distinct purpose. This has resulted in some confusion as well as reporting and interpretive difficulties. The Commission will review the area to determine whether a single comprehensive definition can be adopted. The Commission believes that these actions will result in savings to persons subject to these provisions with no reduction in investor protection. This initiative is a consolidation of five projects that were previously listed separately in the October 1983 agenda.

4075. TRUST INDENTURE ACT RULES

Legal Authority: 15 USC 77s

CFR Citation: 17 CFR 260

Abstract: The Trust Indenture Act and the rules promulgated thereunder are being examined comprehensively in order to update their requirements in light of current commercial and business practices. The Commission is considering both rule changes and proposed amendments to the Act itself. The primary areas of the Commission's focus are the qualifications for eligibility of, the duties imposed on and the procedures for qualification of indenture trustees.

Legal Authority: 15 USC 78c(a)(12); 15 USC 78g; 15 USC 78k; 15 USC 78w

CFR Citation: 17 CFR 240.3a12-9

Abstract: Proposed Rule 3a12-9 would provide an exemption from Sections 7(c) and 11(d)(1) of the Exchange Act for public offerings of direct participation interests with installment payment features. This rule is being proposed, in part, as a response to a proposal made by the National Association of Securities Dealers and has the concurrence of the staff of the Federal Reserve Board. If adopted, the rule would enhance investor protection by encouraging registration of interests in direct participation programs that are sold on an installment basis and by requiring that these programs become subject to and remain in compliance with the reporting requirements of Section 12(g) of the Exchange Act until the total purchase price of the program security is discharged.

CFR Citation: 17 CFR 240.3a12-10; 17 CFR 230.180

Abstract: The proposed rule would specify certain conditions under which persons engaged in the sale of interests and participation issued in connection with certain tax-qualified retirement plans ("H.R.10" or "Keogh" plans) would not be required to register as broker-dealers under Section 15(a) of the Securities Exchange Act of 1934. In 1981, the Commission adopted Rule 180 under the Securities Act of 1933 exempting from the registration requirements of that Act interests and participations issued in connection with H.R. 10 plans. The proposed rule provides a parallel exemption from broker-dealer registration for sales of such interests and participations in H.R. 10 plans. As an alternative the staff could consider granting no-action or exemptive requests on a case-by-case basis. However, such procedure would be inefficient and needlessly expensive for both the public and the Commission staff. In addition, the Commission is proposing to amend Rule 180 to clarify that, under paragraph (a)(3)(ii) of that Rule, the employer only needs to obtain investment advice prior to the investment of plan assets. CFR Citation: 17 CFR 240.9b-1

Abstract: Currently, Rule 9b-1 provides that an options disclosure document containing information specified in paragraph (c) of the Rule must be filed with the Commission by an options market at least 60 days prior to the date definitive copies are furnished to customers. Paragraph (c) of the Rule specifies that the document must contain, among other things, a discussion of the mechanics of buying, writing and exercising the options; the risks of trading, and the uses of, the options; the market for the options; and the tax consequences of options trading. Proposed modifications to the Rule would eliminate the requirement that the document contain a discussion of the uses of options. This modification is being considered because a discussion of uses is no longer believed to be necessary for the protection of investors, and the projected cost savings by eliminating this discussion from the document is significant. The modification may benefit investors by making the document less lengthy and complex, and thereby focusing attention on the risk disclosure aspects of the document.

Abstract: Rule 10b-10 requires brokers or dealers to provide written notification to customers of the terms of securities transactions effected on their behalf. The Rule generally provides that the broker or dealer disclose whether he was acting as an agent or principal in a particular transaction, the date, time, and terms under which the transaction was completed. And, for transactions in debt securities, the dollar price or yield at which the transaction was effected, and whether the security may be redeemed prior to maturity. The amendments would also require broker-dealers to report to customers on confirmations, the trade prices and mark-ups on principal transactions in reported securities. Rule 10b-10 also provides exceptions.

CFR Citation: 17 CFR 240.11A-1

Abstract: In connection with the partial removal of exchange off-board trading restrictions through Rule 19c-3, the Commission has proposed a revised rule, Rule 11A-1, to address order exposure concerns. Proposed Rule 11A-1 would require exchange and over-the-counter market makers in Rule 19c-3 securities, prior to executing an order as principal, to hold the order out for 30

seconds, thereby allowing other market makers to compete for that order. Alternatively, the proposed rule would permit the market maker to compete for orders by maintaining competitive quotations in the National Association of Securities Dealers' Computer Assisted Execution System or the Cincinnati Stock Exchange's National Securities Trading System, and routing orders to those systems. The proposed rule also contains a number of specific exceptions to order exposure requirements. The Commission will consider public comment on the impact of the proposed rule on small broker-dealers in connection with its final rulemaking.

Legal Authority: 15 USC 78o; 15 USC 78w

CFR Citation: 17 CFR 240.15c2-4

Abstract: Rule 15c2-4 applies to best-efforts distributions of securities that are conducted on any basis where payment will not be made to the issuer until some further event or contingency occurs. It requires a broker-dealer participant either to promptly deposit investor's funds into a separate bank account, or to promptly transmit such funds to a bank escrow agent, until the contingency occurs. The purpose of the rule is to insulate offering proceeds from unlawful activities by, or the financial reverses of, the broker-dealer, pending the occurrence of the contingency. Amendments to the rule are being considered that would resolve ambiguities and would codify interpretive positions taken by the staff since the rule's adoption in 1962. An interpretive release is being considered as an alternative. Neither action would increase the costs of complying with the rule since either action would simply clarify, not change, the application of the rule. The benefits of either action would be eliminating confusion and ambiguity, more clearly defining a broker-dealer's responsibilities under the rule, and providing greater uniformity in industry practice.

Abstract: The proposed amendment to Rule 17Ad-5 would require registered transfer agents to respond to securityholder inquiries respecting dividend and interest claims within five business days of receipt. The registered transfer agent would not be required, however, to pay those claims within the time frame set forth in the proposed amendment. This amendment is designed to accelerate the time frame within which dividend claims are researched and settled. The proposed amendment will be evaluated in light of the relative costs and benefits to the public and the transfer agent industry.

Legal Authority: 15 USC 77c(a)(2); 15 USC 77s(a)

CFR Citation: 17 CFR 230.180

Abstract: Rule 180 provides an exemption from the registration requirements of the Securities Act for interests and participations issued in connection with certain qualified H.R. 10 plans. In order for interests in funding media issued to plans established by financially inexperienced employers to qualify for the rule's exemption, the rule, as adopted, requires those employers to obtain financial advice from an independent expert prior to adopting the H.R. 10 plan. Among other things, the Commission is considering proposing an amendment to Rule 180 that would codify a present "no-action" position regarding the situation where a financially unsophisticated employer has already established a plan for its employees without obtaining advice from an independent expert, and intends either to change the funding medium or add another funding medium to the choices already available to employees. The issuer of the funding medium in such a case would be in compliance with the rule if the issuer has reasonable grounds to believe and, after having made reasonable inquiry, does believe, that an independent financial expert reviewed the funding medium prior to the investment of the (cont)

CFR Citation: 17 CFR 239.14; 17 CFR 274.11a-1

Abstract: Form N-2 is the registration statement form under the Investment Company Act of 1940 and the Securities Act of 1933 for closed-end management investment companies other than small business investment companies and companies which issue periodic payment plan certificates or which are sponsors or depositors of companies issuing such certificates. Included within the registration statement are the companies' prospectuses used in offering their securities to the public. The Commission believes a simplified prospectus is necessary because current prospectuses have become too cumbersome for the average investor to understand and because current requirements result in the disclosure of much information that is not necessarily material to an investment decision. Simplification will, therefore, make disclosure easier for investors to understand and reduce the costs and burdens of of preparing and distributing prospectuses. Accordingly, the Commission is proposing a new form N-2A that most likely would be structured as a three-part form, one part of which would be a new simplified prospectus. Abstract: On November 9, 1984, the Commission issued a release (Investment Company Act Release No. 14230; 49 FR 45172) soliciting public comment on proposed revisions to Item 5, Management of the Fund, of Form N-1A, the registration form under the Securities Act of 1933 and the Investment Company Act of 1940 used by open-end, management investment companies other than registered separate accounts of insurance companies. The revised Item 5 would require a consolidation of all narrative information in the prospectus concerning significant expenses of the registrant and would add a tabular

presentation setting forth the major types of expenses, the names of the payees, and the amount of the expense, expressed as a percentage of average net assets.

Legal Authority: 15 USC 80a-8; 15 USC 77g; 15 USC 77j

CFR Citation: 17 CFR 239.16; 17 CFR 274.12

Abstract: Forms S-6 and N-8b-2 are the registration statement forms under the Securities Act of 1933 and the Investment Company Act of 1940, respectively, for unit investment trusts. Included within Form S-6 is the trust's prospectus used in offering securities to the public. A substantial amount of the information required by Form N-8b-2 is also required by Form S-6. Consequently, one goal of the Commission with regard to simplification of registration statements for unit investment trusts is the integration of the disclosure requirements of Forms S-6 and N-8b-2. The Commission also believes that current prospectuses for unit investment trusts have become too cumbersome for the average investor to understand and that current disclosure requirements result in the dissemination of much information that is not necessarily material to an investment decision. Abstract: Rule 145 under the Securities Act of 1933 states that certain mergers and business combination transactions involve an offer or sale of securities subject to separate registration under section 5 of the Act. Transactions subject to the rule must either be registered on Form S-14 or, in the case of open-end investment companies, the registrant may register on its usual form as long as the disclosure requirements of Form S-14 are satisfied. The filing of the registration statement satisfies the requirement for filing a proxy statement and form of proxy or information statement and the transmittal of such material to security holders satisfies the requirements of the Securities Act for the furnishing of a prospectus. Included within Form S-14 is the company's prospectus used in offering the securities issued in the transaction. The disclosure required by Form S-14 results in prospectuses that are too long and complex, particularly with regard to business combination transactions that involve relatively small acquired companies. Abstract: Absent an exception, every solicitation of a proxy, authorization or consent in respect of any security with respect to which a registered investment company is the issuer, is subject to rules adopted pursuant to the Securities Exchange Act of 1934 and the Investment Company Act of 1940 concerning solicitations of proxies. Solicitations to which the rules apply may not commence unless each person solicited is furnished or has previously been furnished with a proxy statement containing specified information prepared in accordance with certain

This has led to certain duplicative and, in certain cases, complex requirements. Legal Authority: 15 USC 79 (l)(b)

CFR Citation: 17 CFR 250.45 (b)(6), (New)

Abstract: Section 12 (b) of the Public Utility Holding Company Act of 1935 makes it unlawful for a registered holding company or subsidiary company to lend or in any manner extend its credit to or indemnify any company in the same system in contravention of rules, regulations and orders of the Commission. Rule 45(a) provides that such extensions and indemnifications will be determined on a case by case basis pursuant to application and Commission order. Rule 45(b) grants certain limited exceptions to 45(a). Increasingly the parent company has been seeking Commission approval to act as surety guarantor or indemnifier for its subsidiaries because this avoids such subsidiaries from either having to pay to third party premiums or to pay greatly reduced premiums. A rule exempting from prior Commission approval would save the holding company system companies the filing fees and other expenses such as attorney fees. Staff time would be saved because staff would no longer have to process applications.

4092. EXEMPTIONS FROM SECTION 17(C) OF THE ACT

Legal Authority: 15 USC 79q(c)

CFR Citation: 17 CFR 250.70

Abstract: Under Section 17(c) of the Public Utility Holding Company Act of 1935 officers or representatives of certain financial institutions are disqualified from serving as officers or directors of registered holding company system companies. Current Rule 70 provides certain exemptions. The registered holding companies have indicated that too many otherwise qualified persons are excluded because of Section 17(c). The rule is presently being re-evaluated to determine if it is possible to broaden the current exemptions. In dollar terms there will be no costs or benefits. In non-dollar terms, there will be a greater number of persons eligible to serve on the boards or registered holding company system companies.

4093. MUTUAL FUND GOVERNANCE

Legal Authority: 15 USC 80a-16(c); 15 USC 80a-35; 15 USC 80a-6(c)

CFR Citation: Not yet determined

Abstract: On December 10, 1982, the Commission issued an advance concept release (Investment Company Act Release No. 12888, (47 FR 56509)) soliciting public comment on whether the Commission should propose rules or recommend legislation which would provide for an alternative form of mutual fund governance. Specifically, this release requests comment on whether mutual funds should be exempted from shareholder voting and/or director requirements under the Investment Company Act of 1940 (the "Act") and, if so, whether conditions could be fashioned which would adequately insure against loss of investor protection. Although such changes might be effected through rulemaking, the Commission has indicated that, in its preliminary judgment, changes of this magnitude should be effected through legislative rather than administrative action. Since the costs and benefits of providing for an alternative scheme of mutual fund governance cannot be estimated at the present time, the release solicits specific comment on the costs and benefits which would result from such changes. Extension of comment period until April 18, 1983 was announced in Investment Company Act Release No. 13012 (cont)

4094. ● STANDARDIZED FORMULA FOR CALCULATING INVESTMENT COMPANY YIELD

Legal Authority: 15 USC 80a-37

CFR Citation: 17 CFR 270

Abstract: Yield quotations are widely used by investment companies in advertising the sale of their shares. Mutual funds other than money market funds, however, are not required to calculate yield under a standardized formula. As a result, it may be difficult for and confusing to investors to compare the relative advantages of investing in different funds with similar investment objectives. The Commission is considering proposing a rule to require mutual funds other than money market funds to calculate their yields under standardized formulas depending on their investment objectives. Because the proposed rule is in the developmental stages, the potential effect on small entities and its potential costs and benefits as a whole are unknown at this time.

Abstract: The Commission is considering whether to propose a rule that would permit investment companies to acquire standby commitments solely for the purpose of facilitating portfolio liquidity and to value such commitments in a fashion consistent with their limited purpose. CFR Citation: 17 CFR 270.3a-4

Abstract: In Investment Company Act Release No. 11391 (October 10, 1980) (45 FR 69479) the Commission proposed for public comment Rule 3a-4, which would deem investment management services providing their clients with individualized treatment not to be investment companies for purposes of the Act. The rule provides a "safe harbor" for any investment manager providing its clients with treatment based on the needs and goals of each client. Under such circumstances, regulation of investment management services under the Act appears unnecessary. The proposed rule was intended to clarify the Commission's position on the question of "mini-accounts" by providing a safe harbor for certain investment management services and thereby provide some certainty to the public. The Commission does not expect any final action taken on the proposal to significantly affect the cost of providing investment management services. The public comment letters on the proposal have been reviewed and alternatives for final action are being formulated.

Legal Authority: 15 USC 80a-6(c); 15 USC 80a-11(a); 15 USC 80a-37(a)

CFR Citation: 17 CFR 270.11a-3; 17 CFR 270.11a-4

Abstract: The Commission is considering whether to propose a Rule 11a-3 and a Rule 11a-4 which would exempt certain persons from the requirements of Section 11(a) of the Investment Company Act. That section generally prohibits any registered open-end investment company and the principal underwriter of its shares from making an offer to a shareholder to exchange his security for another security on any basis other than the net asset values of the securities to be exchanged without approval of the Commission. Section 11(c) extends the prohibitions of Section 11(a) to offers of the securities of unit investment trusts. The Commission has issued numerous orders permitting open-end management companies and the principal underwriter(s) of their shares to make exchange offers on the basis of the relative net asset value of the securities being exchanged plus a sales load equal to the difference between the sales load which would otherwise be charged on the securities to be acquired and on the securities to be exchanged. The Commission has also issued orders permitting unit investment trusts and their sponsors to make offers of exchange based on the relative net asset (cont)

The proposed rules would codify such orders (Rule 11a-3 for management companies; Rule 11a-4 for unit investment trusts) thereby eliminating the cost for small companies of preparing applications seeking the orders. Thus, the proposed rules would have a beneficial economic impact on such companies. The proposed rules would contain several conditions to assure the protection of investors. Any such conditions would be included in the rule in order to adequately protect investors against the abuses addressed by Section 11.

Legal Authority: 15 USC 80a-6(c); 15 USC 80a-17(g); 15 USC 80a-37(a)

CFR Citation: 17 CFR 270.17g-1

Abstract: The Commission is considering whether to adopt an amendment to Rule 17g-1 under the Investment Company Act. The amendment was proposed for public comment in Investment Company Act Release No. 11193 (June 2, 1980) (45 FR 38407). Rule 17g-1 requires every registered investment company to provide and maintain a bond against larceny and embezzlement covering officers and employees of the company. In some circumstances, the officers and employees of a company's depositor, trustee, investment adviser or other manager and various affiliates of such persons, because they have access to the company's assets, function as officers and employees of the investment company. The proposed amendment to the rule would clarify the scope of the rule by explicitly requiring the bonding of such persons. The principal cost associated with this rule would be the cost of a bond. That cost would vary according to the persons required to be bonded by the rule. In this regard, before adopting any amendment to the rule, the Commission will carefully consider what persons should be bonded to protect investors adequately, weighing the benefits of the protection against the cost of a bond.

Legal Authority: 15 USC 80a-17(j); 15 USC 80a-37(a)

CFR Citation: 17 CFR 270.17j-1

Abstract: Rule 17j-1 requires every access person of a registered investment company, or of an investment adviser of or principal underwriter for the investment company to report to the investment company certain of his securities transactions. The Commission is considering whether to propose an amendment to this rule which would reduce the reporting requirement for

investment company directors who are interested persons with respect to the investment company by reason of their affiliation with a registered broker-dealer. Members of the industry have characterized these reporting requirements as unnecessarily burdensome in some instances. Any such rule amendment would have the effect of lessening the reporting requirements currently imposed by the rule. As a result, the staff believes that the costs, which should be insignificant, of complying with any amendment would be significantly less than the benefits it would provide. The staff is concurrently reviewing similar reporting requirements for investment advisers under Rule 204-2(a)(12) and (13) under the Investment Advisers Act, in order to (cont)

Legal Authority: 15 USC 80a-37; 15 USC 80a-24

CFR Citation: 17 CFR 270.24f-2

Abstract: Rule 24f-2 allows certain investment companies to register an indefinite number of their securities under the Securities Act of 1933. The rule was adopted by the Commission in 1977 in order to address the problem of oversales by investment companies. Although the rule is relied on by unit investment trusts, provisions of the rule regarding the payment of fees and the filing of notices may be unnecessarily burdensome for unit trusts under certain circumstances. The Commission is considering a rule which would streamline the procedures to be followed by unit investment trusts relying on the indefinite registration provisions of rule 24f-2. Because the proposed rule is in the developmental stages, its potential costs and benefits as a whole and the potential effect on small entities are uncertain at this time.

4103. PROPOSED RULE 205-3 UNDER THE INVESTMENT ADVISERS ACT OF 1940

Legal Authority: 15 USC 80b-6a

CFR Citation: 17 CFR 275.205-3

Abstract: On March 15, 1985, the Commission issued a release, IA-961, 50 FR 11718, soliciting public comment on a proposed revision of section 205 of the Advisers Act which would allow investment advisers to receive performance-based advisory fees under certain circumstances. Currently, Section 205 prohibits with certain limited exceptions, registered investment advisers from being compensated on a basis of a share of capital gains upon or capital appreciation of the kinds or any portion of the funds of a client. The effect of a rule if adopted, would be to allow advisers greater flexibility in structuring their compensation arrangements than is now permitted the staff is of the opinion that the benefits of complying with the proposed rule would far outweigh the cost and believes the costs, if any, associated with compliance would be insignificant.

Legal Authority: 15 USC 80b-11(a)

CFR Citation: 17 CFR 206(3)-3

Abstract: Section 206(3) of the Investment Advisers Act of 1940 makes it unlawful for any investment adviser, by use of the mail or any means or instrumentality of interstate commerce, directly or indirectly, knowingly to effect a securities transaction (a) with a client while acting as principal or (b) for a client while acting as broker for a person other than such client, without disclosing in writing to such client before the completion of the transaction the capacity on which he is acting and obtaining the consent of the client to the transaction. The Commission is considering whether to propose a rule that would provide a nonexclusive method for compliance with the provisions of Section 206(3) of the Investment Advisers Act of 1940 in connection with purchases of securities from an underwriting syndicate for an advisory client under specified conditions. Because the proposed rule is still in the developmental stages, its potential effect on small entities and its potential costs and benefits as a whole are unknown at this time.

Abstract: Section 206 of the Investment Advisers Act of 1940 prohibits a wide range of fraudulent activity by investment advisers. The Commission has interpreted this section to require that advisers disclose disciplinary and legal proceedings in which they have been involved which are material to an evaluation of the adviser's integrity and ability. The Commission is considering proposing a rule under Section 206(4) of the Advisers Act, which would clarify the disclosure requirements of advisers who have been involved in disciplinary and legal proceedings. Abstract: On April 24, 1985 the Commission proposed for public comment revisions to Form ADV, the Investment Adviser registration application form to make the form a uniform form for registration with the Commission and the States. Uniform Form ADV was developed by the Commission and the North American Securities Administrators' Association (NASAA) to reduce unnecessary burdens on investment advisers as advisers with more than one governmental entity. The Commission expects to adopt the form with certain modifications in September 1985. NASAA expects to present the modified Uniform Form ADV to its membership in October 1985 for adoption. If adopted the Uniform Form ADV should result in cost savings for advisers required to register as such with the Commission and the States.

Abstract: Rule 10a-1 regulates short sales of certain securities. The rule provides generally that short sales of exchange-listed reported securities (i.e., securities as to which last sale information is reported in the consolidated system) may be effected only at a price above the price at which the immediately preceding sale was effected ("plus tick"), or at a price equal to the last sale price if the last preceding transaction at a different price was at a lower price ("zero-plus tick"), established by reference to the last sale price reported from any market in the consolidation system.
